LA NOSTRA MISSIONE: MADE IN ITALY

Da sempre l'Italia è la culla della creatività. Know-how e stile italiano sono identificati e apprezzati ovunque, tanto che il marchio Made in Italy ha sempre costituito un valore aggiunto ricercato in tutto il mondo.

Il prodotto italiano può essere immediatamente riconosciuto grazie ai dettagli, all'attenzione e ai valori estetici che sono da sempre il nostro biglietto da visita. Sulla scia di questa grande tradizione, dal 1978 EGOLUCE crea prodotti 100% Made in Italy, collaborando principalmente con aziende e artigiani italiani: per offrire ai propri clienti un prodotto di design con i più alti standard tecnologici. La scelta diligente e attenta dei componenti e dei materiali di migliore qualità e la lavorazione guidata da criteri di qualità totale, ci consente di produrre e offrire ai nostri clienti una vasta gamma di corpi illuminanti per diverse applicazioni. Le soluzioni di progettazione illuminotecnica qualificate identificano EgoLuce come uno dei più importanti produttori mondiali di illuminazione. Prodotti 100% Made in Italy.

40 ANNI DI SUCCESSO

EgoLuce: 40 anni di esperienza per la tua illuminazione su misura. L'evoluzione del prodotto combinato con nuovi materiali, tecnologie e design, sono i reali risultati delle nostre collezioni. Il know-how e la cura dei dettagli in ogni fase della produzione sono stati una forza costante in questi 40 anni di attività di successo. La capacità nella risoluzione dei problemi, l'attenzione al cliente e a ogni singola domanda del mercato, sono una missione costante per Tutti noi!

APPROCCIO UMANO

I sistemi di controllo degli apparecchi considerano il bioritmo umano e incidono positivamente sulla salute e sul benessere. Un'intelligente gestione dell'energia e del colore della luce danno la possibilità di creare nuovi spazi nel vuoto, regalando allo spettatore una diversa visione dello spazio. Una nuova esperienza sensoriale per la tua anima. Una luce capace di muoversi e variare nello spazio, in grado di fondersi, di stupire e di appassionare: una luce indimenticabile. La luce vive nell'ombra perché il suo flusso è regolato da soluzioni accattivanti in ogni versione.

OUR MISSION: MADE IN ITALY

Since ever Italy is the cradle of creativity. An aware production know how and style are identified and commended throughout the world, so much so that the Made in Italy mark has always constituted sought-after an added value.

An Italian product can immediately be recognized: details, attention and the aesthetic values are their business card. In the wake of this great tradition, since 1978 EGOLUCE has been creating 100% Made in Italy products, mostly collaborating with Italian companies and craftsmen: in order to offer its clients a design product with highest technology standard. The diligent and careful selection of best quality components and materials and the processing guided by criteria such as total quality, enable us to produce and offer to our clients a vast range of light fixtures for several applications. Qualified Lighting design solutions identify EgoLuce as one of the most important player in the worldwide lighting producer. Products 100%Made in Italy.

40 YEARS OF SUCCESS

EgoLuce 40 years of experiences for your tailored lighting solutions. Product evolution matches with new material, technologies and design, are actual achievements of Our collections. Know-how and care in details in every production phases has been a forceful constant in these 40 years of successful activity. Problem solving liability, customer care and attention to each and every markets demand are a permanent mission for us. All of us... This steady Blend!

HUMAN APPROACH

Modern lighting controls take account of the human biorhythm and impact positively on health and well-being. An intelligent energy and colour management of human light creates new spaces in empty, as only an emotional waterfall can do in You. A new sensorial experiences for your Soul. Light artful to Move, to Fly, to Melt itself, to Hit inside, to Engage a simply unforgettable Light. Light survives in the shadow because its Led glare is shaded by glamour solutions.

**DESIGN**

Il design della luce è intrinsecamente funzionalità ed estetica e un approccio progettuale creativo e adattativo.

SUL PERCORSO DELL'INNOVAZIONE

Una luce senza tempo in grado di comprendere i nuovi bisogni umani in un mondo dinamico in continua rapida evoluzione. Egoluce propone una luce vissuta come esperienza di vita per lighting designers, architetti, progettisti come partner e interlocutori.

QUALITÀ IN PRIMO LUOGO

Soluzioni di illuminazione che grazie ad un alto livello di CRI, offerta di temperature colore, bianco dinamico e UGR, sono in grado di adattarsi a tutti i progetti di interni ed esterni. fornendo una luce come risposta ai tuoi nuovi progetti architettonici. Una luce capace di disegnare nuove forme nel vuoto per ottenere una esperienza visiva e sensoriale rinnovata.

LA TUA LUCE

Una concezione orientata alla semplificazione del concetto di design nella vita quotidiana: una luce che sa adattarsi alle esigenze. Il tempo vola così veloce che la vita si armonizza come la luce per condurre i tuoi sensi in un'unica sinfonia.

ECO/EGO

Il riscaldamento globale e l'urgente necessità di ridurre drasticamente il consumo di energia e le emissioni di CO₂ sono ormai problemi riconosciuti a livello mondiale. In questa nuova era di consapevolezza ognuno ha un ruolo da svolgere, non importa quanto piccolo o grande sia.

EGOLUCE è un'azienda attenta all'ambiente e ha completamente rivisto la sua collezione proponendo nei suoi cataloghi una gamma completa di prodotti a ridotto consumo energetico. Le scelte eco-compatibili contribuiscono alla sostenibilità ambientale e sono un tema fondamentale per Egoluce.

**DESIGN**

Lighting design is both inherently functional and innately aesthetic.

*Design approach: generative and adaptive creativities
Conceptual design based on metaphors as a heuristic tool.*

ON THE INNOVATION PATH

Timeless light able to figure out new human needs in a dynamic surfers world in constant evolution.

Egoluce proposes a light lived as a life experience to: Lighting specialist, Designers, Architects, Specifiers as first partners.

QUALITY FIRST

Lighting solutions that because of: high CRI level, K° offer, dynamic white and UGR

solutions, are able to adjust themselves to every interiors and exteriors projects.

Egoluce a Light as response to Your new architectural projects, light draws spaces in several shapes to get your own sensorial experience.

YOUR OWN LIGHT

A new tradition oriented to the contemporary context that simplifies the new design

concept in our daily life: adjusting itself with Your needs.

The time flies by so fast that the life tunes itself with the light to bless your senses in a symphony.

ECO/EGO

Global warming and the urgent need to drastically cut energy consumption and CO₂ emission are now worldwide recognized problems. In this new era of awareness everyone has a role to play, no matter how small or big.

EGOLUCE is an environmentally conscious company and has totally revised his collection proposing in its catalogues a full range of low consumption products.

Eco friendly choices contribute to environment sustainability.

5 anni di garanzia.
5 years warranty.

Apparecchio riparabile.
Fixture repairable.

I modelli **EGOLUCE** sono progettati e prodotti attenendosi ai migliori standard qualitativi esistenti sul mercato illuminotecnico seguendo il criterio del “fatto bene” nel pieno rispetto di regole sia qualitative che normative, nei campi di applicazione dei nostri prodotti.

- Cura e precisione della progettazione finalizzata a una produzione di altissima qualità.

- Eccellente qualità nella fabbricazione dei prodotti grazie a: selezione di componenti di alta gamma, cura nelle finiture, assemblaggio preciso e puntuale, imballaggio impeccabile per ogni tipo di spedizione.

- Collaudi severissimi con test di durata e affidabilità, sia sui singoli componenti come sugli apparecchi finiti. Il tutto assicura 5 anni di garanzia sui prodotti e componenti EGOLUCE correttamente installati come da fogli d'istruzione.

EGOLUCE models are designed and produced according to the best quality standards existing on the technical lighting market following the “well made” standard: in full compliance with both quality and regulatory rules, in the fields of application of our products.

- Care and precision of the design aimed at a production of the highest quality.

- Excellent quality in the manufacture of products thanks to: high selection of high-end components, attention to coating, precise and punctual assembly and packaging, perfect for all types of shipping.

- Extremely severe durability and reliability tests: both on individual components and on final products.

These targets guarantees 5 years warranty on correctly installed EGOLUCE products and components following the instruction for users.

4 buone ragioni per scegliere **EGOLUCE**

4 good reasons to choose EGOLUCE

1 – LED

I prodotti EGOLUCE sono dotati di sorgenti Led di ultima generazione. Le diverse tecnologie applicate garantiscono ottime prestazioni:

Eccellente resa luminosa.
Ottimo valore di resa cromatica.
Svariate temperature di colore.
Sorgenti progettate per durare nel tempo.

2 – MATERIALI

Abbiamo selezionato i migliori materiali per apparecchi che devono durare nel tempo:

- ALLUMINIO: duttile ed inalterabile assicura un'ottima dispersione del calore (importante per ottimizzare la vita del LED).
- ACCIAIO INOX: la migliore garanzia per apparecchi che devono resistere ad agenti atmosferici o chimici (sale, cloro etc.).
- CLEAR CRYSTAL: per creare oggetti con effetti e proiezioni di luce unici.
- METACRILATO: per diffondere ed al tempo stesso mascherare la luce puntiforme del LED.

3 – CARATTERISTICHE GENERALI

Piccoli particolari che fanno grande un prodotto:

- Facile sostituzione del LED, la sorgente luminosa può essere rimpiazzata senza problemi come una comune lampadina.
- Presenza di adeguati dissipatori di calore su tutti i prodotti per garantire la durata dei LED.
- Possibilità, per la maggior parte dei prodotti, di essere alimentati sia a 350 mA che a 500 mA
- Ottimizzazione della resa luminosa tramite l'utilizzo di lenti o parabole.

4 – SICUREZZA

Una qualità garantita:

- Tutti i modelli vengono sottoposti a prove termiche e test funzionali.
- Tutti i componenti elettronici proposti in catalogo (driver, dimmer) sono dotati di marchio europeo di qualità (ENEC).
- Il 100% della produzione viene sottoposto a test qualitativi e funzionali prima di essere immesso sul mercato.

1 – LED

EGOLUCE products are equipped with latest generation LED. We use different technologies to grant very good performances:

Excellent luminous efficacy.
Very good colour rendering.
Different light colours.
Designed to last for a very long time.

2 – MATERIALS

We have selected best materials for products that must have long-lasting life:

- ALUMINIUM – ductile and unalterable grants an optimal heat dissipation (important to grant longest operational life of LED).
- STAINLESS STEEL – the best warranty for fixtures that must resist to atmospheric or chemical agents (salt, chlorine, etc.).
- CLEAR CRYSTAL: to create objects with unique light effects and reflections.
- METHACRYLATE: to diffuse and at the same time shade the punctual light of LED.

3- GENERAL FEATURES

Small details that makes a great product:

- LED unit easy to replace, the light source can be replaced as if it were a common lamp.
- Proper heat sink device placed in every product to grant maximum lifetime for the LED.
- Most of the products can be operated both at 350 mA or 500 mA.
- Optimization of the luminous flux obtained by the use of lenses and reflectors.

4 – SAFETY

A granted quality

- All our models undergo rigorous temperature and functional testing.
- All electronic components displayed in our catalogue (drivers, dimmers) are marked with European quality certification (ENEC).
- 100% of our products undergo quality and functional end line test prior to commercialization.

La collezione Matita è caratterizzata dall'esile profilo di alluminio e dal micro circuito LED ad alta efficienza. La ricerca progettuale, partita proprio da questi due elementi, si è concentrata sulla miniaturizzazione e l'alleggerimento di tutti gli altri componenti con l'obiettivo di lasciare l'essenziale per percepire solo linee di luce nello spazio. In questa direzione è andata la scelta degli snodi che permettono di muovere liberamente i profili e del cavo di nylon trasparente che lascia fluttuare nel vuoto le sospensioni.

Il risultato è sorprendente e ha visto la realizzazione di oggetti che non sono solo splendide lampade ma veri e propri strumenti per "disegnare con la luce" e ridefinire con essa la percezione dello spazio.

La famiglia si compone di svariate soluzioni tipologiche tradizionali come le lampade d'appoggio o da parete/plafone ma anche di soluzioni inedite e del tutto nuove;

si va dalle lampade da terra che raggiungono i due metri e mezzo di altezza e possono essere inclinate sulla base, alla proposta a luce indiretta che sembra tagliare in due la parete, fino alla soluzione a "puntello" che può essere collocata liberamente tra la parete e il plafone, o alle lampade da incasso che sembrano uscire magicamente dal soffitto.

The Matita collection is characterized by the slender aluminium profile and the high efficiency LED micro circuit. The design research, begun from these two elements, focused on the miniaturization and lightening of all the other components, with the aim of leaving the essentials to perceive only lines of light in space. That's why we choose joints that allow the profiles to move freely and of the transparent nylon cable that lets the suspensions floating in the void.

The surprising result is the creation of objects with amazing design and, at the same time, functional tools for "drawing with light" and redefining the perception of environments.

The family consists of a variety of traditional solutions such as portable or wall / ceiling lamps, introducing on the other side innovative alternative configurations.

A wide selection of options between floor lamps, capable to achieve two and a half meters in height and rotating on the base, indirect light solutions, that seems to cut the wall in two sections, the spike wall to ceiling solution allowing placement at any height and angle and finally the recessed purpose that seem to magically come out of the ceiling.

La collezione Matita se caractérise par le profil mince en aluminium et le microcircuit LED à haute efficacité. La recherche de conception, qui est partie de ces deux éléments, s'est concentrée sur la miniaturisation et l'allègement de tous les autres composants dans le but de laisser l'essentiel pour ne percevoir que des lignes de lumière dans l'espace. Le choix des articulations qui permettent aux profilés de se déplacer librement et du câble en nylon transparent qui laisse flotter les suspensions dans le vide est allé dans ce sens.

Le résultat est surprenant et a vu la création d'objets qui ne sont pas seulement de splendides lampes mais de véritables outils pour « dessiner avec la lumière » et redéfinir la perception des environnements avec elle.

La famille se compose de diverses solutions typologiques traditionnelles telles que des supports ou des appliques/plafonniers mais aussi de solutions nouvelles et entièrement nouvelles ;

ils vont des lampadaires qui atteignent deux mètres et demi de hauteur et peuvent être inclinés sur la base, à la proposition de lumière indirecte qui semble couper le mur en deux, à la solution "prop" qui peut être librement placée entre le mur et le plafond, ou les lampes encastrées qui semblent sortir comme par magie du plafond.

Die Matita-Kollektion zeichnet sich durch das schlanke Aluminiumprofil und die hocheffiziente LED-Mikroschaltung aus. Die Designforschung, die von diesen beiden Elementen ausging, konzentrierte sich auf die Miniaturisierung und Aufhellung aller anderen Komponenten mit dem Ziel, das Wesentliche zu belassen, um nur Lichtlinien im Raum wahrzunehmen. In diese Richtung ging die Wahl der Gelenke, die eine freie Bewegung der Profile ermöglichen, und des transparenten Nylon-seils, das die Aufhängungen im Leeren schweben lässt.

Das Ergebnis ist überraschend und hat zur Entstehung von Objekten geführt, die nicht nur prächtige Lampen, sondern echte Werkzeuge sind, um „mit Licht zu zeichnen“ und damit die Wahrnehmung von Raum neu zu definieren. Die Familie besteht aus verschiedenen traditionellen typologischen Lösungen wie Stütz- oder Wand-/Deckenleuchten, aber auch aus neuen und völlig neuen Lösungen; Sie reichen von Stehleuchten, die eine Höhe von zweieinhalb Metern erreichen und am Sockel geneigt werden können, über das indirekte Lichtangebot, das die Wand zu teilen scheint, bis hin zur „Stützen“-Lösung, die frei zwischen der Wand platziert werden kann und die Decke, oder die Einbauleuchten, die wie von Zauberhand aus der Decke zu kommen scheinen.

La colección Matita se caracteriza por el perfil delgado de aluminio y el microcircuito LED de alta eficiencia. El estudio de diseño, que ha empezado propio de estos dos elementos, se centró en la miniaturización y aligeramiento de todos los otros componentes con el objetivo de dejar lo esencial para percibir solo líneas de luz en el aire. La elección de las uniones que permiten que los perfiles se muevan libremente y del cable de nailon transparente que deja flotar las suspensiones en el aire fue en esta dirección. El resultado es sorprendente y ha visto la creación de objetos que no solo son espléndidas lámparas sino verdaderas herramientas para "dibujar con luz" y redefinir la percepción del espacio con ella. La familia está formada por varias soluciones y tipología tradicionales como soporte o apliques / plafones, pero también por soluciones inédita y completamente nuevas; empezando desde las lámparas de pie que alcanzan los dos metros y medio de altura y se pueden inclinar sobre la base, a la propuesta de luz indirecta que parece cortar la pared en dos, a la solución "puntal" que se puede colocar libremente entre la pared y el techo, o las lámparas empotradas que parecen salir mágicamente del techo.

