Realise your lighting ideas

Paulmann Licht GmbH, located in Springe in Lower Saxony (Germany), offers over 2500 innovative products; as one of the leading manufacturers in the light industry, we are able share our expertise – from luminaires through luminaire systems to a complete bulb assortment with many speciality lamps.

Paulmann products appeal to your customers with feel-good lighting, trendy designs and high energy efficiency.

Sales offices and agencies in around 40 countries in Europe ensure that customers receive direct, local support.

Da forma a tus ideas de iluminación

Paulmann Licht GmbH con sede en Springe, Baja Sajonia (Alemania), con sus más de 2500 productos innovadores, es uno de los proveedores líderes en el sector de luminarias y ofrece soluciones competentes para toda la gama de productos: desde luminarias y sistemas de iluminación hasta un surtido completo de lámparas con muchas especialidades.

Los productos Paulmann entusiasman a sus clientes por su luz agradable, diseño actual y alta eficiencia energética.

Gracias a las sucursales y representaciones en cerca de 40 países de Europa, los clientes reciben un asesoramiento individual y sin desplazamientos.

Realizza i tuoi progetti di illuminazione

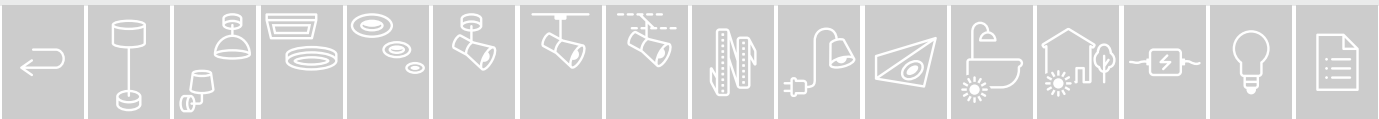

Con oltre 2500 prodotti innovativi, Paulmann Licht GmbH, che ha sede a Springe (Bassa Sassonia, Germania), è uno dei fornitori leader nel settore dell'illuminazione. Le sue competenze coprono l'intero assortimento: dai singoli apparecchi ai sistemi d'illuminazione fino a un assortimento completo di lampadine che vanta prodotti esclusivi.

I prodotti Paulmann soddisfano i clienti con la loro luce per il benessere, il design moderno e l'elevata efficienza energetica.

Grazie alle nostre filiali e rappresentanze in 40 Paesi europei, i clienti possono usufruire di un'assistenza individuale direttamente in loco.

Smart Home

Create a wonderful light ambiance in any room or in the garden with our large selection of smart lamps and luminaires. Eye-friendly warm white, adjustable tunable white or colourful RGBW, bright or subdued – our smart products offer the perfect light for any application. Create individual lighting scenarios for specific spaces or rooms for any time use. You can use our clever controllers to include your existing installations in your smart scenarios. Depending on the available technology, everything is controlled via app, voice or remote control.

La amplia selección de lámparas y luminarias inteligentes crea una experiencia de luz evocadora en cualquier estancia y también en el jardín. Ya sea un acogedor blanco cálido, un blanco ajustable con posibilidad de regulación o un RGBW de colores, ya sea claro o atenuado: nuestros productos inteligentes tienen la luz adecuada para cada aplicación. Las escenas de luz se pueden crear y activar para zonas o estancias de manera individual y con total comodidad. Incluso las instalaciones existentes se pueden controlar de forma inteligente con nuestros ingeniosos controladores. Según la tecnología, el control se realiza fácilmente mediante aplicación, por voz o con control remoto.

L'ampio assortimento di lampadine e apparecchi smart contribuisce a creare una suggestiva atmosfera luminosa in tutti gli ambienti e in giardino. Che si tratti di un bianco caldo confortevole, Tunable White regolabile, RGBW variopinto, luce luminosa o regolabile: i nostri prodotti smart hanno la soluzione giusta per ogni applicazione. Gli scenari luminosi si possono creare individualmente per ambienti o stanze e richiamare comodamente. Anche le installazioni esistenti sono comandabili con il nostro smart Controller. Il comando avviene, in base alla tecnologia, tramite app, comando vocale o telecomando.