Коллекция Matita (карандаш) выделяется подчеркнуто тонким алюминиевым профилем и высокоэффективным светодиодным модулем. Проектировщики исходили именно из таких характеристик этих элементов и сконцентрировались на миниатюризации всех компонентов с тем, чтобы подчеркнуть именно лучи света в пространстве. Для этого были подобраны соединительные элементы, позволяющие свободно передвигать плавающие в воздухе подвесы из прозрачного нейлона. Эти замечательные приборы дают потрясающий результат, «рисую» световые эффекты и перераспределяя параметры пространства. Коллекция светильников состоит из разнообразных традиционных типологий, таких как торшеры/настольные лампы, настенные/потолочные, но также и новых решений, таких как напольные светильники высотой два с половиной метра, у которых можно менять угол наклона. Еще есть настенные, которые как бы разрезают стену пополам, свободно расположенные «распорки» между стеной и потолком, встроенные светильники как бы «выскакивающие» из стены.

Matita

La lampada ruota liberamente sul suo asse con un'inclinazione massima di 30°. - The lamp rotates freely on its axis with a maximum inclination of 30°.

Il disegno esile e lineare è enfatizzato dall'altezza del profilo, fino a 250 cm. - The slender and linear design of the lamp is emphasized by the height of the profile, up to 250 cm.

Lampada da parete orientabile a luce indiretta in alluminio.

La possibilità di orientare e controllare l'emissione della luce consente di sfruttare al massimo le qualità della sorgente LED evitando al tempo stesso fastidiosi fenomeni di abbagliamento.

La linea semplice ed elegante le conferisce un aspetto che bene si adatta a qualsiasi tipo di ambiente, dagli interni classici a quelli moderni.

La sorgente luminosa con tecnologia COB LED e driver separato garantisce un'alta efficienza luminosa di più di 2300lm a 3000K con un consumo di soli 13,8W.

Una scelta di risparmio e ecosostenibilità, ma anche di qualità dall'elevato confort visivo.

Le finiture proposte sono il bianco e la foglia oro per gli schermi riflettenti, il bianco, nero, oro e nichel spazzolato per la parte orientabile.

Adjustable indirect light wall lamp in aluminum.

The ability to direct and control the light emission allows you to make the most of the qualities of the LED source while avoiding annoying glare phenomena.

The simple and elegant line gives it an appearance that adapts well to any type of environment, from classic to modern interiors.

The light source with COB LED technology and separate driver guarantees a high luminous efficiency of more than 2300lm at 3000K with a consumption of only 13.8W.

A choice of savings and eco-sustainability, but also of quality with high visual comfort.

The finishes proposed are white and gold leaf for the reflective screens, white, black, gold and brushed nickel for the adjustable part.

Applique orientable à lumière indirecte en aluminium.

La possibilité de diriger et de contrôler l'émission lumineuse permet de tirer le meilleur parti des qualités de la source LED tout en évitant les phénomènes d'éblouissement gênants.

La ligne simple et élégante lui donne une apparence qui s'adapte bien à tout type d'environnement, des intérieurs classiques aux intérieurs modernes.

La source lumineuse avec technologie COB LED et driver séparé garantit une efficacité lumineuse élevée de plus de 2300lm à 3000K avec une consommation de seulement 13,8W.

Un choix d'économies et d'éco-durabilité, mais aussi de qualité avec un grand confort visuel.

Les finitions proposées sont le blanc et la feuille d'or pour les écrans réfléchissants, le blanc, le noir, l'or et le nickel brossé pour la partie réglable.

Applique de pared orientable con luz indirecta en aluminio.

La capacidad de dirigir y controlar la emisión de luz le permite aprovechar al máximo las cualidades de la fuente LED evitando los molestos fenómenos de deslumbramiento.

La línea simple y elegante le confiere un aspecto que se adapta bien a cualquier tipo de ambiente, desde interiores clásicos a modernos.

La fuente de luz con tecnología COB LED y driver independiente garantiza una alta eficiencia luminosa de más de 2300lm a 3000K con un consumo de tan solo 13,8W.

Una opción de ahorro y eco-sostenibilidad, pero también de calidad con alto confort visual.

Los acabados propuestos son blanco y pan de oro para las pantallas reflectantes, blanco, negro, dorado y níquel cepillado para la parte ajustable.

Verstellbare Wandleuchte mit indirektem Licht aus Aluminium.

Durch die Möglichkeit, die Lichtemission zu lenken und zu steuern, können Sie die Eigenschaften der LED-Quelle optimal nutzen und gleichzeitig störende Blenderscheinungen vermeiden.

Die schlichte und elegante Linie verleiht ihm ein Erscheinungsbild, das sich gut an jede Art von Umgebung anpasst, vom klassischen bis zum modernen Interieur.

Die Lichtquelle mit COB-LED-Technologie und separatem Treiber garantiert eine hohe Lichtausbeute von mehr als 2300lm bei 3000K bei einem Verbrauch von nur 13,8W.

Eine Auswahl an Einsparungen und ökologischer Nachhaltigkeit, aber auch an Qualität mit hohem Sehkomfort.

Die vorgeschlagenen Oberflächen sind Weiß und Blattgold für die reflektierenden Bildschirme, Weiß, Schwarz, Gold und Nickel gebürstet für den verstellbaren Teil.

Настенный светильник из алюминия с регулируемым отраженным светом.

Возможность направлять и контролировать излучение света позволяет максимально использовать качества светодиодного источника, избегая при этом раздражающих явлений ослепления.

Простая и элегантная линия придает ему внешний вид, который хорошо адаптируется к любому типу интерьера, от классического до современного интерьера.

Источник света с технологией COB LED и отдельным драйвером гарантирует высокую светоотдачу более 2300 лм при 3000K при потреблении всего 13,8W.

Выбор экономии и экологической устойчивости, а также качества с высоким визуальным комфортом.

Предлагаемые варианты отделки: белый и золотой лист для отражающих экранов, белый, черный, золотой и матовый никель для регулируемой части.

Collezione di lampade a luce diretta.

I corpi sono in alluminio, così come i piccoli proiettori orientabili disegnati per sfruttare al massimo la qualità della luce d'accento. La sorgente COB LED integrata con parabola offre un'altissima efficienza e allo stesso tempo, grazie alla posizione arretrata, garantisce un perfetto confort visivo.

La versione da terra è caratterizzata dal grande ed esile arco che raggiunge i 2,10 mt di altezza e consente di portare i due proiettori al centro di un tavolo o sopra una seduta di un divano. La grande base piatta fornisce alla lampada l'adeguata stabilità e la scelta dei materiali la rendono facilmente spostabile.

La luce è controllata dal dimmer a pedale sul cavo di alimentazione

Le soluzioni sospese, lineare e tonda, sono provviste di tre spot orientabili che permettono di indirizzare la luce in qualsiasi punto a proprio piacimento. Dal design elegante e moderno sono ideali per illuminazioni di spazi espositivi, show room ma anche per ambienti residenziali, tavoli di sale riunioni e di receptions.

Sono fornite con rosone con driver integrato per accensione ON/OFF o con driver dimmerabile.

Collection of direct light lamps.

The bodies are made of aluminium as the small adjustable projectors, designed to achieve the highest performance in terms of quality of the accent light. The integrated COB LED source with reflector offers very high efficiency and at the same time and, thanks to the rear position, offers perfect visual comfort.

The floor version is characterized by a large and thin arch that reaches 2.10 meters in height and allows the two projectors to be placed in the centre of a table or on a sofa seat. The large flat base provides the lamp with adequate stability and the choice of materials make it easy to move.

The light can be controlled by the foot dimmer on the power cord.

The suspended solutions, linear and round, are equipped with three adjustable spots allowing to direct the beam to any desired place. With an elegant and modern design, they are ideal for lighting of exhibition spaces, showrooms but also for residential environments, tables in meeting rooms and receptions.

They are supplied with canopy with integrated driver for ON / OFF ignition or with dimmable one.

Collection de lampes à lumière directe.

Les corps sont en aluminium, tout comme les petits projecteurs orientables conçus pour tirer le meilleur parti de la qualité de la lumière d'accentuation. La source LED COB intégrée avec réflecteur offre un rendement très élevé et en même temps, grâce à la position arrière, garantit un confort visuel parfait.

La version au sol se caractérise par un arc large et élancé qui atteint 2,10 mètres de hauteur et permet de placer les deux projecteurs au centre d'une table ou sur un siège de canapé. La grande base plate offre à la lampe une stabilité adéquate et le choix des matériaux facilite son déplacement.

La lumière peut être contrôlée par le variateur à pied sur le cordon d'alimentation

Les solutions suspendues, linéaires et rondes, sont équipées de trois spots orientables qui vous permettent de diriger la lumière où vous le souhaitez. Avec un design élégant et moderne, ils sont idéaux pour l'éclairage des espaces d'exposition, des salles d'exposition mais aussi pour les environnements résidentiels, les tables dans les salles de réunion et les réceptions.

Ils sont fournis avec capote avec driver intégré pour allumage ON/OFF ou avec driver dimmable.

Sammlung von Direktlichtlampen. Die Korpusse sind aus Aluminium, ebenso wie die kleinen verstellbaren Strahler, die entworfen wurden, um die Qualität des Akzentlichts optimal zu nutzen. Die integrierte COB-LED-Quelle mit Reflektor bietet eine sehr hohe Effizienz und garantiert gleichzeitig dank der rückwärtigen Position perfekten Sehkomfort. Die Bodenversion zeichnet sich durch einen breiten und schlanken Bogen aus, der eine Höhe von 2,10 Metern erreicht und die Positionierung der beiden Strahler in der Mitte eines Tisches oder auf einem Sofasitz ermöglicht.

Der breite, flache Fuß verleiht der Leuchte ausreichend Stabilität und die Materialwahl ermöglicht ein leichtes Verschieben. Das Licht kann über den Fußdimmer am Netzkabel gesteuert werden. Die linearen und runden Aufhängungslösungen sind mit drei verstellbaren Strahlern ausgestattet, die es Ihnen ermöglichen, das Licht dorthin zu lenken, wo Sie es möchten.

Mit ihrem eleganten und modernen Design sind sie ideal für die Beleuchtung von Ausstellungsräumen, Ausstellungsräumen, aber auch Wohnumgebungen, Tischen in Besprechungs- und Empfangsräumen. Sie werden mit Haube mit integriertem Treiber für ON / OFF-Zündung oder mit dimmbarem Treiber geliefert.

Colección de lámparas de luz directa. Los cuerpos están hechos de aluminio, al igual que los pequeños proyectores orientables diseñados para aprovechar al máximo la calidad de la luz de acento.

La fuente LED COB integrada con reflector ofrece una eficiencia muy alta y al mismo tiempo, gracias a la posición trasera, garantiza un perfecto confort visual.

La versión de suelo se caracteriza por un arco amplio y muy fino que alcanza los 2,10 metros de altura y permite colocar los dos proyectores en el centro de una mesa o en un asiento de sofá. La gran base plana proporciona a la lámpara la estabilidad adecuada y la elección de materiales facilita su movimiento. La luz está controlada con dimmer sobre el cable de alimentación.

Las soluciones suspendidas, lineales y redondas, están equipadas con tres focos orientables que te permiten dirigir la luz hacia donde quieras. Con un diseño elegante y moderno, son ideales para la iluminación de espacios expositivos, showrooms pero también para ambientes residenciales, mesas en salas de reuniones y recepciones.

Se suministran con florón con driver integrado para encendido ON / OFF o con driver regulable.

Коллекция светильников с направленным лучом. Эти маленькие поворотные прожекторы с корпусом из алюминия, спроектированы для максимально возможного эффекта акцентирования освещения. Встроенный параболический светодиод на плате дает высочайшую производительность и в то же время, благодаря тому, что он утоплен, комфортен для глаза. Торшер выделяется высокой и тонкой аркой высотой 2,10 метра. Два спота освещают стол или диван. Большое плоское основание придает стабильность и позволяет перемещать торшер по комнате.

Интенсивность света регулируется педалью, в которой находится диммер.

Подвесные, линейные и круглые модели снабжены тремя поворотными спотами, что позволяет направить свет в любом желаемом направлении. Элегантный современный дизайн идеален для освещения экспозиций и шоурумов, конференц залов, ресепшн, а также прекрасно подходит для освещения жилых пространств. Поставляются с базой со встроенным драйвером и выключателем, или с диммируемым драйвером.

Sistema di piccole lampade a sospensione a luce diffusa o diretta.
I corpi sono realizzati in alluminio, i diffusori in vetro opalino soffiato e acidato o in metallo stampato.
I sistemi sono componibili in svariate configurazioni. Si possono realizzare soluzioni “a cascata” o lineari fino a 9 elementi ma anche configurazioni più complesse e attuali utilizzando i rosoni radiali e gli optional a disposizione.
Per esempio, partendo da un'unica alimentazione, è possibile guidare il sottile cavo coassiale disegnando un percorso sul soffitto e fare scendere la sospensione nella posizione voluta.
Le piccole dimensioni e il disegno essenziale, unite alla versatilità delle composizioni, rendono il sistema Tulipano adatto per essere utilizzato in moltissimi contesti; dall'illuminazione puntuale su piccoli tavoli o sopra un comodino di una stanza da letto, in gruppi di più elementi su tavoli importanti, receptions, banconi di bar, fino a composizioni più importanti in ampi spazi come luci scenografiche e d'effetto.
I rosoni che contengono i driver e gli accessori sono da ordinare separatamente.
Sono disponibili versioni per accensione ON/OFF o per la dimmerazione della luce.

System of small suspension lamps with diffused or direct light.
The bodies are made of aluminium, the diffusers in blown and etched opal glass or in moulded metal.
The systems are modular in various configurations in accordance with the chosen canopies. We can play between “waterfall” or linear solutions up to 12 elements, as well as more complex and trendy configurations using the radial canopies and the available accessories.
For example, starting from a single power supply, it is possible to guide the thin coaxial cable by drawing a path on the ceiling and to lower the suspension to the desired position.
The small size and minimal design, combined with the versatility of the compositions, make the Tulipano system suitable for use in different environments; from spot lighting on small tables or on a bedside table in a bedroom, to groups of several elements on meeting rooms, receptions, bar counters, or finally into more important compositions in large spaces where effect lights are needed.
The canopies containing the drivers and accessories must be ordered separately.
Versions are available both with ON / OFF switching or dimming the light.

Système de petites lampes à suspension à lumière diffuse ou directe.
Les corps sont en aluminium, les diffuseurs en verre opale soufflé et gravé ou en métal moulé.
Les systèmes sont modulaires dans différentes configurations en fonction des rosaces choisies. Il est possible de créer des solutions “cascade” ou linéaires jusqu'à 12 éléments mais aussi des configurations plus complexes et actuelles en utilisant les verrières radiales et les options disponibles.
Par exemple, à partir d'une seule alimentation, il est possible de guider le fin câble coaxial en traçant un chemin au plafond et d'abaisser la suspension jusqu'à la position souhaitée.
Les petites dimensions et le design essentiel, combinés à la polyvalence des compositions, rendent le système Tulipano adapté à une utilisation dans de nombreux contextes ; de l'éclairage ponctuel sur de petites tables ou sur une table de chevet dans une chambre, en groupes de plusieurs éléments sur des tables importantes, des réceptions, des comptoirs de bar, aux compositions plus importantes dans de grands espaces telles que les lumières scénographiques et à effets.
Les rosaces de plafond contenant les drivers et accessoires doivent être commandées séparément.
Des versions sont disponibles pour la commutation ON / OFF ou pour la gradation de la lumière.

System kleiner Pendelleuchten mit diffusem oder direktem Licht.
Die Körper sind aus Aluminium, die Diffusoren aus geblasenem und geätzttem Opalglas oder aus geformtem Metall.
Die Systeme sind modular in verschiedenen Konfigurationen entsprechend der gewählten Rosetten. Mit den radialen Überdachungen und den verfügbaren Optionen können “Kaskaden”- oder lineare Lösungen bis zu 12 Elementen, aber auch komplexere und aktuellere Konfigurationen erstellt werden.
So ist es beispielsweise möglich, ausgehend von einem einzigen Netzteil, das dünne Koaxialkabel durch Ziehen eines Weges an der Decke zu führen und die Aufhängung in die gewünschte Position abzusenken.
Die geringen Abmessungen und das essentielle Design, kombiniert mit der Vielseitigkeit der Kompositionen, machen das Tulipano-System für den Einsatz in vielen Kontexten geeignet; von Spotbeleuchtung auf kleinen Tischen oder auf einem Nachttisch im Schlafzimmer, in Gruppen von mehreren Elementen auf wichtigen Tischen, Empfangen, Barthecken bis hin zu wichtigeren Kompositionen in großen Räumen wie szenografische und Effektlichter.
Die Deckenrosetten mit den Treibern und Zubehör müssen separat bestellt werden.
Es stehen Varianten zum EIN-/AUS-Schalten oder zum Dimmen des Lichts zur Verfügung.

Sistema de pequeñas lámparas de suspensión de luz difusa o directa.
Los cuerpos son de aluminio, los difusores en vidrio opalino soplado y grabado o en metal estampado.
Los sistemas son modulares en varias configuraciones. Es posible crear soluciones en “cascada” o lineales hasta 9 elementos pero también configuraciones más complejas y actuales utilizando florones radiales y las opciones disponibles.
Por ejemplo, empezando de una única fuente de alimentación, es posible guiar el delgado cable coaxial trazando un camino en el techo y bajar la suspensión a la posición deseada.
Las pequeñas dimensiones y el diseño esencial, combinados con la versatilidad de las composiciones, hacen que el sistema Tulipano sea adecuado para su uso en muchos contextos; desde la iluminación puntual en pequeñas mesas o en una mesilla de noche en un dormitorio, en grupos de varios elementos en importantes mesas, recepciones, barras de bar, hasta composiciones más importantes en grandes espacios como luces escenográficas y de efectos.
Los florones que contienen los drivers y los accesorios deben pedirse por separado.
Hay versiones disponibles para encender / apagar o para atenuar la luz.

Система из маленьких подвесных светильников прямого или рассеянного света.
Корпус из алюминия, диффузоры из матового протравленного стекла или штампованного металла.
Системы komponируются в разные конфигурации. Можно построить каскады или линии до 9 элементов в каждом, можно создать еще более сложные конструкции при помощи радиальных потолочных розеток и других имеющихся в наличии аксессуаров.
Например, начиная от одной точки подключения, можно на тонком тросе пересечь весь потолок и подвесить светильник в нужном месте.
Компактные размеры и четкий дизайн делают систему Tulipano подходящей для использования в самых разных контекстах: от точечной подсветки маленьких столиков или прикроватных тумб до освещения крупных объектов группами светильников, таких как столов или барных стоек и вплоть до сценографических решений и специальных эффектов.
Розетки, в которых размещены драйверы, и другие аксессуары заказываются отдельно. Есть варианты с включением on/off и с диммированием.

Kit elemento di giunzione tra rosoni con cavi.
Kit: connectors with wires.

Lampada a parete da esterno con luce a emissione radiale radente.
Il corpo è realizzato in alluminio pressofuso anodizzato e verniciato, lo schermo in metacrilato opalino.
Il disco frontale è in alluminio verniciato.
Eclipse IP è una lampada da esterno pensata anche per arredare con una luce delicata che sembra accarezzare la parete. Può essere installata da sola o in serie per arricchire una facciata, un porticato o un qualsiasi muro esterno.

*Outdoor wall lamp with grazing radial emission light.
The body is made of anodized and painted die-cast aluminum, the screen in opal methacrylate.
The front disc is in painted aluminum. Eclipse IP is an outdoor lamp also designed to furnish with one delicate light that seems to caress the wall. It can be installed alone or in series to enrich a facade, a porch or a any exterior wall.*

*Applique d'extérieur à lumière rasante à émission radiale.
Le corps est en aluminium moulé sous pression anodisé et peint, l'écran de méthacrylate opale. Le disque avant est en aluminium peint.
Eclipse IP est une lampe d'extérieur également conçue pour meubler un lumière délicate qui semble caresser le mur. Il peut être installé seul ou en série pour enrichir une façade, un porche ou un n'importe quel mur extérieur.*

*Außenwandleuchte mit streifendem radialem Emissionslicht.
Der Korpus besteht aus eloxiertem und lackiertem Aluminium-Druckguss, der opale Methacrylatschirm. Die vordere Scheibe ist aus lackiertem Aluminium.
Eclipse IP ist eine Außenleuchte, die auch dazu gedacht ist, mit einem zarten Licht zu dekorieren, das die Wand zu streicheln scheint.
Es kann allein oder in Reihe installiert werden, um eine Fassade, eine Veranda oder jede andere Außenwand zu bereichern.*

*Aplique de exterior con luz rasante de emisión radial.
El cuerpo está fabricado en aluminio fundido a presión anodizado y pintado, la pantalla de metacrilato de ópalo. El disco delantero es de aluminio pintado.
Eclipse IP es una lámpara de exterior diseñada también para decorar con una luz delicada que parece acariciar la pared.
Se puede instalar solo o en fila para enriquecer una fachada, un porche o cualquier otro muro exterior.*

*Бра для наружного освещения с падающим светом с радиальным излучением.
Корпус изготовлен из анодированного и окрашенного литого под давлением алюминия, опаловый метакрилатный экран. Передний диск из окрашенного алюминия.
Eclipse IP - это уличный светильник, также предназначенный для украшения нежным светом, который, кажется, ласкает стену.
Его можно установить отдельно или в ряд, чтобы украсить фасад, крыльцо или любую другую внешнюю стену. Bra dlya naruzhnogo osveshcheniya s padayushchim svetom s radial'nyim izlucheniym.
Korpus izgotovlen iz anodirovannogo i okrashennogo litogo pod*

Lampada da Terra dimmerabile.
Il corpo è realizzato in alluminio con diffusore in polycarbonato opalino. La particolarità del flusso luminoso rivolto verso l'interno dell'arco garantisce un confort visivo particolarmente elevato e contribuisce ad esaltare la leggerezza della struttura. Virgola è caratterizzata dal grande ed esile arco che raggiunge i 2,20 mt di altezza consentendo di diffondere la luce in un ampio spazio.

*Dimmable floor lamp.
The body is made of aluminum with an opal polycarbonate diffuser. The particularity of the luminous flux facing the inside of the arch guarantees a particularly high visual comfort and helps to enhance the lightness of the structure.
Virgola is characterized by a large and slender arch that reaches 2.20 meters in height, allowing the light to be spread over a large space.*

*Lampadaire à intensité variable.
Le corps est en aluminium avec un diffuseur en polycarbonate opale.
La particularité du flux lumineux orienté vers l'intérieur de l'arc garantit un confort visuel particulièrement élevé et contribue à renforcer la légèreté de la structure.
Virgola se caractérise par une arche large et élancée qui atteint 2,20 mètres de hauteur, permettant à la lumière de se diffuser sur un grand espace.*

*Dimmbare Stehlampe.
Der Körper besteht aus Aluminium mit einem opalen Polycarbonat-Diffusor.
Die Besonderheit des zur Bogeninnenseite gerichteten Lichtstroms garantiert einen besonders hohen Sehkomfort und trägt zur Leichtigkeit der Konstruktion bei.
Virgola zeichnet sich durch einen großen und schlanken Bogen aus, der eine Höhe von 2,20 Metern erreicht, wodurch das Licht über einen großen Raum verteilt werden kann.*

*Lámpara de pie regulable.
El cuerpo está fabricado en aluminio con un difusor de polycarbonato opal. La particularidad del flujo luminoso hacia el interior del arco garantiza un confort visual particularmente alto y ayuda a realzar la ligereza de la estructura.
Virgola se caracteriza por un arco amplio y esbelto que alcanza los 2,20 metros de altura, permitiendo que la luz se extienda por un gran espacio.*

*Торшер с регулируемой яркостью.
Корпус выполнен из алюминия с диффузором из опалового поликарбоната. Особенность светового потока, обращенного внутрь арки, гарантирует особенно высокий визуальный комфорт и помогает повысить легкость конструкции.
Виргола отличается большой и тонкой аркой, достигающей 2,20 метра в высоту, что позволяет свету распространяться по большому пространству.*

design P. Pepere - 2017

Lampada a sospensione a Luce diffusa.

Il corpo è realizzato con un profilo di alluminio calandrato, un diffusore in policarbonato opale e un cavo di alimentazione coassiale.

Disponibile in diverse misure e svariate finiture.

La particolarità del flusso luminoso rivolto verso l'interno della circonferenza garantisce un confort visivo particolarmente elevato e contribuisce ad esaltare la leggerezza della struttura.

La collezione Lancia Tonda si completa con le versioni da terra, tavolo (pg. 224), a parete (pg. 264) e a soffitto (pg. 269).

Suspension lamp with diffused light.

The body is made with a calendered aluminum profile, an opal polycarbonate diffuser and a coaxial power cable.

Available in different sizes and various finishes.

The particularity of the luminous flux directed towards the inside of the circumference guarantees a particularly high visual comfort and helps to enhance the lightness of the structure.

The Lancia Tonda collection is completed with the table/foor (pg.224), wall (pg. 264) and ceiling (pg. 269) versions.

Lampe à suspension à lumière diffuse.

Le corps est réalisé avec un profilé en aluminium calandré, un diffuseur en polycarbonate opale et un câble d'alimentation coaxial.

Disponibile en différentes tailles et différentes finitions.

La particularité du flux lumineux dirigé vers l'intérieur de la circonférence garantit un confort visuel particulièrement élevé et contribue à améliorer la légèreté de la structure.

La collection Lancia Tonda est complétée par les versions table, lampadaire (pg. 224), applique (pg.264) et plafonnier (pg. 269).

Lámpara de suspensión con luz difusa.

El cuerpo está hecho con un perfil de aluminio calandrado, un difusor de policarbonato opal y un cable de alimentación coaxial.

Disponibile en diferentes tamaños y varios acabados.

La particularidad del flujo luminoso dirigido hacia el interior de la circunferencia garantiza un confort visual particularmente alto y ayuda a realzar la ligereza de la estructura.

La colección Lancia Tonda se completa con las versiones encimera (pág. 224), pared (pág. 264) Y techo (pág. 269).

Pendelleuchte mit diffusem Licht.

Der Körper besteht aus einem kalandrierten Aluminiumprofil, einem opalen Polycarbonat-Diffusor und einem koaxialen Stromkabel.

Erhältlich in verschiedenen Größen und verschiedenen Ausführungen.

Die Besonderheit des nach innen gerichteten Lichtstroms garantiert einen besonders hohen Sehkomfort und trägt zur Leichtigkeit der Konstruktion bei.

Abgerundet wird die Lancia Tonda Kollektion durch die Versionen Boden, Tisch (S. 224), Wand (S. 264) und Decke (S. 269).

Подвесной светильник с рассеянным светом.

Корпус выполнен из каландрированного алюминиевого профиля, диффузора из опалового поликарбоната и коаксиального кабеля питания.

Доступны в разных размерах и с различной отделкой.

Особенность светового потока, обращенного внутрь окружности, гарантирует особенно высокий визуальный комфорт и помогает повысить легкость конструкции.

Коллекция Lancia Tonda дополняется напольным, настольным (стр. 224), настенным (стр. 264) и потолочным (стр. 269) вариантами.

design P. Pepere - 2021

Lampada o composizione di lampade a sospensione dal disegno semplice ed essenziale, realizzate per fornire una Luce diretta continua e uniforme nel rispetto del più elevato confort visivo. Il corpo è realizzato con un profilo di alluminio, un diffusore in policarbonato opale e cavo di alimentazione coassiale.

Il sistema di aggancio consente di ruotare il profilo e orientare la luce nella direzione voluta. Questo permette di utilizzare la sospensione anche come luce indiretta.

Disponibile in diverse lunghezze e finiture.

I rosoni con alimentatori sono da ordinare separatamente in base alla tipologia della composizione scelta (pg.110).

Lamp or composition of suspension lamps with a simple and essential design, made to provide continuous and uniform direct light in compliance with the highest visual comfort.

The body is made with an aluminum profile, an opal polycarbonate diffuser and coaxial power cable. The coupling system allows you to rotate the profile and direct the light in the desired direction. This allows the suspension to be used also as indirect light. Available in different lengths and finishes. The ceiling roses with power supplies are to be ordered separately according to the type of composition chosen (pg.110).

Lampe ou composition de lampes à suspension au design simple et essentiel, conçue pour fournir une lumière directe continue et uniforme dans le respect du plus grand confort visuel.

Le corps est composé d'un profilé en aluminium, d'un diffuseur en polycarbonate opale et d'un câble d'alimentation coaxial.

Le système de couplage vous permet de faire pivoter le profilé et de diriger la lumière dans la direction souhaitée. Cela permet à la suspension d'être utilisée également comme lumière indirecte.

Disponibile en différentes longueurs et finitions. Les rosaces avec alimentations sont à commander séparément selon le type de composition choisi (page.110).

Lámpara o composición de lámparas de suspensión con un diseño sencillo y esencial, realizada para proporcionar una luz directa continua y uniforme cumpliendo con el máximo confort visual. El cuerpo está realizado con perfil de aluminio, difusor de policarbonato opal y cable de alimentación coaxial.

El sistema de acoplamiento le permite girar el perfil y dirigir la luz en la dirección deseada. Esto permite que la suspensión se utilice también como luz indirecta. Disponible en diferentes longitudes y acabados. Los florones con alimentadores deben pedirse por separado según el tipo de composición elegida (pág.110).

Lampe oder Zusammenstellung von Pendelleuchten mit einem einfachen und essentiellen Design, das ein kontinuierliches und gleichmäßiges direktes Licht bei höchstem Sehkomfort bietet.

Der Körper besteht aus einem Aluminiumprofil, einem opalen Polycarbonat-Diffusor und einem koaxialen Stromkabel.

Das Kopplungssystem ermöglicht es Ihnen, das Profil zu drehen und das Licht in die gewünschte Richtung zu lenken. Dadurch kann die Pendelleuchte auch als indirektes Licht verwendet werden. Erhältlich in verschiedenen Längen und Ausführungen.

Die Deckenrosetten mit Netzteil sind je nach gewählter Zusammenstellung separat zu bestellen (Seite.110).

Лампа или композиция из подвесных ламп с простой и простой конструкцией, обеспечивающей непрерывный и равномерный прямой свет с соблюдением высочайшего визуального комфорта. Корпус выполнен из алюминиевого профиля, диффузора из опалового поликарбоната и коаксиального кабеля питания. Система сцепления позволяет вращать профиль и направлять свет в нужном направлении. Это позволяет использовать подвеску также в качестве непрямого света. Доступны разной длины и отделки.

Потолочные розетки с блоками питания заказываются отдельно в соответствии с выбранной композицией (стр.110).

design ABS Studio - 2019

Lampada o sistema di lampade a sospensione caratterizzate da un'alta efficienza luminosa diretta e puntuale.

Il corpo è realizzato con un tubo di ottone e un dissipatore in alluminio. Disponibile in tre lunghezze e svariate finiture.

La forma essenziale e le dimensioni rendono Stick adatta per l'illuminazione puntuale su piccoli tavoli, penisole, comodini o, disposti in gruppi di più elementi, per illuminare banchi per reception di hotels e uffici o tavoli di grandi dimensioni.

I rosoni con alimentatori ed accessori, sono da ordinare separatamente in base alla tipologia della composizione scelta. (pg.136). La collezione Stick si completa con la versione a soffitto (pg. 334).

Lamp or suspension lamp system characterized by a high direct and punctual luminous efficiency. The body is made with a brass tube and an aluminum heatsink. Available in three lengths and various finishes. The essential shape and size make Stick suitable for spot lighting on small tables, peninsulas, bedside tables or, arranged in groups of several elements, to illuminate hotel and office reception desks or large tables. The ceiling roses with power supplies and accessories must be ordered separately according to the type of composition chosen. (pg.136).

The Stick collection is completed with the ceiling version (pg. 334).

Système de lampe ou de suspension caractérisé par un rendement lumineux direct et ponctuel élevé.

Le corps est composé d'un tube en laiton et d'un radiateur en aluminium. Disponible en trois longueurs et différentes finitions.

La forme et la taille essentielles font de Stick un éclairage ponctuel sur de petites tables, des péninsules, des tables de chevet ou, disposés en groupes de plusieurs éléments, pour éclairer des bureaux d'accueil d'hôtels et de bureaux ou de grandes tables.

Les rosaces avec alimentations et accessoires sont à commander séparément selon le type de composition choisi. (page.136).

La collection Stick est complétée par la version plafonnier (pg. 334).

Sistema de lámpara o suspensión que se caracteriza por una alta eficiencia luminosa directa y puntual.

El cuerpo está hecho con un tubo de latón y un disipador de calor de aluminio. Disponible en tres longitudes y varios acabados.

La forma y el tamaño esenciales hacen que Stick sea adecuado para la iluminación puntual en mesas pequeñas, penínsulas, mesitas de noche o, dispuestas en grupos de varios elementos, para iluminar mostradores de recepción de hoteles y oficinas o mesas grandes. Los florones con alimentadores y accesorios deben pedirse por separado según el tipo de composición elegida. (pág.136).