Conveniently network lighting and other Smart Home components in your home and garden. Our Zigbee lamps, luminaires and controllers can be used with any Smart Home control panel with a Zigbee interface, or can be controlled directly via remote control. Control via app while you are not at home or the programming of routines may also be possible depending on the system used.

Interconecte cómodamente la luz y otros componentes de Smart Home en la casa y en el jardín. Nuestras lámparas, luminarias y controllers Zigbee se pueden utilizar con centrales de Smart Home que dispongan de una interfaz Zigbee u operar directamente con un mando a distancia. En función del sistema utilizado, también es posible el control remoto desde fuera de casa o la incorporación en rutinas.

È possibile collegare in rete con la massima comodità la luce e altri componenti Smart Home sia in casa che in giardino. Le nostre lampadine, lampade e i nostri controller Zigbee possono essere utilizzati con qualsiasi unità centrale Smart Home dotata di un'interfaccia Zigbee oppure controllati direttamente con il telecomando. A seconda del sistema utilizzato, sono possibili anche il comando da fuori casa o l'integrazione nelle routine.

Panels

Full coverage light for any application

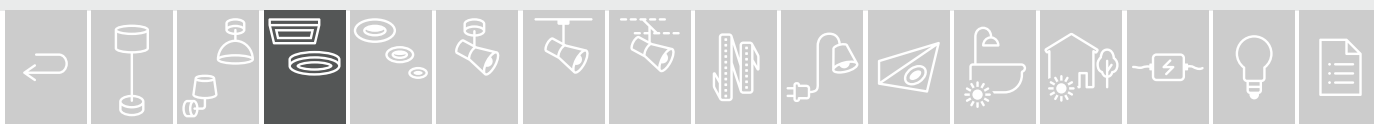

LED panels for versatility – as a wall or ceiling luminaire, LED panels light up any space uniformly and evenly. The understated design and flat shape allow the panels to optimally blend into living or functional spaces.

Luz difusa para cualquier aplicación

Los paneles LED tienen múltiples aplicaciones. Ya sea como apliques o plafones, los paneles LED iluminan cualquier estancia con una luz uniforme y difusa. Con su diseño discreto y plano, los paneles se incorporan a la perfección en la vivienda y en espacios funcionales.

Luce uniforme per ogni
applicazione

I pannelli a LED sono molto versatili poiché, utilizzati come applique o plafoniere, permettono di illuminare ogni ambiente in modo uniforme. Grazie al design discreto e alla forma piatta, i pannelli si integrano perfettamente negli spazi abitativi e funzionali.

ES Cada escena de luz se puede adaptar en su velocidad y congelar como imagen fija.
IT È possibile regolare la velocità di ogni scenografia luminosa e impostarne una come configurazione fissa.

- Velora Rainbow combines exceptional room lighting with magical colours for the best lighting properties with dynamic colour effects.

► The colour temperature is continuously adjustable between 3000 K to 6500 K via remote control, and there are 16 default light animations with dynamic colour control to choose from.

► Velora Rainbow is infinitely dimmable and has an integrated night light function.

► The high-quality matted light surface is integrated in an elegant, rimless floating frame.
- Velora Rainbow aún una excelente iluminación de interiores con una auténtica magia de colores, ya que crea cada vez nuevas combinaciones de las mejores características lumínicas con efectos de color dinámicos.

► Con el mando a distancia, se puede regular la temperatura de color sin escalonados entre 3000 K y 6500 K y ajustar 16 animaciones preconfiguradas con un control dinámico del color.

► Velora Rainbow es regulable sin escalonados y tiene una función de luz de noche integrada.

► La superficie luminosa mateada de alta calidad está integrada en un elegante marco flotante sin borde.
- Velora Rainbow unisce a un'eccezionale illuminazione degli spazi abitativi la più pura magia della luce, in quanto combina in modo completamente innovativo caratteristiche luminose ottimali ed effetti cromatici dinamici.

► Il telecomando consente di regolare in modo continuo la temperatura di colore da 3000 K a 6500 K e di impostare 16 animazioni predefinite, oltre a permettere un controllo dinamico del colore.

► Velora Rainbow è dimmerabile in continuo ed è dotato di una funzione luce notturna integrata.

► La superficie luminosa di alta qualità con effetto opaco è integrata in una cornice fluttuante priva di bordi dalla grande eleganza.

- The Atria Shine LED panel series includes a comprehensive range with state-of-the-art lighting technology and is ideal for basic lighting in living rooms, bedrooms and kitchens.
- All luminaires in this series come equipped with modern backlight technology and have a very low installation height of just 28 mm. The resulting visual effect of the luminaires is modern, understated and almost as if floating on the wall or ceiling.
- The Atria Shine series features a special twist lock, which makes the luminaires very easy to install.
- In addition to switchable luminaires for neutral white and warm white light, models with incremental dimming via a light switch, or colour control via remote control are also available.
- La serie de paneles Atria Shine comprende una gama de productos completa con la tecnología de iluminación más moderna y es ideal como luz de fondo en la sala de estar, el dormitorio o la cocina.
- Todas las luminarias de esta serie están equipadas con la moderna tecnología Backlight y tienen una altura de montaje muy reducida de solo 28 mm. De esta manera, las luminarias tienen un aspecto moderno y discreto y parecen flotar en la pared y el techo.
- Además, la serie Atria Shine es muy fácil de montar gracias a su cierre giratorio especial.
- Además de luminarias conmutables sencillamente con luz de color blanco neutro y blanco cálido, están disponibles unas variantes con regulación escalonada mediante el interruptor de luz o con control del color a través de un mando a distancia.
- La serie di pannelli Atria Shine comprende un'intera gamma delle più moderne tecnologie di illuminazione ed è ideale per l'illuminazione di base di soggiorni e camere da letto o cucine.
- Tutte le lampade di questa serie sono dotate della moderna tecnologia Backlight e si contraddistinguono per il ridottissimo spessore di montaggio pari a 28 mm. Ciò conferisce a queste lampade un look moderno, discreto e con un effetto quasi oscillante su pareti e soffitti.
- La serie Atria Shine è inoltre particolarmente semplice da montare grazie a una speciale chiusura rotante.
- Oltre alle lampade a commutazione semplice con luce bianco neutro e bianco caldo, sono disponibili varianti con dimming a diversi livelli tramite interruttore o con comando dei colori mediante telecomando.

Downlights

Recessed luminaires offer endless application options

Our large selection of trendy, ceiling recessed LED models ensures full room coverage or accent lighting. The modern recessed luminaires with extra flat installation depth and replaceable LED module have no need for a transformer and offer limitless interconnectivity. They are available in many colours and shapes in the Paulmann range: dimmable, swivelling and splash/jet water protected (IP44, IP65, e.g. for the bathroom). You will find the right recessed luminaire for many other areas of use as well: Spotlights for furniture integration – for example to highlight particular pieces of furniture or light up showcases – or for in-wall integration as orientation lighting in hallways or staircases.