La colección Stick se completa con la versión de techo (pág. 334).

Lampen- oder Pendelleuchtersystem, das sich durch eine hohe direkte und punktuelle Lichtausbeute auszeichnet.

Das Gehäuse besteht aus einem Messingrohr und einem Aluminiumkühlkörper. Erhältlich in drei Längen und verschiedenen Ausführungen. Durch die essentielle Form und Größe eignet sich Stick zur Spotbeleuchtung auf kleinen Tischen, Halbinseln, Nachttischen oder, in Gruppen aus mehreren Elementen angeordnet, zur Beleuchtung von Hotel- und Bürorezeptionen oder großen Tischen. Die Deckenrosetten mit Netzteilen und Zubehör müssen je nach gewählter Zusammenstellung separat bestellt werden. (Seite.136). Abgerundet wird die Stick-Kollektion durch die Deckenversion (S. 334).

Лампа или система подвесных ламп, характеризующаяся высокой прямой и точной светоотдачей.

Корпус выполнен из латунной трубки и алюминиевого радиатора. Доступны три длины и различные варианты отделки. Незаменимая форма и размер делают Stick подходящим для точечного освещения на маленьких столиках, полуостровах, прикроватных тумбочках или, в виде групп из нескольких элементов, для освещения стойки регистрации отеля и офиса или больших столов.

Потолочные розы с блоками питания и аксессуарами заказываются отдельно в зависимости от выбранного типа композиции. (стр.136). Коллекция Stick дополняется потолочной версией (стр. 334).

design Mati - 2017

Lampada o Sistema di lampade a sospensione a Luce diretta e puntuale.
Il corpo è realizzato in alluminio e legno; il primo consente di dissipare il calore mentre il legno di faggio in spessore ne caratterizza la forma ad imbuto.
La forma essenziale rende Pevera adatta per l'illuminazione puntuale su piccoli tavoli, penisole, comodini o, disposta in gruppi di più elementi, per illuminare banchi per reception di hotels e uffici o tavoli di grandi dimensioni.
Il cavo coassiale lungo fino a 10 mt e tutta una serie di accessori funzionali e decorativi permettono di realizzare con Pevera molteplici composizioni rispondendo a qualsiasi esigenza di progettazione.
I rosoni con alimentatori ed accessori, sono da ordinare separatamente in base alla tipologia della composizione scelta (pg.136).

*Lamp or Suspension lamp system with direct light.
The body is made of aluminum and wood; the first allows to dissipate the heat while the thick beech wood characterizes the funnel shape.
The essential shape makes Pevera suitable for spot lighting on small tables, peninsulas, bedside tables or installed in groups of several elements, to illuminate hotel and office reception desks or large tables.
The coaxial cable up to 10 meters long and a various functional and decorative accessories allow you to create multiple compositions with Pevera, responding to any design requirement.
The ceiling roses with led driver and accessories must be ordered separately according to the type of composition chosen (pg.136).*

*Système de lampe ou de suspension à lumière directe et ponctuelle.
Le corps est fait d'aluminium et de bois; le premier permet de dissiper la chaleur tandis que le bois de hêtre épais caractérise la forme de l'entonnoir.
La forme essentielle fait de Pevera un éclairage ponctuel sur de petites tables, des péninsules, des tables de chevet ou, disposées en groupes de plusieurs éléments, pour éclairer des bureaux d'accueil d'hôtels et de bureaux ou de grandes tables.
Le câble coaxial jusqu'à 10 mètres de long et toute une série d'accessoires fonctionnels et décoratifs vous permettent de créer de multiples compositions avec Pevera, répondant à toutes les exigences de conception.
Les rosaces avec alimentations et accessoires sont à commander séparément selon le type de composition choisi (page.136).*

*Sistema de lámpara o suspensión con luz directa y puntual.
El cuerpo está fabricado en aluminio y madera; el primero permite disipar el calor mientras que la espesa madera de haya caracteriza la forma de embudo.
La forma esencial hace que Pevera sea adecuada para la iluminación puntual en pequeñas mesas, penínsulas, mesitas de noche o, dispuesta en grupos de varios elementos, para iluminar mostradores de recepción de hoteles y oficinas o mesas grandes.
El cable coaxial de hasta 10 metros de largo y toda una serie de accesorios funcionales y decorativos permiten crear múltiples composiciones con Pevera, respondiendo a cualquier requerimiento de diseño.
Los florones con alimentadores y accesorios deben pedirse por separado según el tipo de composición elegida (pág.136).*

*Lampen- oder Pendelleuchtensystem mit direktem und punktuelltem Licht.
Der Korpus besteht aus Aluminium und Holz; Ersteres ermöglicht die Wärmeableitung, während das dicke Buchenholz die Trichterform prägt.
Durch die essentielle Form eignet sich Pevera als Spotbeleuchtung auf kleinen Tischen, Halbinseln, Nachttischen oder in Gruppen aus mehreren Elementen angeordnet, um Hotel- und Bürorezeptionen oder große Tische zu beleuchten.
Das bis zu 10 Meter lange Koaxialkabel und eine ganze Reihe funktionaler und dekorativer Accessoires ermöglichen es Ihnen, mit Pevera vielfältige Kompositionen zu kreieren, die jedem Designwunsch gerecht werden.
Die Deckenrosetten mit Netzteilen und Zubehör müssen je nach gewählter Zusammenstellung separat bestellt werden (Seite.136).*

*Система светильников или подвесных светильников с прямым и точным светом.
Корпус выполнен из алюминия и дерева; первая позволяет отводить тепло, а толстая древесина бука придает форму воронки.
Существенная форма делает Pevera подходящим для точечного освещения на маленьких столиках, полуостровах, прикроватных тумбочках или, собранных в группы из нескольких элементов, для освещения стойки регистрации отелей и офисов или больших столов.
Коаксиальный кабель длиной до 10 метров и целый ряд функциональных и декоративных аксессуаров позволяют создавать с Pevera несколько композиций, отвечающих любым требованиям дизайна.
Потолочные розы с блоками питания и аксессуарами заказываются отдельно в зависимости от выбранного типа композиции (стр.136).*

design ABS Studio - 2019

Lampada o sistema di lampade a sospensione a Luce diretta e puntuale.
Il prodotto è realizzato in alluminio. La sorgente arretrata ed eventualmente schermata da un vetro opalino garantisce un gradevole effetto non abbagliante.
La forma essenziale rende Newton adatta per l'illuminazione puntuale su piccoli tavoli, penisole, comodini o, disposta in gruppi di più elementi, per illuminare banchi per reception di hotels e uffici o tavoli di grandi dimensioni.
Il cavo coassiale lungo fino a 10 mt e tutta una serie di accessori funzionali e decorativi permettono di realizzare con Newton molteplici composizioni rispondendo a qualsiasi esigenza di progettazione.
I rosoni con alimentatori ed accessori, sono da ordinare separatamente in base alla tipologia della composizione scelta. (pg.136).
La collezione Newton si completa con la versione a parete/soffitto (pg.316) e la versione da terra (pg.246).

*Lamp or suspension lamp system with direct light.
The product is made of aluminum and the led source is a retrofit led module, possibly diffused by an opal glass allowing an anti glaring effect.
The essential shape makes Newton suitable for spot lighting on small tables, bedside tables or installed in groups, to illuminate hotel and office reception desks or large tables.
The coaxial cable up to 10 meters long and various functional and decorative accessories allow you to create multiple compositions with Newton, to match any design requirement.
The ceiling roses with led drivers and accessories must be ordered separately according to the type of composition chosen. (pg.136).
The Newton collection is completed with the wall / ceiling version (pg.316) and the floor version (pg.246).*

*Système de lampe ou de suspension à lumière directe et ponctuelle.
Le produit est en aluminium où la source en retrait et éventuellement blindée par un verre opale garantit un agréable effet non éblouissant.
La forme essentielle fait de Newton un éclairage ponctuel sur de petites tables, des péninsules, des tables de chevet ou, disposées en groupes de plusieurs éléments, pour éclairer des bureaux d'accueil d'hôtels et de bureaux ou de grandes tables.
Le câble coaxial jusqu'à 10 mètres de long et toute une série d'accessoires fonctionnels et décoratifs vous permettent de créer de multiples compositions avec Newton, répondant à toutes les exigences de conception.
Les rosaces avec alimentations et accessoires sont à commander séparément selon le type de composition choisi. (page.136).
La collection Newton est complétée par la version mur/plafond (pg.316) et la version sol (pg.246).*

*Sistema de lámpara o suspensión con luz directa y puntual.
El producto está fabricado en aluminio donde la fuente retrasada y posiblemente blindada por un cristal opal garantiza un agradable efecto no deslumbrante.
La forma esencial hace que Newton sea adecuado para la iluminación puntual en mesas pequeñas, penínsulas, mesitas de noche o, dispuestas en grupos de varios elementos, para iluminar mostradores de recepción de hoteles y oficinas o mesas grandes.
El cable coaxial de hasta 10 metros de longitud y toda una serie de accesorios funcionales y decorativos permiten crear múltiples composiciones con Newton, respondiendo a cualquier requerimiento de diseño.
Los florones con alimentadores y accesorios deben pedirse por separado según el tipo de composición elegida. (pág.136).
La colección Newton se completa con la versión pared / techo (pág.316) y la versión de suelo (pág.246).*

*Lampen- oder Pendelleuchtersystem mit direktem und punktuelltem Licht.
Das Produkt besteht aus Aluminium, wobei die Quelle zurückgesetzt und möglicherweise durch ein Opalglas abgeschirmt ist, eine angenehme blendfreie Wirkung garantiert.
Durch die essentielle Form eignet sich Newton als Spotbeleuchtung auf kleinen Tischen, Halbinseln, Nachttischen oder, in Gruppen aus mehreren Elementen angeordnet, zur Beleuchtung von Hotel- und Bürorezeptionen oder großen Tischen.
Das bis zu 10 Meter lange Koaxialkabel und eine ganze Reihe funktionaler und dekorativer Accessoires ermöglichen es Ihnen, mit Newton vielfältige Kompositionen zu kreieren, die jedem Designwunsch gerecht werden.
Die Deckenrosetten mit Netzteilen und Zubehör müssen je nach gewählter Zusammenstellung separat bestellt werden. (Seite.136).
Abgerundet wird die Newton-Kollektion durch die Wand-/Deckenversion (S.316) und die Bodenversion (S.246).*

*Лампа или система подвесных светильников с прямым и точным светом.
Изделие изготовлено из алюминия, где источник расположен сзади и, возможно, экранирован опаловым стеклом, гарантирует приятный неослепляющий эффект.
Незаменимая форма делает Newton подходящим для точечного освещения небольших столиков, полуостровов, прикроватных тумб, а также для освещения стоек регистрации в гостиницах и офисах или больших столов.
Коаксиальный кабель длиной до 10 метров и целый ряд функциональных и декоративных аксессуаров позволяют создавать с помощью Newton несколько композиций, отвечающих любым требованиям дизайна.
Потолочные розы с блоками питания и аксессуарами заказываются отдельно в зависимости от выбранного типа композиции. (стр.136).
Коллекция Newton дополняется настенной / потолочной версией (pg.316) и напольной версией (pg.246).*

Lampada a sospensione a Luce indiretta.

Un design elegante che, rivisitando forme classiche, suggerisce nuove funzioni e bene si adatta a qualsiasi tipo di ambiente, pubblico o privato ed a qualsiasi stile, classico o moderno.

L'insolito posizionamento dei LED nella parte bassa dell'apparecchio crea riflessi e proiezioni di luce inattese. I rosoni con alimentatori sono da ordinare separatamente in base alla tipologia della composizione scelta.

Suspension lamp with indirect light.

Fashion design built on a classic inspiration, suggest new applications suitable for any environments residential or public and any style.

The unusual positioning of the LEDs in the base of the device generates unusal reflections and light beam.

The ceiling roses with led driver are to be ordered separately according to the type of composition chosen.

Lampe à suspension à lumière indirecte.

Un design élégant qui, revisitant les formes classiques, suggère de nouvelles fonctions et s'adapte à tout type d'environnement, public ou privé et à tout style, classique ou moderne.

Le positionnement inhabituel des LED dans la partie inférieure de l'appareil crée des reflets et des projections de lumière inattendus.

Les rosaces avec alimentations sont à commander séparément selon le type de composition choisi.

Lámpara de suspensión con luz indirecta.

Un diseño elegante que, revisando formas clásicas, sugiere nuevas funciones y se adapta bien a cualquier tipo de ambiente, público o privado y a cualquier estilo, clásico o moderno.

El posicionamiento inusual de los LED en la parte inferior del dispositivo crea reflejos y proyecciones de luz inesperadas.

Los florones con alimentadores deben pedirse por separado según el tipo de composición elegida.

Pendelleuchte mit indirektem Licht.

Ein elegantes Design, das klassische Formen aufgreift, neue Funktionen vorschlägt und sich gut in jede öffentliche oder private Umgebung und in jeden Stil, klassisch oder modern, einfügt.

Durch die ungewöhnliche Anordnung der LEDs im unteren Teil des Gerätes entstehen unerwartete Reflexionen und Lichtprojektionen.

Die Deckenrosetten mit Netzteil sind je nach gewählter Zusammenstellung separat zu bestellen.

Подвесной светильник непрямого света.

Элегантный дизайн, пересматривающий классические формы, предлагает новые функции и хорошо подходит для любого типа среды, общественной или частной, а также для любого стиля, классического или современного.

Необычное расположение светодиодов в нижней части устройства создает неожиданные отражения и проекции света.

Потолочные розетки с блоками питания заказываются отдельно в соответствии с выбранной композицией.

Lampada o sistema di illuminazione a sospensione componibile.

La fonte luminosa è arretrata nel corpo lampada fornisce un'illuminazione diretta e puntuale.

I sistemi sono componibili in configurazioni lineari o chiuse.

Un design elegante che, rivisitando forme classiche, suggerisce nuove funzioni e bene si adatta a qualsiasi tipo di ambiente, pubblico o privato ed a qualsiasi stile, classico o moderno.

Modular suspension lamp or lighting system.

The light source is a led retrofit lamp in the body and provides direct and punctual lighting.

The systems are modular in linear or closed configurations.

Fashion design built on a classic inspiration, suggest new applications suitable for any environments residential or public and any style.

Lampe à suspension modulaire ou système d'éclairage.

La source lumineuse est en retrait dans le corps de la lampe et fournit un éclairage direct et ponctuel.

Les systèmes sont modulaires en configurations linéaires ou fermées.

Un design élégant qui, revisitant les formes classiques, suggère de nouvelles fonctions et s'adapte à tout type d'environnement, public ou privé et à tout style, classique ou moderne.

Lámpara de suspensión modular o sistema de iluminación.

La fuente de luz se encuentra en el cuerpo de la lámpara y proporciona una iluminación directa y puntual.

Los sistemas son modulares en configuraciones lineales o cerradas.

Un diseño elegante que, revisando formas clásicas, sugiere nuevas funciones y se adapta bien a cualquier tipo de ambiente, público o privado y a cualquier estilo, clásico o moderno.

Modulare Pendelleuchte oder Beleuchtungssystem.

Die Lichtquelle ist im Leuchtenkörper zurückversetzt und sorgt für eine direkte und punktuelle Beleuchtung.

Die Systeme sind modular in linearer oder geschlossener Konfiguration.

Ein elegantes Design, das klassische Formen aufgreift, neue Funktionen vorschlägt und sich gut in jede öffentliche oder private Umgebung und in jeden Stil, klassisch oder modern, einfügt.

Модульный подвесной светильник или система освещения.

Источник света установлен обратно в корпус лампы и обеспечивает прямое и точечное освещение.

Системы бывают модульными в линейной или замкнутой конфигурации.

Элегантный дизайн, пересматривающий классические формы, предлагает новые функции и хорошо подходит для любого типа среды, общественной или частной, а также для любого стиля, классического или современного.

design ABS Studio - 2011

Lampada a sospensione a Luce diretta e puntuale.

Il corpo è realizzato con un tubo di metallo conificato e con un terminale in alluminio.

La forma essenziale e le dimensioni ridotte rendono Pool adatto per l'illuminazione di piccoli tavoli, penisole o, disposta in gruppi di più elementi, per illuminare banchi per reception di hotel e uffici.

La lampada è fornita con un particolare di decentramento che consente il posizionamento dalla sospensione nel punto voluto indipendentemente dalla disposizione del rosone.

Suspension lamp with direct and spot light.

The body is made with a tapered metal tube and with an aluminum terminal.

The essential shape and small size make Pool suitable for lighting small tables, peninsulas or, or installed in groups of several elements to illuminate hotel and office reception desks.

The lamp is supplied with a decentralization detail that allows the suspension to be positioned in the desired point regardless of the installation of the ceiling rose.

Lampe à suspension à lumière directe et ponctuelle.

Le corps est composé d'un tube métallique conique et d'une borne en aluminium.

La forme essentielle et la petite taille font de Pool une solution idéale pour éclairer de petites tables, des péninsules ou, disposées en groupes de plusieurs éléments, pour éclairer les bureaux d'accueil d'hôtels et de bureaux.

La lampe est fournie avec un détail de décentralisation qui permet de positionner la suspension à l'endroit souhaité quelle que soit la disposition de la rosace.

Lámpara de suspensión con luz directa y puntual.

El cuerpo está fabricado con un tubo metálico ahusado y con un terminal de aluminio.

La forma esencial y el tamaño reducido hacen que Pool sea adecuado para iluminar pequeñas mesas, penínsulas o, dispuesto en grupos de varios elementos, para iluminar los mostradores de recepción de hoteles y oficinas.

La lámpara se suministra con un detalle de descentralización que permite colocar la suspensión en el punto deseado independientemente de la disposición del rosetón.

Pendelleuchte mit direktem und punktuelltem Licht.

Der Körper besteht aus einem konischen Metallrohr und einem Aluminiumanschluss.

Durch die essentielle Form und geringe Größe eignet sich Pool zur Beleuchtung von kleinen Tischen, Halbinseln oder, in Gruppen aus mehreren Elementen angeordnet, zur Beleuchtung von Hotel- und Bürorezeptionen.

Die Leuchte wird mit einem Dezentralisierungsdetail geliefert, das es ermöglicht, die Aufhängung unabhängig von der Anordnung des Baldachins an der gewünschten Stelle zu positionieren.

Подвесной светильник с прямым и точным светом.

Корпус выполнен из металлической конической трубки и с алюминиевым наконечником.

Существенная форма и небольшие размеры делают Pool подходящим для освещения небольших столиков, полуостровов или, объединенного в группы из нескольких элементов, для освещения стойки регистрации отеля и офиса.

Лампа поставляется с децентрализованной деталью, которая позволяет устанавливать подвес в нужной точке независимо от расположения потолочной розетки.

.01 Bianco - White

Lampada a sospensione a luce indiretta realizzata in alluminio verniciato con diffusore in metacrilato satinato.

Le forme minimali, risultato di un'estrema ricerca geometrica, ben si adattano a qualsiasi ambiente, sia pubblico che privato. Disponibile in due finiture e versioni dimmerabile.

Il rosone o la piastra di fissaggio su soffitti in cartongesso è da ordinare separatamente.

La collezione Bureau si completa con le versioni da Terra (pg. 240) e a parete (pg. 346).

Indirect light suspension lamp made of painted aluminum with satin methacrylate diffuser.

The minimal shapes, the result of extreme geometric research, are well suited to any environment, both residential and public.

Available in two finishes and dimmable versions.

The ceiling rose or the fixing plate for plasterboard ceilings must be ordered separately.

The Bureau collection is completed with the floor version (pg. 240) And wall (pg. 346)

Lampe à suspension à lumière indirecte en aluminium peint avec diffuseur en méthacrylate satiné.

Les formes minimales, résultat d'une recherche géométrique extrême, s'adaptent bien à tout environnement, tant public que privé. Disponible en deux finitions et versions dimmables.

La rosace ou la plaque de fixation sur plafond en placoplâtre doivent être commandées séparément.

La collection Bureau est complétée par les versions sol (p. 240) et applique (p. 346).

Lámpara de suspensión de luz indirecta fabricada en aluminio pintado con difusor de metacrilato satinado.

Las formas mínimas, resultado de una investigación geométrica extrema, se adaptan bien a cualquier entorno, tanto público como privado.

Disponible en dos acabados y versiones regulables.

El rosetón o la placa de fijación en techos de placas de yeso deben pedirse por separado.

La colección Bureau se completa con las versiones suelo (pág. 240) Y pared (pág. 346).

Indirektlicht Pendelleuchte aus lackiertem Aluminium mit satinier-tem Methacrylat-Diffusor.

Die minimalen Formen, das Ergebnis extremer geometrischer Forschung, passen gut zu jeder öffentlichen und privaten Umgebung. Erhältlich in zwei Ausführungen und dimmbaren Versionen.

Bei Gipskartondecken muss der Deckenbaldachin bzw. die Befestigungsplatte separat bestellt werden.

Die Bureau-Kollektion wird mit den Versionen Boden (S. 240) und Wand (S. 346) vervollständigt.

Подвесной светильник отраженного света из окрашенного алюминия с рассеивателем из сатинированного метакрилата.

Минимальные формы, результат экстремальных геометрических исследований, хорошо подходят для любой среды, как общественной, так и частной.

Доступен в двух вариантах отделки и версии с регулируемой яркостью.

Потолочную розетку или планку для крепления к потолку из гипсокартона необходимо заказывать отдельно.

Коллекция «Бюро» дополняется напольным (стр. 240) И пристенным (стр. 346) Вариантами.

Bureau

Esempio d'installazione con piastra in cartongesso (1554 + 0959). Example of installation with plate for plasterboard false ceilings (1554 + 0959).

Sistemi di luce diffusa su cavi d'acciaio. I modelli proposti sono lineari o tondi con corpi in alluminio e diffusori in polycarbonato opale. I profili lineari di 100, 150 e 200 cm. sono disposti su un unico cavo d'acciaio. Possono ruotare sul proprio asse consentendo di avere una luce diffusa diretta o indiretta. Le finiture sono il bianco opaco e il nero opaco. Le soluzioni tonde sono di diametro 35, 50 e 70 cm. I corpi sono posizionati in appoggio su una coppia di cavi d'acciaio e, con appositi accessori, possono essere ruotati e inclinati. LANCIA TONDA cavo è proposta in verniciato bianco, nero o in finitura oro spazzolato, o cromato. Il sistema consente di disporre le lampade lungo i cavi nel punto desiderato partendo da un'unica alimentazione a parete o soffitto. Il rosone contiene il trasformatore. Il cavo d'acciaio è teso tra due tiranti contrapposti e copre distanze fino a 6 mt. A disposizione cavi di 10 metri. La luce LED è disponibile a 2700K (XW), 3000 (WW) e 4000K (W) con un valore di CRI superiore a 90. Il numero di LED sul circuito (180 al metro) offre una luce continua e uniforme nel rispetto del confort visivo. Sono disponibili versioni dimmerabili. A richiesta sono fornite anche soluzioni che prevedono il collegamento di più corpi con cavi alimentazione passanti da lampada a lampada.

Diffused light systems on steel cables. The proposed models are linear or round with aluminum bodies and opal polycarbonate diffusers. The linear profiles of 100, 150 and 200 cm. they are arranged on a single steel cable. They can rotate on their own axis allowing for direct or indirect diffused light. The finishes are matt white and matt black. The round solutions are 35, 50 and 70 cm in diameter. The bodies are positioned resting on a pair of steel cables and, with special accessories, can be rotated and inclined. LANCIA TONDA corda is available in matt white, black or brushed gold, or chromed finish. The system allows you to arrange the lamps along the cables at the desired point starting from a single power supply to the wall or ceiling. The rose window contains the transformer.

The steel cable is stretched between two opposing tie rods and covers distances of up to 6 meters. 10m cables available. The LED light is available at 2700K (XW), 3000 (WW) and 4000K (W) with a CRI value greater than 90. The number of LEDs on the circuit 180 per meter offers continuous and uniform light while respecting visual comfort. Dimmable versions are available. Solutions that provide for the connection of multiple bodies with power cables passing from lamp to lamp are also available on request.

Systèmes de lumière diffusée, soit linéaires, soit rondes en aluminium avec diffuseurs en polycarbonate opale accroché sur câbles en acier. Les profilés linéaires (100, 150 et 200cms) sont accrochés sur un seul câble et , en tournant sur eux-mêmes, fournissent une lumière directe ou indirecte. Les modèles ronds sont accrochés à deux câbles et, avec des accessoires dédiés, peuvent tourner ou être penchés LANCIA CAVO est proposée en blanc mat, noir mat , et en finissage chromé ou doré satiné. Le système permet de installer les lampes là ou vous voulez en partant d'une seule alimentation. Le rosace contient l'alimentateur. Le câble est tendu entre deux systèmes d'attelage jusqu'à une longueur de 6 mt, mais, sur demande, câbles de 10 mt. Lumière disponible à 2700K (XW), 3000K (WW), et 4000K (W) en CRI>90, le nombre de 180 LEDS sur le circuit donne une lumière continue et uniforme, aussi disponibles en versions réglables. Sur demande solutions avec alimentation passant d'une lampe à l'autre.

Streulichtanlagen an Stahlseilen. Die vorgeschlagenen Modelle sind linear oder rund mit Aluminiumkörpern und opalen Polycarbonatdiffusoren. Die linearen Profile von 100, 150 und 200 cm. Sie sind auf einem einzigen Stahlseil angeordnet. Sie können sich um ihre eigene Achse drehen, um direktes oder indirektes Streulicht zu ermöglichen. Die Oberflächen sind mattweiß und mattschwarz. Die runden Lösungen haben einen Durchmesser von 35, 50 und 70 cm. Die Körper ruhen auf einem Paar Stahlseilen und können mit entsprechendem Zubehör gedreht und gekippt werden. LANCIA TONDA-Kabel sind in den Farben Mattweiß, Schwarz oder Gebürstetes Gold oder Chrom erhältlich. Das System ermöglicht die Platzierung der Lampen entlang der Kabel an der gewünschten Stelle, beginnend mit einer einzelnen Wandoder Deckenstromversorgung. Die Rosette enthält den Transformator. Das Stahlseil wird zwischen zwei gegenüberliegenden Zugstangen gespannt und überbrückt Entfernungen von bis zu 6 Metern. 10 Meter Kabel erhältlich. Das LED-Licht ist mit 2700K (XW), 3000K (WW) und 4000K (W) mit einem CRI> 90 erhältlich. Die Anzahl der LEDs auf dem 180er-Stromkreis pro Meter sorgt für kontinuierliches und gleichmäßiges Licht unter Wahrung des Sehkomforts. Dimmbare Versionen sind verfügbar. Auf Anfrage werden auch Lösungen angeboten, die die Verbindung mehrerer Gehäuse mit Stromkabeln von Lampe zu Lampe ermöglichen.

Sistemas de luz difusa sobre cables de acero. Los modelos propuestos son lineales o redondos con cuerpos de aluminio y difusores de polycarbonato opal. Los perfiles lineales de 100, 150 y 200 cm. Están posicionados sobre un solo cable de acero. Pueden rotar para permitir una luz difusa directa o indirecta. Los acabados son blanco mate y negro mate. Las soluciones redondas tienen 35, 50 y 70 cm de diámetro. Los cuerpos se colocan en apoyo sobre un par decables de acero y, con los accesorios adecuados, se pueden girar e inclinar. LANCIA TONDA cavo (cable) está disponible en blanco mate, negro o en dorado mateo cromado. El sistema permite colocar las lámparas a lo largo de los cables en el punto deseado a partir de una sola fuente de alimentación de pared o techo. La roseta contiene el transformador. El cable de acero se estira entre dos tirantes opuestos y cubre distancias hasta 6 metros. A pedido disponible también cables de 10 metros. La luz LED está disponible en 2700K (XW), 3000K (WW) y 4000K (W) con un valor CRI> 90. La cantidad de LED en el circuito es de 180 por metro ofrece una luz continua y uniforme respetando el confort visual. Versiones dimables están disponibles. A pedido, también se ofrecen soluciones que permiten la conexión de varios cuerpos con cables de alimentación que pasan de una lámpara a otra.

Системы рассеянного света на стальных тросах. Предлагаются линейные и круглые модели с корпусом из алюминия и диффузором из матового поликарбоната. Линейные профили длиной 100, 150 и 200 см располагаются на одном стальном тросе. Могут вращаться вокруг своей оси, таким образом получается прямой или рассеянный свет. Цвет белый матовый и черный матовый. Круглые варианты диаметром 35, 50 и 70см. Корпус опирается на пару стальных тросов и с помощью аксессуаров может вращаться или наклоняться.

Lancia Tonda на тросе предлагается окрашенной в белый матовый цвет, черный или брашированное золото или хром. Система позволяет располагать лампы вдоль троса на любом месте, начиная от силового ввода на стене или потолке. В розетке находится трансформатор. Стальной трос натянут между двумя противоположными креплениями на длину до 6 метров. По запросу трос до 10 метров. Светодиоды могут быть 2700K (XW), 3000K (WW) и 4000K (W) и CRI более 90. Количество светодиодов 180 на метр дает ровный протяженный свет, что комфортно для глаз. Есть диммируемые варианты. По запросу есть другие решения, позволяющие соединять больше устройств с помощью силовых кабелей, проходящих от одного к другому.

Lampade a sospensione in estruso d'alluminio con diffusore in metacrilato satinato o microprismato (UGR<19).
Realizzabile nelle versioni mono emissione o bi emissione in diverse lunghezze e svariate finiture.
L'assenza di viti, l'alimentatore integrato nella struttura e il fissaggio cavi all'interno della barra rendono Rail una lampada facile da installare.
Possibile l'integrazione dei proiettori Newton.
La collezione Rail si completa con le versioni a parete (pg. 357) e plafone (pg. 359).

*Suspension lamps in extruded aluminum with satin or microprismatic methacrylate diffuser (UGR <19).
Available in single or double emission versions in different lengths and various finishes.
A screwless fitting with built in driver and cable's fixing hidden into the profile make Rail an easy to install lamp.
Integration with Newton projectors is a possible option.
The Rail collection is completed with the wall (pg. 357) and ceiling (pg. 359) solutions*

*Lampes à suspension en aluminium extrudé avec diffuseur en méthacrylate satiné ou microprismatique (UGR <19).
Disponible en versions simple ou double émission en différentes longueurs et différentes finitions.
L'absence de vis, l'alimentation intégrée à la structure et la fixation des câbles à l'intérieur de la barre font de Rail une lampe facile à installer.
L'intégration de projecteurs Newton est possible.
La collection Rail est complétée par les versions murales (pg. 357) et plafonniers (pg. 359).*

*Lámparas de suspensión en extrusión de aluminio con difusor de metacrilato satinado o microprismático (UGR <19).
Disponible en versiones de emisión simple o doble en diferentes longitudes y varios acabados.
La ausencia de tornillos, la fuente de alimentación integrada en la estructura y la fijación de cables en el interior de la barra hacen de Rail una lámpara de fácil instalación.
Es posible la integración de proyectores Newton.
La colección Rail se completa con las versiones pared (pág. 357) Y techo (pág. 359).*

*Pendelleuchten aus stranggepresstem Aluminium mit Diffusor aus satiniertem oder mikroprismatischem Methacrylat (UGR <19).
Erhältlich in Einzel- oder Doppelemissionsversionen in verschiedenen Längen und verschiedenen Ausführungen.
Das Fehlen von Schrauben, das in die Struktur integrierte Netzteil und die Kabelbefestigung im Inneren der Leiste machen Rail zu einer einfach zu installierenden Leuchte.
Die Integration von Newton-Projektoren ist möglich.
Die Rail-Kollektion wird durch die Wand- (S. 357) und Decken- (S. 359) Versionen vervollständigt.*

*Подвесные лампы из экструдированного алюминия с матовым или микропризматическим рассеивателем из метакрилата (UGR <19).
Доступны в версиях с одинарным или двойным излучением, разной длины и различной отделки.
Отсутствие винтов, блок питания, встроенный в конструкцию, и крепление кабелей внутри планки делают Rail удобной в установке лампой.
Возможна интеграция проекторов Newton.
Коллекция Rail дополняется настенным (стр.357) И потолочным (стр.359) Вариантами.*

The product code refers to the complete lamp. 2 closing heads and high efficiency microprismatic diffuser are included.

Lampada da sospensione a luce diffusa. Il corpo è realizzato in trafilata di alluminio saldata con diffusore in metacrilato satinato. Il circuito LED ad alta efficienza e il driver sono integrati nella struttura della lampada. Il rosone è in ABS con cavo di alimentazione trasparente. RAIL QUADRA è pensata come un'unica grande cornice, un percorso chiuso di luce che definisce e sottolinea lo spazio sottostante. Dal disegno moderno è adatta per illuminare tavoli da pranzo, scrivanie e ambienti ufficio. A richiesta può essere fornita in versione dimmerabile, a luce indiretta (su due lati contrapposti) o con altre potenze. La collezione si completa con la versione a plafone (pg. 352).