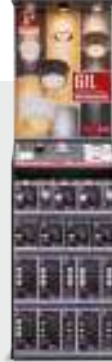

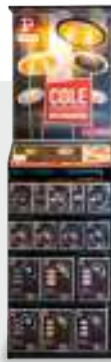

Las luminarias empotrables ofrecen innumerables posibilidades de aplicación

Una amplia selección de modelos LED actuales para el montaje en el techo proporciona una buena iluminación de estancias o de acentuación. Las modernas luminarias empotrables, con una profundidad de la instalación especialmente plana y un módulo LED intercambiable, no requieren ningún transformador y se pueden interconectar sin limitaciones. En el surtido de Paulmann están disponibles en numerosos colores y formas, regulables, orientables y con una protección especial contra salpicaduras o chorros de agua (IP44, IP65, p. ej., para el baño). También se ofrecen luminarias empotrables apropiadas para muchas otras aplicaciones: proyectores para la incorporación en muebles, por ejemplo, para iluminar armarios o vitrinas, o para la incorporación en la pared, donde pueden servir para la iluminación de orientación en pasillos o escaleras.

Base, Nova, Nova Plus

I faretti a incasso offrono innumerevoli possibilità di utilizzo

Un ampio assortimento di modelli a LED, installati nel soffitto, garantisce un'illuminazione dei locali o anche un'illuminazione d'accento. I moderni faretti a incasso con una profondità di incasso molto ridotta e un modulo LED sostituibile non necessitano di trasformatore e si possono collegare tra loro senza alcuna limitazione. Nella gamma Paulmann sono disponibili in molti colori e molte forme, sono dimmerabili, orientabili e dotati di protezione da spruzzi e getti d'acqua (IP44, IP65 ad es. per il bagno). I faretti a incasso soddisfano tutte le esigenze di utilizzo: spot da incasso in mobili per illuminare armadi o vetrine, ma anche da incasso a parete dove fungono da illuminazione di orientamento nel corridoio o nelle scale.

LED recessed panels

Planar lighting for recessed installation

LED panels combine full coverage room light with the benefits of recessed luminaires. The attractive, frameless design blends easily with any interior style. Recessed panels with adjustable spring clamps are a perfect replacement for obsolete recessed luminaire systems. Our great range is rounded off with controllable and smart models.

Paneles LED empotrables

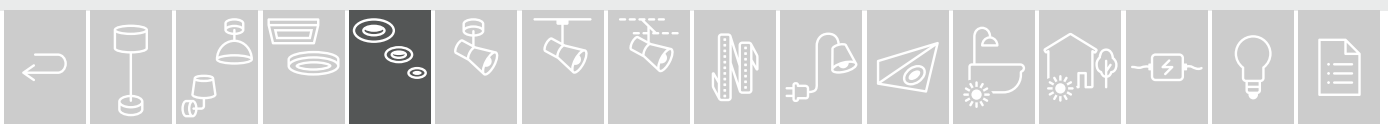

Luz difusa para el montaje empotrado

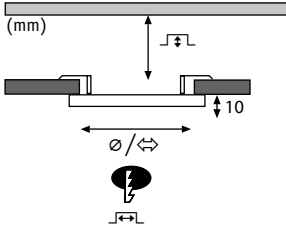

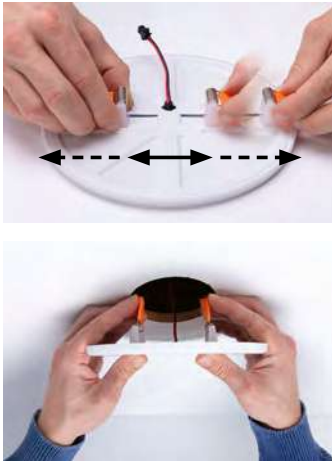

Los paneles LED combinan una luz difusa con las ventajas de las luminarias empotrables. Las agradables variantes sin marco se integran discretamente en cualquier estancia. Una solución ideal para sustituir sistemas de luminarias empotrables anticuados son los paneles empotrables con muelles de sujeción regulables. Las variantes controlables e inteligentes completan de forma óptima el amplio surtido.

Pannelli LED a incasso

Luce piatta da incasso:

i pannelli LED coniugano la luce d'ambiente piatta con i vantaggi dei faretti a incasso. Varianti senza cornice con una luce confortevole si integrano in ogni ambiente in modo discreto. I pannelli a incasso con molle di fissaggio regolabili sono ideali per sostituire sistemi di faretti a incasso obsoleti. Varianti comandabili e smart completano il vasto assortimento in modo ottimale.

Recessed fitting Carcasa incorporado Coppa da incasso Metal Metal Metallo

- ▶ The recessed installation pot is a perfect addition for the installation of swivelling recessed luminaires – simply attach it to the recessed luminaire to protect the luminaire and e.g. insulation materials.
- ▶ Socket included
- ▶ Connection with the help of a junction box
- ▶ La cavidad de montaje es el complemento ideal para la instalación de luminarias empotrables orientables; acoplada a la luminaria empotrable, sirve de protección tanto para la luminaria como para, p. ej., materiales aislantes.
- ▶ Portalámparas incluido
- ▶ Conexión con ayuda de una caja de empalmes
- ▶ La coppa da incasso è il complemento ideale per l'installazione di lampade a incasso orientabili: semplice da applicare sulla lampada da incasso protegge la lampada e ad es. i materiali isolanti.
- ▶ Attacco lampadina incluso
- ▶ Collegamento tramite scatola di collegamento

URail

Your ideas, your light, your system

Distribute spot and Pendulum lights in your home with the URail light rail system. URail offers endless possibilities without complicated installation. All components can be combined and are quickly installed.

- For direct ceiling mounting, suspended or as an on-wall solution
- Plenty of flexibility with various accessories
- Easy switching and dimming – via remote control, voice or app

Tus ideas, tu luz, tu sistema

Distribuye focos y lámparas colgantes por toda la casa con un raíl de iluminación. URail ofrece posibilidades infinitas sin necesidad de un complicado montaje. Todos los componentes se pueden combinar entre ellos y se instalan rápidamente.

- Para el montaje directo en el techo, colgado o en la pared
- Gran flexibilidad gracias a los múltiples accesorios
- Conmutación y regulación sencillas, también con mando a distancia, por voz o a través de la aplicación

Le tue idee, la tua luce, il tuo sistema

Con un binario luminoso puoi distribuire spot e lampade a sospensione in tutto l'appartamento. URail offre innumerevoli possibilità di montaggio in modo del tutto semplice. Tutti i componenti si possono abbinare tra loro e installare rapidamente.

- Per il montaggio diretto a soffitto, nel controsoffitto o a parete
- Massima flessibilità attraverso diversi accessori
- Semplice commutazione e regolazione dell'intensità, anche tramite telecomando, comando vocale o app

EN Three easy steps to create a system

ES Crea tu sistema en tres sencillos pasos

IT Al sistema in tre semplici passaggi

EN 1. Choose rails

2. Choose feeds and connectors

3. Choose a spot or pendulum

Done!

ES 1. Selección de los raíles

2. Selección de los sistemas de alimentación y del conector

3. Selección del foco o péndulo

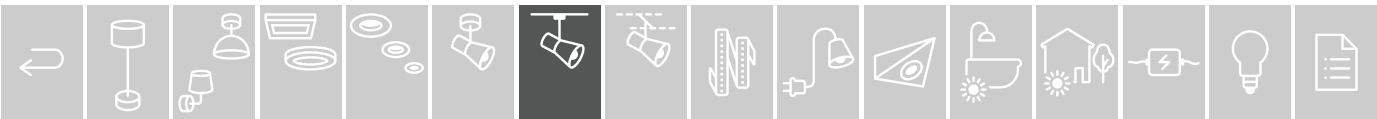

¡Listo!