Suspension lamp with diffused light. The body is made of welded aluminum extruder with satin methacrylate diffuser. The high efficiency LED circuit and the drivers are integrated into the lamp structure. The ceiling rose is in ABS with transparent power cable. RAIL QUADRA is conceived as a single large frame, a closed path of light that defines and emphasizes the space below. With a modern design it is suitable for lighting dining tables, desks and office environments. On request it can be supplied in a dimmable version, indirect light (on two opposite sides) or with other powers. The collection is completed with the ceiling version (pg.352).

Lampe à suspension à lumière diffuse. Le corps est en aluminium extrudé soudé avec diffuseur en méthacrylate satiné. Le circuit LED à haute efficacité et les pilotes sont intégrés dans la structure de la lampe. La rosace est en ABS avec câble d'alimentation transparent. RAIL QUADRA est conçu comme un seul grand cadre, un chemin de lumière fermé qui définit et met l'accent sur l'espace en dessous. Avec un design moderne, il convient à l'éclairage des tables à manger, des bureaux et des environnements de bureau. Sur demande il peut être fourni dans une version dimmable, lumière indirecte (sur deux côtés opposés) ou avec d'autres puissances. La collection est complétée par la version plafonnier (pg.352).

Lámpara de suspensión con luz difusa. El cuerpo está fabricado en extrusión de aluminio soldado con difusor de metacrilato satinado. El circuito LED de alta eficiencia y los controladores están integrados en la estructura de la lámpara. El rosetón es de ABS con cable de alimentación transparente. RAIL QUADRA se concibe como un solo gran marco, un camino cerrado de luz que define y enfatiza el espacio debajo. Con un diseño moderno, es adecuado para iluminar mesas de comedor, escritorios y entornos de oficina. Bajo pedido se puede suministrar en versión regulable, luz indirecta (en dos lados opuestos) o con otros poderes. La colección se completa con la versión de techo (pág.352).

Pendelleuchte mit diffusem Licht. Der Körper besteht aus geschweißtem Aluminium-Strangpressprofil mit satiniertem Methacrylat-Diffusor. Die hocheffiziente LED-Schaltung und die Treiber sind in die Lampenstruktur integriert. Die Deckenrosette ist aus ABS mit transparentem Stromkabel. RAIL QUADRA ist als einzelner großer Rahmen konzipiert, ein geschlossener Lichtweg, der den darunter liegenden Raum definiert und betont. Mit modernem Design eignet sie sich zur Beleuchtung von Esstischen, Schreibtischen und Büroumgebungen. Auf Anfrage auch in dimmbarer Ausführung lieferbar, indirektes Licht (auf zwei gegenüberliegenden Seiten) oder mit anderen Leistungen. Abgerundet wird die Kollektion durch die Deckenversion (S.352).

Подвесной светильник с рассеянным светом. Корпус изготовлен из сварного алюминиевого профиля с диффузором из сатинированного метакрилата. Схема высокоэффективного светодиода и драйверы интегрированы в структуру лампы. Потолочная розетка из АБС-пластика с прозрачным кабелем питания. RAIL QUADRA задумана как одна большая рама, замкнутая световая дорожка, которая определяет и подчеркивает пространство внизу. Обладая современным дизайном, он подходит для освещения обеденных столов, письменных столов и офисных помещений. По запросу он может быть поставлен с регулируемой яркостью. не прямой свет (с двух противоположных сторон) или с другими полномочиями. Коллекция дополняется потолочной версией (стр.352).

Lampada a sospensione di grande dimensione realizzata in alluminio tornito. Disponibile in diverse finiture. Il portalampade con attacco E27 consente l'utilizzo di tutte le nuove sorgenti LED dando la possibilità di scegliere la Luce desiderata. La sua linea semplice, richiamo ai modelli classici utilizzati nell'illuminazione di capannoni e grandi spazi industriali, oggi trova utilizzo in ambienti moderni sia pubblici che privati.

*Large suspension lamp made of spun aluminum.
Available in different finishes.
The lamp holder with E27 socket allows the use of all the new LED sources, offering the possibility to choose the desired light.
Its simple design, recalling the classic models used in the lighting of warehouses and large industrial spaces, is now purposed in modern, public and private, environments.*

*Grande lampe à suspension en aluminium tourné. Disponible en différentes finitions.
Le support de lampe avec douille E27 permet l'utilisation de toutes les nouvelles sources LED, donnant la possibilité de choisir la lumière souhaitée.
Sa ligne simple, rappelant les modèles classiques utilisés dans l'éclairage des entrepôts et des grands espaces industriels, est désormais utilisée dans les environnements modernes publics et privés.*

*Lámpara de suspensión grande fabricada en aluminio torneado.
Disponible en diferentes acabados.
El portalámparas con casquillo E27 permite el uso de todas las nuevas fuentes LED, dando la posibilidad de elegir la luz deseada.
Su línea simple, recordando los modelos clásicos utilizados en la iluminación de almacenes y grandes espacios industriales, se utiliza ahora en ambientes públicos y privados modernos.*

Große Pendelleuchte aus gedrehtem Aluminium. Erhältlich in verschiedenen Ausführungen. Die Lampenfassung mit E27-Fassung ermöglicht die Verwendung aller neuen LED-Quellen und bietet die Möglichkeit, das gewünschte Licht auszuwählen. Seine schlichte Linie, die an die klassischen Modelle der Beleuchtung von Lagerhallen und großen Industriehallen erinnert, wird heute sowohl in öffentlichen als auch in privaten modernen Umgebungen verwendet.

*Большой подвесной светильник из точеного алюминия.
Доступен в различных вариантах отделки. Патрон лампы с цоколем E27 позволяет использовать все новые светодиодные источники, давая возможность выбрать желаемый свет.
Его простая линия, напоминающая классические модели, используемые для освещения складов и больших промышленных помещений, теперь используется как в общественных, так и в частных современных помещениях.*

design ABS Studio - 2017

Lampada a sospensione a luce diretta realizzata in alluminio tornito.
Il disegno si ispira al calice per la degustazione del cognac o del brandy.
Il portalampada E27 garantisce la possibilità di scegliere per Baloon la quantità di luce desiderata. La sua semplicità formale e le sue finiture galvaniche sono perfette per adattarsi a qualsiasi ambiente classico o moderno, pubblico o privato ed a qualsiasi stile.
Disponibili anche ulteriori rosoni ed accessori (pg. 214). La collezione Baloon si completa con le versioni da Terra (pg. 244) e a parete (pg. 344).

*Direct light pendant lamp made of spun aluminum.
The design keeps its inspiration by the glass for tasting cognac or brandy.
The E27 lamp holder offers the possibility to adjust the performance of the light according to any need. Its design simplicity and its galvanic finishes are perfect to suit either to classic or modern, public or private environment and to any style.
Alternative ceiling roses and accessories are also available (pg. 214). The Baloon collection is completed with the floor (pg. 244) and wall (pg. 344) applications.*

*Suspension à lumière directe en aluminium tourné. Le design s'inspire du verre de dégustation de cognac ou de brandy.
La douille E27 garantit la possibilité de choisir la quantité de lumière souhaitée pour Baloon.
Sa simplicité formelle et ses finitions galvaniques sont parfaites pour s'adapter à n'importe quel environnement classique ou moderne, public ou privé et à n'importe quel style. D'autres rosaces et accessoires sont également disponibles (pg. 214).
La collection Baloon est complétée par les versions sol (p. 244) et murale (p. 344).*

Lámpara colgante con luz directa fabricada en aluminio torneado. El diseño está inspirado en la copa para degustar coñac o brandy. El portalámparas E27 garantiza la posibilidad de elegir la cantidad de luz deseada para Baloon. Su sencillez formal y sus acabados galvánicos son perfectos para adaptarse a cualquier ambiente clásico o moderno, público o privado y a cualquier estilo. También están disponibles otros florones y accesorios (pág. 214). La colección Baloon se completa con las versiones de suelo (pág. 244) Y pared (pág. 344).

*Direktlicht Pendelleuchte aus gedrehtem Aluminium. Das Design ist vom Glas zum Verkosten von Cognac oder Brandy inspiriert.
Die E27-Lampenfassung garantiert die Möglichkeit, die gewünschte Lichtmenge für Baloon zu wählen.
Seine formale Einfachheit und seine galvanischen Oberflächen sind perfekt, um sich an jede klassische oder moderne Umgebung, öffentlich oder privat und an jeden Stil anzupassen.
Andere Deckenrosetten und Zubehör sind ebenfalls erhältlich (S. 214).
Die Baloon-Kollektion wird durch die Versionen Boden (S. 244) und Wand (S. 344) vervollständigt.*

*Подвесной светильник прямого света из точеного алюминия.
Дизайн вдохновлен бокалом для дегустации коньяка или бренда.
Патрон E27 гарантирует возможность выбора желаемого количества света для Baloon.
Его формальная простота и гальваническая отделка идеально подходят для любой классической или современной обстановки, общественной или частной и любого стиля.
Также доступны другие потолочные розетки и аксессуары (стр. 214).
Коллекция Baloon дополняется напольным (стр. 244) И пристенным (стр. 344) Вариантами.*

design ABS Studio - 2018

Lampada da Parete in ferro grezzo e come elemento decorativo lampadine a filamento Led in vetro soffiato. La forma e l'effetto Retrò delle lampadine conferiscono a Unidea quel surplus di eleganza evocativa ed emozionale che rende unico il progetto luminoso.

I rosoni ed accessori sono da ordinare separatamente in base alla tipologia della composizione scelta. (pg.206).

La collezione Unidea si completa con le versioni da appoggio (pg.258).

Wall lamp made of raw iron and decorated with Led filament bulbs in blown glass.

The shape and the Retrò design of the light bulbs give to Unidea that emotional elegance that makes the lighting project unique.

The ceiling roses and accessories need to be ordered separately according to the type of composition chosen. (pg.206). The Unidea collection is completed with the countertop (pg 258).

Applique en fer brut et comme élément décoratif Ampoules à filament Led en verre soufflé.

La forme et l'effet rétro des ampoules donnent à Unidea ce surplus d'élégance évocatrice et émotionnelle qui rend le projet d'éclairage unique.

Les rosaces et accessoires sont à commander séparément selon le type de composition choisi. (page.206).

La collection Unidea est complétée par les versions à poser (page.258).

Aplique de pared en hierro crudo y como elemento decorativo Bombillas de filamento Led en vidrio soplado.

La forma y el efecto retro de las bombillas confieren a Unidea ese excedente de elegancia evocadora y emocional que hace que el proyecto de iluminación sea único.

Los florones y los accesorios deben pedirse por separado según el tipo de composición elegida. (pág.206). La colección Unidea se completa con las versiones en apoyo (pág.258).

Wandlampe aus Roheisen und als dekoratives Element LED-Glühbirnen aus mundgeblasenem Glas. Die Form und der Retro-Effekt der Glühbirnen verleihen Unidea den Überschuss an stimmungsvoller und emotionaler Eleganz, der das Beleuchtungsprojekt einzigartig macht. Deckenrosetten und Zubehör sind je nach gewählter Zusammenstellung separat zu bestellen. (Seite.206).

Die Kollektion Unidea wird durch die Versionen Arbeitsplatte (S.258).

Настенный светильник из необработанного железа и в качестве декоративного элемента Led лампы накаливания из дутого стекла.

Форма и ретро-эффект лампочек придают Unidea то изобилие вызывающей воспоминания и эмоциональной элегантности, которое делает световой проект уникальным.

Потолочные розы и аксессуары заказываются отдельно в зависимости от выбранной композиции. (стр.206).

Коллекцию Unidea дополняют столешница (стр.258).

design ABS Studio - 2007

Storica collezione di lampade a sospensione a luce diffusa in vetro soffiato bianco.
Il disegno delle lampade è tutto caratterizzato dal volume del diffusore, un cono che a lampada accesa esalta la bellezza del vetro soffiato e della sua capacità di diffondere la Luce nell'ambiente.
Il portalampada E27 consente, nelle versioni con questo, la possibilità di scegliere per Liolà la quantità di luce desiderata.
La collezione Liolà si completa con la versione a parete (pg.402).

Historic collection of suspension lamps with diffused light in white blown glass.
The design of the lamps highlights the volume of the diffuser, a cone shape that, lit, enhances the beauty of the blown glass and its capability to diffuse the light into the environment.
The E27 lamp holder version allows the possibility to adjust performance of light according to any need.
The Liolà collection is completed with the wall application (pg.402).

Collection historique de lampes à suspension à lumière diffuse en verre soufflé blanc.
Le design des lampes est tout caractérisé par le volume du diffuseur, un cône qui, lorsque la lampe est allumée, met en valeur la beauté du verre soufflé et sa capacité à diffuser la lumière dans l'environnement.
La douille E27 permet, dans les versions avec cela, la possibilité de choisir la quantité de lumière souhaitée pour Liolà. La collection Liolà est complétée par la version murale (p.402).

Colección histórica de lámparas de suspensión de luz difusa en vidrio soplado blanco.
El diseño de las lámparas se caracteriza por el volumen del difusor, un cono que, cuando la lámpara está encendida, realza la belleza del vidrio soplado y su capacidad para difundir la luz en el ambiente.
El portalámparas E27 permite, en las versiones con este, la posibilidad de elegir la cantidad de luz deseada para Liolà.
La colección Liolà se completa con la versión de pared (pág.402).

Historische Kollektion von Pendelleuchten mit diffusum Licht aus weißem mundgeblasenem Glas.
Das Design der Lampen wird durch das Volumen des Diffusors charakterisiert, ein Kegel, der, wenn die Lampe eingeschaltet ist, die Schönheit des mundgeblasenen Glases und seine Fähigkeit, das Licht in der Umgebung zu verteilen, hervorhebt.
Die E27-Lampenfassung ermöglicht in den Versionen damit die Möglichkeit, die gewünschte Lichtmenge für Liolà zu wählen.
Die Kollektion Liolà wird durch die Wandversion (S.402) vervollständigt.

Историческая коллекция подвесных светильников с рассеянным светом из белого выдувного стекла.
Конструкция ламп отличается объемом диффузора, конусом, который при включении лампы подчеркивает красоту выдувного стекла и его способность рассеивать свет в окружающей среде.
Патрон E27 позволяет в версиях с этим выбрать желаемое количество света для Liolà.
Коллекция Liolà дополняется настенной версией (стр.402).

Lampade a sospensione realizzate con un filo di metacrilato extra chiaro colato su uno stampo. (tecnologia Flight-flow).

La particolarità della lavorazione e della qualità del metacrilato rendono Matassa estremamente luminosa (nascondendo la sorgente luminosa) creando una suggestiva illuminazione d'effetto.

La collezione Matassa si completa con le versioni a parete/soffitto (pg.384) e d'appoggio (pg.254).

Suspension lamps made with an extra clear methacrylate thread cast on a mold. (Flight-flow technology).

The particularity of the processing and the quality of the methacrylate make the Matassa extremely bright (hiding the light source) creating a sparkly lighting effect.

The Matassa collection is completed with the wall (pg.384), ceiling (pg.384) and countertop (pg.254) applications.

Lampes à suspension réalisées avec un fil de méthacrylate extra clair coulé sur un moule. (Technologie de flux de vol).

La particularité du traitement et la qualité du méthacrylate rendent le Matassa extrêmement lumineux (cachant la source lumineuse) créant un éclairage à effet suggestif.

La collection Matassa est complétée par les versions mur (p.384), plafond (p.384) et plan de travail (p.254).

Lámparas de suspensión fabricadas con hilo de metacrilato extra claro moldeado. (Tecnología de flujo de vuelo).

La particularidad del procesamiento y la calidad del metacrilato hacen que Matassa sea extremadamente brillante (ocultando la fuente de luz) creando un sugerente efecto de iluminación.

La colección Matassa se completa con las versiones pared (pág.384), techo (pág.384) y encimera (pág.254).

Pendelleuchten mit einem extra klaren Methacrylatfaden, der auf eine Form gegossen wurde. (Flight-Flow-Technologie).

Die Besonderheit der Verarbeitung und die Qualität des Methacrylats machen Matassa extrem hell (verbirgt die Lichtquelle) und erzeugt eine suggestive Effektbeleuchtung.

Die Matassa-Kollektion wird durch die Versionen Wand (S.384), Decke (S.384) und Arbeitsplatte (S.254) vervollständigt.

Подвесные лампы изготовлены из особо прозрачной метакрилатной нити, отлитой по форме. (Летно-поточная техника).

Особенность изготовления и качество метакрилата делают Matassa чрезвычайно ярким (скрывая источник света), создавая эффект освещения.