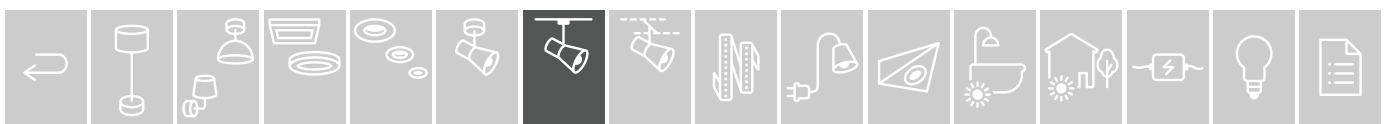

IT 1. Selezionare i binari

2. Selezionare alimentazioni e connettori

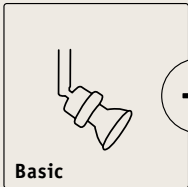

3. Selezionare spot oppure sospensioni

Finito!

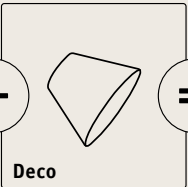

Combine your own personal lighting system
Combine usted mismo su sistema de luz personal
Scegliete voi stessi le combinazioni per il vostro

CorDuo: floating light on fine cables

The newly designed cable systems create elegant lighting in the most demanding room situations. Beams, stucco ceilings, slanted ceilings, attics, slopes and corners no longer pose a problem, and the light can be distributed throughout the room from just one power outlet. The complete sets can be easily expanded to include additional spots and come in the modern matt system colours chrome, white and black. All system components, including the modern design spots, cables, accessories and flat, lightweight transformers come in the same colours.

CorDuo: luz flotante en cables de filigrana

Los sistemas de cables de nuevo diseño crean una iluminación elegante incluso en situaciones de espacio difíciles. Vigas, techos de estuco, techos inclinados o áticos, superficies inclinadas y esquinas se pueden superar sin problemas, distribuyendo la luz en toda la estancia con una única conexión eléctrica. Los juegos completos se pueden ampliar fácilmente con focos individuales y se presentan en los modernos colores de sistema mates cromo, blanco y negro. No solo los focos con su diseño moderno, también los mismos cables, accesorios y los transformadores planos y ligeros armonizan gracias a su color uniforme.

CorDuo: luce oscillante su fili filigranati

I sistemi a filo di nuova concezione garantiscono un'illuminazione elegante anche in situazioni particolarmente problematiche. Che si tratti di travi, soffitti in stucco, tetti inclinati o mansarde, piani inclinati e angoli, questa soluzione risolve ogni problema permettendo di distribuire la luce con un solo allacciamento alla corrente in tutta la stanza. I set completi sono estensibili con la massima semplicità mediante singoli spot e sono disponibili nei colori di sistema moderni e opachi cromo, bianco e nero. Non solo gli spot dal design moderno, ma lo stesso filo, gli accessori e i trasformatori, con la loro leggerezza, risentono positivamente dell'effetto armonizzante di questa colorazione uniforme.

EN Suitable GU5.3 lamps in 3000 K or 4000 K are also available in the three system colours

EN LED strips create favourite spaces

ES Las strips LED convierten las estancias en los lugares preferidos de todos

IT Le Strips LED trasformano gli ambienti in luoghi del cuore

IT Presso i punti vendita: Easy to Shop! Supporto al cliente finale semplice e comprensibile dalla campionatura alla merce

Profiles

EN The elegant addition to LED strips. Premium quality for a long service life, scratch and impact-resistant

The right model for every application: in the ground, on the wall or on the ceiling. All profiles are available in 1 m and 2 m lengths. Diffusers ensure a uniform and glare-free light distribution. All profiles come in sustainable, plastic-reduced cardboard packaging.

ES El complemento elegante para strips LED. Duradero gracias a su alta calidad, resistente a los arañazos y los golpes

Está disponible el modelo adecuado para todas las aplicaciones, ya sea en el suelo, en la pared o en el techo. Todos los perfiles están disponibles con una longitud de 1 m y de 2 m. Los difusores crean una distribución lumínica uniforme sin deslumbrar. Todos los perfiles en un embalaje de cartón sostenible con uso reducido de plástico.