Коллекция Matassa дополняется версиями для стен (стр.384), потолка (стр.384) и столешницы (стр.254).

design P. Pepere - 2019

Lampade da Tavolo e da Terra (dimmerabili) realizzate con un profilo di alluminio calandrato con diffusore in polycarbonato opalino. Disponibile in diverse misure e svariate finiture. La particolarità del flusso luminoso rivolto verso l'interno della circonferenza garantisce un confort visivo particolarmente elevato e contribuisce ad esaltare la leggerezza della struttura.

La collezione Lancia Tonda si completa con le versioni a parete (pg. 267), a soffitto (pg. 269) e a sospensione (pg. 82).

Table and floor lamps (dimmmable) made with a calendared aluminium profile with opal polycarbonate diffuser.

Available in different sizes and various finishes. Luminous flux directed towards the inside of the circumference increases visual comfort and helps to enhance the lightness of the structure. The Lancia Tonda collection is completed with the wall (pg. 267), Ceiling (pg. 269) and suspension (pg. 82) applications.

Lampes de table et de sol (dimmmables) réalisées avec un profil en aluminium calandré avec diffuseur en polycarbonate opale.

Disponibile en différentes tailles et différentes finitions.

La particularité du flux lumineux dirigé vers l'intérieur de la circonférence garantit un confort visuel particulièrement élevé et contribue à renforcer la légèreté de la structure.

La collection Lancia Tonda est complétée par les versions mur (p. 267), plafond (p. 269) et suspension (p. 82).

Lámparas de mesa y pie (regulables) realizadas con perfil de aluminio calandrado con difusor de polycarbonato opal.

Disponibile en diferentes tamaños y varios acabados.

La particularidad del flujo luminoso dirigido hacia el interior de la circunferencia garantiza un confort visual particularmente alto y ayuda a realzar la ligereza de la estructura.

La colección Lancia Tonda se completa con las versiones de pared (pág. 267), Techo (pág. 269) Y suspensión (pág. 82).

Tisch- und Stehleuchten (dimmmbar) aus kalandriertem Aluminiumprofil mit opalem Polycarbonat-Diffusor.

Erhältlich in verschiedenen Größen und verschiedenen Ausführungen.

Die Besonderheit des nach innen gerichteten Lichtstroms garantiert einen besonders hohen Sehkomfort und trägt zur Leichtigkeit der Konstruktion bei.

Die Kollektion Lancia Tonda wird durch die Wand- (S. 267), Decken- (S. 269) und Pendelversionen (S. 82) vervollständigt.

Настольная и напольная лампы (диммируемые) выполненные из алюминиевого профиля с диффузором из матового поликарбоната.

Есть разные размеры и варианты отделки.

Особенность в том, что световой поток направлен внутрь обруча, что гарантирует очень приятный визуальный комфорт и подчеркивает легкость всей структуры.

В коллекции Lancia Tonda есть также настенные (стр. 267), потолочные (стр. 269) и подвесные (стр. 82) модели.

Lampade da Tavolo e Terra realizzate in alluminio verniciato con diffusore in policarbonato opalino.

Lancia, oltre ad illuminare, riesce a creare gradevoli effetti luminosi grazie alla rotazione dell'elemento luminoso ed alla possibilità di dimmerazione.

La collezione Lancia si completa con le versioni a parete e a soffitto (pg.300) e a sospensione (pg.98).

Table and floor lamps made of painted aluminum with opal polycarbonate diffuser.

Besides to illuminate, Lancia manages to create pleasant lighting effects thanks to the rotation on the axis of the light element and the possibility of dimming.

The Lancia collection is completed with the wall (pg.300), ceiling (pg.300) and suspended (pg.98) applications.

Lampes de table et lampadaires en aluminium peint avec diffuseur en polycarbonate opale.

En plus de l'éclairage, Lancia parvient à créer des effets lumineux agréables grâce à la rotation de l'élément lumineux et à la possibilité de gradation.

La collection Lancia est complétée par les versions murale (p.300), plafonnier (p.300) et suspendue (p.98).

Lámparas de mesa y pie fabricadas en aluminio pintado con difusor de policarbonato opal.

Además de la iluminación, Lancia consigue crear efectos luminosos agradables gracias a la rotación del elemento luminoso y la posibilidad de atenuación.

La colección Lancia se completa con las versiones de pared (pág.300), techo (pág.300) y suspensión (pág.98).

Tisch- und Stehleuchten aus lackiertem Aluminium mit opalem Polycarbonat-Diffusor. Neben der Beleuchtung schafft Lancia dank der Drehung des Lichtelements und der Möglichkeit zum Dimmen angenehme Lichteffekte.

Die Lancia-Kollektion wird durch die Versionen Wand (S.300), Decke (S.300) und Pendel (S.98) vervollständigt.

Настольная и напольная лампы, выполненные из окрашенного алюминия с диффузором из матового поликарбоната.

Lancia не только освещает, но и создает приятные глазу эффекты, благодаря возможности поворачивать и диммировать светильник.

В коллекции Lancia есть также настенные (стр.300), потолочные (стр.300) и подвесные (стр.98) модели.

Lampade d'appoggio caratterizzate da un filo di metacrilato extra chiaro colato su uno stampo con tecnologia Flight-flow. La particolarità della lavorazione e della qualità del metacrilato rendono Matassa estremamente luminosa (senza vedere la sorgente luminosa) creando una suggestiva illuminazione d'effetto. La collezione Matassa si completa con le versioni a parete e a soffitto (pg.384) e a sospensione (pg.218).

Floor and table lamps characterized by an extra clear methacrylate thread cast on a mold with Flight-flow technology. The particularity of the processing and the quality of the methacrylate make the Matassa extremely bright (although the light source is hidden), generating an amazing lighting effect. The Matassa collection is completed with the wall (pg.384), ceiling (pg.384) and suspension (pg.218) applications.

Lampadaire et lampe de table caractérisées par un fil de méthacrylate extra clair coulé sur un moule avec la technologie Flight-flow. La particularité du traitement et la qualité du méthacrylate rendent le Matassa extrêmement lumineux (sans voir la source lumineuse), créant un éclairage à effet suggestif. La collection Matassa est complétée par les versions applique (p.384), plafonnier (p.384) et suspension (p.218).

Lámparas de pie y de mesa caracterizadas por un hilo de metacrilato extra claro fundido en un molde con tecnología Flight-flow. La particularidad del procesamiento y la calidad del metacrilato hacen que Matassa sea extremadamente brillante (sin ver la fuente de luz), creando un sugerente efecto de iluminación. La colección Matassa se completa con las versiones de pared (pág.384), techo (pág.384) y suspensión (pág.218).

Stützleuchten gekennzeichnet durch einen extra klaren Methacrylatfaden, der auf eine Form mit Flight-Flow-Technologie gegossen wurde. Die Besonderheit der Verarbeitung und die Qualität des Methacrylats machen die Matassa extrem hell (ohne die Lichtquelle zu sehen), wodurch eine suggestive Effektbeleuchtung entsteht. Abgerundet wird die Matassa-Kollektion durch die Ausführungen Wand (S.384), Decke (S.384) und Pendel (S.218).

Светильники из оригинальной сверхпрозрачной метакрилатной нити, изготовленной по технологии Flight-flow. Особенность материала и качество метакрилата делают светильник очень ярким (причем источник света не виден) и эффектным. В коллекции Matassa есть также настенные (стр.384), потолочные (стр.384) и подвесные (стр.218) модели.

Una rivisitazione in chiave tecnologica delle lampade degli anni '60 e '70 realizzate con gli stessi materiali: ottone lucido o satinato. Le lampadine LED E27 con effetto ceramico bianco ricreano l'impressione del vetro opale in voga all'epoca. La collezione Olim si completa con la versione a parete (pg.414).

A technological recall to the lamps of the 60s and 70s using same materials: polished or satin brass. The E27 LED bulbs with white ceramic effect reproduces the effect of opal glass, trend of that time. The Olim collection is completed with the wall application (pg.414).

Une réinterprétation technologique des lampes des années 60 et 70 réalisées avec les mêmes matériaux : laiton poli ou satiné. Les ampoules LED E27 à effet céramique blanche recréent l'impression de verre opale en vogue à l'époque. La collection Olim est complétée par la version murale (p.414).

Una reinterpretación tecnológica de las lámparas de los años 60 y 70 fabricadas con los mismos materiales: latón pulido o satinado. Las bombillas LED E27 con efecto cerámico blanco recrean la impresión del vidrio opal en boga en ese momento. La colección Olim se completa con la versión pared (pág.414).

Eine technologische Neuinterpretation der Lampen der 60er und 70er Jahre aus den gleichen Materialien: poliertes oder satiniertes Messing. Die E27-LED-Lampen mit weißem Keramikeffekt erzeugen den Eindruck von Opalglas, das damals en vogue war. Abgerundet wird die Kollektion Olim mit der Wandversion (S.414).

Технологический пересмотр светильников 60-х и 70-х годов прошлого века, исполненных из тех же материалов: блестящей или сатиновой латуни. Лампы E27 с эффектом белой керамики напоминают лампы из матового стекла той эпохи. В коллекции Olim есть также настенные (стр.414) модели.

Lampada a parete di facile installazione ideale per utilizzo testata letto realizzata in PVC coprente per un gradevole effetto up-down o in PVC bianco satinato per Luce diffusa. La particolarità del telaio in acciaio armonico ci permette una perfetta rotazione del paralume per direzionale la luce. La sorgente con attacco GX53 è disponibile in tre temperature di colore.

Easy to install wall lamp ideal for headboard use, made of matt PVC (black / gold) for a pleasant up-down effect or satin white PVC for diffused light. The particularity of the harmonic steel frame allows us to perfectly rotate the lampshade to direct the light. Lamp with GX53 socket and GX53 led source available in three led temperatures.

Applique facile à installer idéale pour une utilisation en tête de lit, en PVC mat (noir/ or) pour un effet haut-bas agréable ou en PVC blanc satiné pour une lumière diffuse. La particularité de l'armature en acier harmonique nous permet de faire pivoter parfaitement l'abat-jour pour diriger la lumière. Lampe avec douille GX53 et source led GX53 disponible en trois températures led.

Aplique de fácil instalación ideal para cabeceros, fabricado en PVC mate (negro / dorado) para un agradable efecto up-down o PVC blanco satinado para luz difusa. La particularidad del marco de acero armónico nos permite rotar perfectamente la pantalla para dirigir la luz. Lámpara con casquillo GX53 y fuente de led GX53 disponible en tres temperaturas de led.

Einfach zu montierende Wandleuchte ideal für den Einsatz am Kopfteil, aus mattem PVC (schwarz / gold) für einen angenehmen Up-Down-Effekt oder satiniertem weißem PVC für diffuses Licht. Die Besonderheit des harmonischen Stahlrahmens ermöglicht es uns, den Lampenschirm perfekt zu drehen, um das Licht zu lenken. Lampe mit GX53-Fassung und GX53-LED-Quelle in drei LED-Temperaturen erhältlich.

Легкий в установке настенный светильник, идеально подходящий для использования в изголовье кровати, изготовлен из матового ПВХ (черный / золотой) для приятного эффекта «вверх-вниз» или из белого сатинированного ПВХ для рассеянного света. Особенность гармоничного стального каркаса позволяет нам идеально поворачивать абажур для направления света. Лампа с цоколем GX53 и источником светодиода GX53 доступна с тремя температурами светодиода.

Lampade da Soffitto o da Parete a Luce diffusa.

Il taglio asimmetrico del riflettore è l'elemento caratterizzante della lampada che appare diversa da ogni angolazione la osservi. Flower può essere installata anche in composizione di più elementi.

La predisposizione per un cablaggio passante permette di accostare più apparecchi partendo da un unico punto luce.

Diffused light ceiling or wall lamps.

The asymmetrical cut of the reflector is the characterizing element of the lamp which appears different from every angle you look at it. Flower can also be installed in a multiple elements' configuration.

The predisposition for a pass-through wiring in fact, allows to feed several fixtures starting from a single light point.

Plafonniers ou appliques à lumière diffuse.

La coupe asymétrique du réflecteur est l'élément caractéristique de la lampe qui apparaît différent sous tous les angles sous lesquels vous la regardez.

Flower peut également être installé dans une composition de plusieurs éléments.

La prédisposition pour le câblage traversant vous permet de combiner plusieurs luminaires à partir d'un seul point de lumière.

Lámparas de techo o pared con luz difusa.

El corte asimétrico del reflector es el elemento característico de la lámpara que parece diferente desde cada ángulo que se mire.

Flower también se puede instalar en una composición de varios elementos.

La disposición previa para el cableado pasante le permite combinar varias luminarias a partir de un único punto de luz.

Decken- oder Wandleuchten mit diffusem Licht. Der asymmetrische Schliff des Reflektors ist das charakteristische Element der Leuchte, das aus jedem Blickwinkel anders erscheint. Flower kann auch in einer Konfiguration mit mehreren Elementen installiert werden. Die Prädisposition für eine Durchgangverkabelung ermöglicht es sogar, mehrere Leuchten von einem einzigen Lichtpunkt aus zu speisen.

Потолочные или настенные светильники рассеянного света. Асимметричный разрез отражателя - это характерный элемент лампы, который выглядит по-разному под любым углом, с которого вы на него смотрите. Цветок также может быть установлен в многоэлементной конфигурации. Предрасположенность к сквозной проводке, по сути, позволяет питать несколько светильников, начиная с одной световой точки.

design P. Pepere - 2015

Lampade da Soffitto e da Parete (orientabile) realizzate con un profilo di alluminio e un diffusore in polycarbonato opalino.

La versione a parete dal disegno semplice ed essenziale è studiata per l'installazione su specchi o su quadri grazie all'alta efficienza luminosa ed al CRI>90. Disponibile in diverse misure e svariate finiture.

La linea elegante le conferisce un aspetto che ben si adatta a qualsiasi ambiente, dagli interni classici a quelli moderni. La collezione Lancia si completa con le versioni da appoggio (pg.230), e a sospensione (pg.98).

Ceiling and Wall Lamps (adjustable) made with aluminum profile and an opal polycarbonate diffuser.

The wall version with a simple and essential design is suitable for installation on mirrors or pictures thanks to the high luminous efficiency and CRI> 90. Available in different sizes and various finishes.

The elegant design makes the product suitable for any environment, either classic or modern interiors. The Lancia collection is completed with table/floor (pg.230) and pendant (pg.98) application.

Plafonniers et Appliques (réglables) réalisés avec un profil en aluminium et un diffuseur en polycarbonate opale.

La version applique au design simple et essentiel est étudié pour une installation sur des miroirs ou des tableaux grâce à la haute efficacité lumineuse et CRI> 90. Disponible en différentes dimensions et différentes finitions. La ligne élégante donne un aspect qui s'adapte bien à tout type d'environnement, des intérieurs classiques aux intérieurs modernes. La collection Lancia est complétée par les versions table au sol (p.230) et suspension (p.98).

Lámparas de techo y pared (orientables) realizadas con perfil de aluminio y difusor de polycarbonato opal.

La versión de pared con un diseño simple y esencial está diseñada para instalación sobre espejos o cuadros gracias a la alta eficiencia luminosa y CRI> 90. Disponible en diferentes tamaños y varios acabados. La línea elegante le da un aspecto que se adapta bien a cualquier entorno, desde interiores clásicos hasta modernos. La colección Lancia se completa con las versiones sobre mesa y piso (pág.230) y suspnesion (pág.98).

Decken- und Wandleuchten (verstellbar) aus Aluminiumprofil und einem opalen Polycarbonat-Diffusor. Die Wandversion mit schlichtem und essentielltem Design eignet sich dank der hohen Lichtausbeute und CRI > 90 für die Montage auf Spiegeln oder Bildern. Erhältlich in verschiedenen Größen und verschiedenen Ausführungen. Durch das elegante Design eignet sich das Produkt für jede Umgebung, sowohl für klassische als auch für moderne Innenräume. Die Lancia-Kollektion wird mit Tisch-/Boden- (S.230) und Pendel- (S.98) Applikationen vervollständigt.

Р Потолочные и настенные светильники (регулируемые) из алюминиевого профиля и диффузора из опалового поликарбоната. Настенная версия с простым и строгим дизайном подходит для установки на зеркала или картины благодаря высокой светоотдаче и CRI> 90. Доступны в разных размерах и с различной отделкой. Элегантный дизайн делает продукт подходящим для любого интерьера, будь то классический или современный интерьер. Коллекция Lancia дополнена настольной/напольной (стр.230) И подвеской (стр.98) Аппликациями.

design S. Cornellsen - 2016

Lampade da parete di diverse dimensioni per Luce radente.

Il posizionamento dei circuiti nella totale lunghezza dell'apparecchio rendono Ci una lampada estremamente performante.