IT Il completamento elegante per le Strips LED. Di lunga durata grazie all'elevata qualità, antigraffio e antiurto

Per ogni applicazione è disponibile il modello adatto, per il pavimento, la parete o il soffitto. Tutti i profili sono disponibili nei modelli da 1m e 2m. I diffusori garantiscono una distribuzione della luce omogenea e priva di effetto abbagliante. Tutti i profili sono confezionati in un imballaggio di cartone sostenibile e con contenuto ridotto di plastica.

MaxLED

- The high luminance of our MaxLED LED strips offers innovative lighting options for living and working areas
 - The LED density in the strips ensure a continuous light look – perfect for use in profiles
 - 1 m of the MaxLED 1000 strip is comparable to the lighting effect of a 75 W incandescent light bulb
 - MaxLED is available as a basic set for later extension or as individual strips for custom configurations
 - Stick-on light: An adhesive strip ensures quick and easy, tool-free installation
 - Con su luminosidad, las strips MaxLED abren posibilidades novedosas para la luz del hogar y del trabajo
 - Su alta densidad de LED crea un hilo continuo de luz: ideal para instalar en perfiles
 - La strip MaxLED 1000 de 1 m equivale al efecto lumínico de una bombilla incandescente de 75 W
 - MaxLED está disponible en juegos básicos ampliables o como strips individuales para las configuraciones deseadas
 - Luz para pegar: instalación rápida sin herramientas gracias a las tiras adhesivas en el dorso
 - Grazie a un'elevata potenza luminosa, le strisce di LED MaxLED aprono scenari completamente nuovi per l'illuminazione generale di spazi abitativi e ambienti di lavoro
 - L'alta concentrazione di LED garantisce una luce continua, ideale per l'integrazione in profili
 - Una striscia MaxLED 1000 da 1 m assicura un effetto luminoso comparabile a quello di una lampada a incandescenza da 75 W
 - MaxLED in set di base ampliabili o come strip singole per configurazioni personalizzabili
 - Luce incollabile: installazione rapida senza bisogno di attrezzi grazie alla striscia adesiva sul retro

- Self-adhesive LED strips for under-cabinet lighting

► High-quality adhesive ensures long-term adhesion

► Coating protects against splash water (IP44)

► Suitable for all standard kitchen dimensions

► Incl. touch switch for dimming and switching

► Cables for bridging gaps (e.g. extractor hood) included
- Strips LED autoadhesivos para la iluminación debajo de armarios

► El adhesivo de alta calidad asegura una sujeción duradera

► El recubrimiento protege de salpicaduras de agua (IP44)

► Apto para todas las medidas estándar en la cocina

► Incluye interruptor táctil para la regulación y conmutación

► Incl. cables para superar distancias (p. ej., extractor de humos)
- Strips LED autoadesive per l'illuminazione di sottopensili

► Il pregiato adesivo garantisce una lunga tenuta

► Il rivestimento protegge da spruzzi d'acqua (IP44)

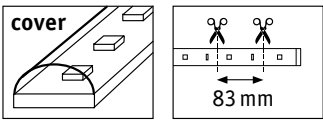

► Adatto per tutte le misure di cucina standard

► Incl. Interruttore touch per regolazione intensità e commutazione

► Incl. cavi per superare le distanze (ad es. cappa)