La linea essenziale ed elegante le conferisce un aspetto che ben si adatta a qualsiasi tipo di ambiente, dagli interni classici a quelli moderni.

Wall lamps with different sizes for grazing light. Positioning the circuits along the total length of the profile we obtain an extremely performing lamp.

The minimal design makes this lamp suitable for any type of environment, either classic or modern interiors.

Appliques de différentes dimension avec une illumination rasante.

Le positionnement des circuits dans la longueur totale du luminaire font de Ci une lampe extrêmement performante.

La ligne essentielle et élégante donne un aspect qui s'adapte bien à tout type d'environnement, des intérieurs classiques aux intérieurs modernes.

Apliques de diferentes dimensión para luz rasante.

El posicionamiento de circuitos en la longitud total de la luminaria hacen de Ci una lámpara de alto rendimiento.

La línea esencial y elegante le da un aspecto que se adapta bien a cualquier tipo de ambiente, desde interiores clásicos a modernos.

Wandleuchten in verschiedenen Größen für Streiflicht. Durch die Anordnung der Stromkreise entlang der Gesamtlänge des Profils erhalten wir eine äußerst leistungsstarke Lampe. Durch das minimalistische Design eignet sich diese Lampe für jede Art von Umgebung, sowohl für klassische als auch für moderne Innenräume.

Настенные светильники разных размеров для падающего света. Располагая контуры по всей длине профиля, мы получаем очень эффективный светильник. Минималистичный дизайн делает этот светильник подходящим для любого типа интерьера, будь то классический или современный интерьер.

Lampade da parete o soffitto in alluminio caratterizzate da tre forme cilindriche differenti presentate singole o doppie.

La possibilità di scelta della temperatura di colore, delle ottiche unite ad una buona emissione luminosa rendono Newton un'ottima soluzione per innumerevoli richieste sia in ambito pubblico che residenziale.

La collezione Newton si completa con le versioni a sospensione (pg.130) e da terra (pg.246).

Aluminium Wall or Ceiling Lamps with three different cylindrical shapes, either in single or double version.

Color temperature's and optic's wide choice, combined with a performing light output, make Newton an excellent solution for different request in either public or residential installation.

The Newton collection is completed with the suspension (pg.130) and floor (pg.246) applications.

Appliques ou plafonniers en aluminium caractérisés par trois formes cylindriques différentes présentées simples ou doubles.

Le choix de la température de couleur, l'optique combinée à un bon rendement lumineux font de Newton une excellente solution pour toutes les demandes dans les environnements publics et résidentiels.

La collection Newton est complétée par les versions suspension (p.130) et sol (pg.246).

Lámparas de pared o techo de aluminio caracterizadas por tres formas cilíndricas diferentes presentadas simples o dobles.

La elección de la temperatura de color, la óptica combinada con una buena salida de luz hacen de Newton una excelente solución para muchas solicitudes en entornos públicos y residenciales.

La colección Newton se completa con las versiones de suspensión (pág.130) y suelo (pág.246).

Aluminium Wand- oder Deckenleuchten mit drei verschiedenen zylindrischen Formen, wahlweise in Einzel- oder Doppelausführung. Die große Auswahl an Farbtemperatur und Optik, kombiniert mit einer leistungsstarken Lichtleistung, machen Newton zu einer ausgezeichneten Lösung für unterschiedliche Anforderungen in öffentlichen oder privaten Installationen. Abgerundet wird die Newton-Kollektion durch die Applikationen Aufhängung (S.130) und Boden (S.246).

Алюминиевые настенные или потолочные светильники трех различных цилиндрических форм в одинарном или двойном исполнении. Широкий выбор цветовой температуры и оптики в сочетании с высокой светоотдачей делают Newton отличным решением для различных задач как в общественных, так и в жилых помещениях. Коллекция Newton дополнена подвесными (стр.130) и напольными (стр.246) Приложениями.

Lampade a plafone o incasso in alluminio a struttura conica disponibile in due altezze.
La forma caratterizza l'emissione della Luce creando coni luminosi d'effetto.
La sorgente è arretrata e non abbagliante.

Conical structure aluminum ceiling or recessed lamps available in two heights.
The shape allows the emission of light by creating effect light cones.
The source is retro fit avoiding glaring.

Plafonniers à structure conique en aluminium ou lampes encastrées disponibles en deux hauteurs.
La forme caractérise l'émission de lumière en créant des cônes lumineux à effet.

La source est en retrait et non éblouissante.
Lámparas de techo o empotrables de estructura cónica de aluminio disponibles en dos alturas.
La forma caracteriza la emisión de luz creando efectos de conos de luz.
La fuente está retrasada y no es deslumbrante.

Decken- oder Einbauleuchten aus Aluminium mit konischer Struktur in zwei Höhen erhältlich.
Die Form ermöglicht die Emission von Licht durch die Bildung von Effektllichtkegeln. Die Quelle ist nachgerüstet, um Blendung zu vermeiden.

Алюминиевые потолочные светильники с конической структурой или встраиваемые светильники двух высот.
Форма позволяет излучать свет, создавая эффект световых конусов.
Источник выполнен в стиле ретро, избегая слепящего взгляда.

Lampada da parete a luce indiretta dalla forma elegante ed essenziale realizzata in alluminio verniciato. Il disegno si ispira al calice per la degustazione del cognac o del brandy. Il portalampada E27 garantisce la possibilità di scegliere per Baloon la quantità di luce desiderata. La sua semplicità formale è perfetta per adattarsi a qualsiasi ambiente classico o moderno, pubblico o privato ed a qualsiasi stile. La collezione Baloon si completa con le versioni da terra (pg.244) e a sospensione (pg.198).

Indirect light wall lamp with an elegant and essential shape made of painted aluminum. The design is inspired by the glass for tasting cognac or brandy. The E27 lamp holder guarantees the possibility to choose the desired amount of light for Baloon. Minimal design matches to any classic or modern environment, public or private and to any style. The Baloon collection is completed with the floor (pg.244) And suspension (pg.198) applications.

Applique à lumière indirecte avec une forme élégante et essentielle en aluminium peint. Le design s'inspire du verre de dégustation de cognac ou de brandy. La douille E27 garantit la possibilité de choisir la quantité de lumière souhaitée pour Baloon. Sa simplicité formelle est parfaite pour s'adapter à n'importe quel environnement classique ou moderne, public ou privé et à n'importe quel style. La collection Baloon est complétée par les versions sol (p.244) et suspension (p.198).

Aplique de pared de luz indirecta de forma elegante y esencial fabricado en aluminio pintado. El diseño está inspirado en la copa para degustar coñac o brandy. El portalámparas E27 garantiza la posibilidad de elegir la cantidad de luz deseada para Baloon. Su sencillez formal es perfecta para adaptarse a cualquier ambiente clásico o moderno, público o privado y a cualquier estilo. La colección Baloon se completa con las versiones de suelo (pág.244) y suspensión (pág.198).

Indirektlicht Wandleuchte mit einer eleganten und essentiellen Form aus lackiertem Aluminium. Das Design ist vom Glas zum Verkosten von Cognac oder Brandy inspiriert. Die E27-Lampenfassung garantiert die Möglichkeit, die gewünschte Lichtmenge für Baloon zu wählen. Minimales Design passt zu jeder klassischen oder modernen Umgebung, öffentlich oder privat und zu jedem Stil. Abgerundet wird die Baloon-Kollektion durch die Applikationen Boden (S.244) und Aufhängung (S.198).

Настенный светильник отраженного света элегантно и простой формы из окрашенного алюминия. Дизайн вдохновлен бокалом для дегустации коньяка или бренда. Патрон E27 гарантирует возможность выбора желаемого количества света для Baloon. Минималистичный дизайн подходит к любой классической или современной обстановке, общественной или частной и к любому стилю. Коллекция Baloon дополняется напольными (стр.244) И подвесными (стр.198) Аппликациями.

Lampade a soffitto a luce diffusa. Il corpo è realizzato in trafilata di alluminio saldata con diffusore in metacrilato satinato.

Il circuito LED ad alta efficienza e il driver sono integrati nella struttura della lampada. RAIL QUADRA è pensata come un'unica grande cornice, un percorso chiuso di luce che definisce e sottolinea lo spazio sottostante. Dal disegno moderno è adatta per illuminare tavoli da pranzo, scrivanie e ambienti ufficio. A richiesta può essere fornita in versione dimmerabile o con altre potenze.

Diffused light ceiling lamps. The body is made of welded aluminum extrusion with satin methacrylate diffuser. The high efficiency LED circuit and the drivers are integrated into the lamp structure. RAIL QUADRA is conceived as a single large frame, a closed path of light that defines and emphasizes the space below. With a modern design it is suitable for lighting dining tables, desks and office environments. On request it can be supplied in a dimmable version or with other powers.

Plafonniers à lumière diffuse. Le corps est en aluminium extrudé soudé avec diffuseur en méthacrylate satiné. Le circuit LED à haute efficacité et les pilotes sont intégrés dans la structure de la lampe. RAIL QUADRA est conçu comme un seul grand cadre, un chemin de lumière fermé qui définit et met l'accent sur l'espace en dessous. Avec un design moderne, il convient à l'éclairage des tables à manger, des bureaux et des environnements de bureau. Sur demande, il peut être fourni en version dimmable ou avec d'autres puissances.

Plafones de luz difusa. El cuerpo está fabricado en extrusión de aluminio soldado con difusor de metacrilato satinado. El circuito LED de alta eficiencia y los controladores están integrados en la estructura de la lámpara. RAIL QUADRA se concibe como un solo gran marco, un camino cerrado de luz que define y enfatiza el espacio debajo. Con un diseño moderno, es adecuado para iluminar mesas de comedor, escritorios y entornos de oficina. Bajo pedido se puede suministrar en versión regulable o con otras potencias

Deckenlampen mit diffusem Licht. Der Körper besteht aus geschweißtem Aluminium-Strangpressprofil mit satiniertem Methacrylat-Diffusor.

Die hocheffiziente LED-Schaltung und die Treiber sind in die Lampenstruktur integriert. RAIL QUADRA ist als einzelner großer Rahmen konzipiert, ein geschlossener Lichtweg, der den darunter liegenden Raum definiert und betont. Mit modernem Design eignet sie sich zur Beleuchtung von Esstischen, Schreibtischen und Büroumgebungen. Auf Anfrage kann er in einer dimmbaren Version oder mit anderen Leistungen geliefert werden.

Потолочные светильники рассеянного света. Корпус изготовлен из сварного алюминиевого профиля с диффузором из сатинированного метакрилата.

Схема высокоэффективного светодиода и драйверы интегрированы в структуру лампы. RAIL QUADRA задумана как одна большая рама, замкнутая световая дорожка, которая определяет и подчеркивает пространство внизу. Обладая современным дизайном, он подходит для освещения обеденных столов, письменных столов и офисных помещений. По запросу он может быть поставлен с регулируемой яркостью или с другими мощностями.

Lampada lineare a plafone in estruso d'alluminio con diffusore in metacrilato.
L'assenza di viti, l'alimentatore integrato nella struttura e i tappi cromati rendono Phantom una lampada estremamente elegante.
La collezione Phantom si completa con la versione a sospensione (pg.186).

Linear ceiling lamp in extruded aluminum with methacrylate diffuser.

Screwless and with a built-in driver, completed with chrome end caps, Phantom becomes a functional and elegant lamp at the same time

The Phantom collection is completed with the suspended application (pg.186).

Plafonnier linéaire en aluminium extrudé avec diffuseur en méthacrylate.

L'absence de vis, l'alimentation intégrée à la structure et les capuchons chromés font de Phantom une lampe extrêmement élégante.

La collection Phantom est complétée par la version suspension (pg.186).

Lámpara de techo lineal en extrusión de aluminio con difusor de metacrilato.

La ausencia de tornillos, la fuente de alimentación integrada en la estructura y las tapas cromadas hacen de Phantom una lámpara extremadamente elegante.

La colección Phantom se completa con la versión de suspensión (pág.186).

Lineare Deckenleuchte aus stranggepresstem Aluminium mit Diffusor aus Methacrylat. Schraubenlos und mit eingebautem Treiber, komplettiert mit verchromten Endkappen, wird Phantom gleichzeitig zu einer funktionalen und eleganten Lampe Die Phantom-Sammlung wird mit der ausgesetzten Anwendung (S.186) vervollständigt.

Линейный потолочный светильник из экструдированного алюминия с рассеивателем из метакрилата. Безвинтовой и со встроенным драйвером, дополненный хромированными торцевыми заглушками, Phantom становится одновременно функциональным и элегантным светильником. Коллекция Phantom дополняется приостановленным приложением (стр.186).

Lampade da Parete o Soffitto realizzate con un filo di metacrilato extra chiaro colato su uno stampo (tecnologia Flight-flow).

La particolarità della lavorazione e della qualità del metacrilato rendono Matassa estremamente luminosa (senza vedere la sorgente luminosa) creando una suggestiva illuminazione d'effetto.

La collezione Matassa si completa con le versioni a sospensioni (pg.218) e le versioni da appoggio (pg.254).

Wall or Ceiling Lamps made with an extra clear methacrylate thread cast on a mold (Flight-flow technology).

The particularity of the processing and the quality of the methacrylate make the Matassa extremely bright (even though the light source is hidden), creating a sparkly lighting effect.

The Matassa collection is completed with the suspension versions (pg. 218) and the countertop versions (pg. 254).

Appliques ou plafonniers fabriqués avec un fil de méthacrylate extra clair coulé sur un moule (Technologie Flight-flow).

La particularité du traitement et la qualité du méthacrylate rendent le Matassa extrêmement lumineux (sans voir la source lumineuse), créant un éclairage à effet suggestif.

La collection Matassa est complétée par les versions à suspension (p. 218) et les versions à comptoir (p. 254).

Lámparas de pared o de techo fabricadas con hilo de metacrilato extra claro moldeado. (Tecnología Flight-flow).

La particularidad del procesamiento y la calidad del metacrilato hacen que Matassa sea extremadamente brillante (sin ver la fuente de luz), creando un sugerente efecto de iluminación.

La colección Matassa se completa con las versiones de suspensión (pág. 218) y las versiones de encimera (pág. 254).

Wand- oder Deckenleuchten aus einem extra klaren Methacrylatfaden, der auf eine Form gegossen wurde. (Flight-Flow-Technologie). Die Besonderheit der Verarbeitung und die Qualität des Methacrylats machen die Matassa extrem hell (obwohl die Lichtquelle verborgen ist) und erzeugt einen funkelnden Lichteffect. Die Kollektion Matassa wird durch die Pendelversionen (S. 218) und die Arbeitsplattenversionen (S. 254) vervollständigt.

Настенные или потолочные светильники, изготовленные из особо прозрачной метакрилатной нити, отлитой по форме. (Летно-поточная техника). Особенность обработки и качество метакрилата делают Matassa чрезвычайно ярким (даже если источник света скрыт), создавая эффект сверкающего освещения.

Коллекция Matassa дополняется версиями с подвесом (стр. 218) и версиями для столешницы (стр. 254).

Una rivisitazione delle lampade degli anni 60 e 70 realizzate con gli stessi materiali ottone lucido o satinato. Le lampadine LED E27 in vetro con effetto ceramico bianco ricreano l'impressione dei vetri opale in voga all'epoca. La collezione Olim si completa con le versioni da Tavolo (pg. 262).

A recall to the lamps of the 60s and 70s using same materials: polished or satin brass. The E27 LED bulbs with white ceramic effect reproduces the effect of opal glass, trend of that time. The Olim collection is completed with the table application (pg.262).

Une réinterprétation des lampes des années 60 et 70 réalisées avec les mêmes matériaux , laiton poli ou satiné. Les ampoules LED en verre E27 à effet céramique blanche recréent l'impression de verre opale en vogue à l'époque. La collection Olim est complétée par les versions de table (p.262).

Una reinterpretación de las lámparas de los años 60 y 70 fabricadas con los mismos materiales , latón pulido o satinado. Las bombillas LED de vidrio E27 con efecto cerámico blanco recrean la impresión del vidrio opalino en boga en ese momento. La colección Olim se completa con las versiones de mesa (pág.262).

Eine Reminiszenz an die Lampen der 60er und 70er Jahre mit den gleichen Materialien: poliertes oder satiniertes Messing. Die E27 LED-Lampen mit weißem Keramikeffekt reproduzieren die Wirkung von Opalglas, dem Trend dieser Zeit. Abgerundet wird die Kollektion Olim mit der Tischapplikation (S.262).

Технологический возврат к лампам 60-х и 70-х годов с использованием тех же материалов: полированной или сатинированной латуни. Светодиодные лампы E27 с эффектом белой керамики воспроизводят тренд того времени эффект опалового стекла. Коллекция Олим дополняется настольным приложением (стр.262).