MaxLED Flow

- ▶ MaxLED Flow – get out of the shadows and into the lime light
- ▶ No LEDs to see, even when turned off: The strip can be placed out in the open on your walls or furniture
- ▶ The slender 1x1cm dimensions suit any furnishing style
- ▶ Incl. transparent clip holder, screws and wall anchors. The strip can be installed straight or in creative patterns to create illuminating wall decorations.
- ▶ The light effect on the wall is particularly striking as the strip has a beam angle of 180 degrees
- ▶ Can be combined with all MaxLED accessory components like connectors (RGB and Warm White) and controllers (Warm white)
- ▶ MaxLED Flow - basta de esconderse: ¡salimos al escenario!
- ▶ Incluso en estado apagado no se pueden ver los LED: El Strip se puede posicionar de manera abierta en la pared, en elementos de equipamiento o en muebles
- ▶ Las dimensiones delicadas de 1x1 cm se adaptan a cualquier estilo de decoración
- ▶ Incluye fijaciones por presilla, tornillos y tacos. El Strip se puede instalar en línea recta. Para una solución más creativa, también es posible curvar el strip de manera flexible, por ejemplo como adorno luminoso en la pared.
- ▶ El efecto lumínico en la pared es especialmente llamativo, dado que el Strip posee un ángulo de irradiación de 180° grados
- ▶ Se puede combinar con todos los accesorios MaxLED, tales como conectores (RGB y Blanco cálido) y controles (Blanco cálido)
- ▶ MaxLED Flow - basta stare in ombra, ecco le luci della ribalta
- ▶ Anche quando sono spente, il LED non è visibile: la Strip può essere posizionata in un'area visibile della parete o su mobili
- ▶ La misura filigranata di 1x1cm è perfetta per ogni stile di arredamento
- ▶ Include supporti a clip trasparenti, viti e tasselli. La Strip può essere posata perfettamente in rettilineo. Chi preferisce una soluzione più creativa può anche posare la Strip creando curve sinuose, ad es. per ottenere ornamento luminoso della parete.
- ▶ L'effetto luminoso sulla parete è particolarmente suggestivo, perché la Strip ha un angolo emissione di 180° gradi
- ▶ Può essere combinato con tutti gli accessori MaxLED, quali connettori (RGB e Bianco caldo) e sistemi di comando (Bianco caldo).

- ▶ The MaxLED splitter splits the strip system into 2 strands.
- ▶ The Y-piece has a 10cm-wide input and an output of 2x 20cm strips.
- ▶ A total of 30cm of cables is perfect for a central feed-in, e.g. into a profile system.
- ▶ Branches can also easily be laid, e.g. when backlighting a piece of furniture or a TV wall.

- ▶ El divisor MaxLED divide el sistema de Strips en 2 tramos.
- ▶ La pieza en Y tiene Strips de 10 cm a la entrada y 2 Strips de 20 cm a la salida.
- ▶ El cable con una longitud total de 30 cm se puede utilizar perfectamente para la alimentación central, p. ej., en un sistema de perfiles.
- ▶ Además, resulta muy fácil instalar derivaciones, p. ej., para la iluminación posterior de un mueble o un televisor en la pared.

- ▶ MaxLED Splitter suddivide il sistema di Strip in 2 tratti.
- ▶ Il pezzo a Y presenta sull'ingresso 10cm e sull'uscita 2x 20cm di Strip.
- ▶ I 30 cm complessivi di cavi possono essere utilizzati in modo straordinario per l'alimentazione centrale, ad es. in un sistema di profili.
- ▶ Inoltre, la posa di diramazioni è semplicissima, ad es. per la retroilluminazione di un mobile o di una parete TV.

- ▶ LED Strip set with 164 functions for a range of different light effects, can be shortened electronically

▶ The digital control allows colours to be mixed in dynamic rhythms

▶ Can be dimmed or switched on or off by remote control.

▶ 3 LEDs can be disconnected from the strip end in segments. This allows the strip to be installed in a range of locations at the appropriate length.
- ▶ Juego de regleta LED electrónica acortable con 164 funciones para diversos efectos lumínicos

▶ El control digital permite mezclar colores a ritmos dinámicos

▶ Conmutable y regulable por mando a distancia.

▶ Desde el extremo de la regleta se pueden desconectar 3 LED por segmento. Así se puede colocar la regleta en la longitud adecuada en distintos lugares.
- ▶ Set di strisce LED accorciabili con 164 funzioni per molteplici effetti di luce

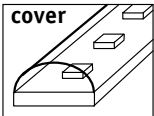

▶ Il sistema di comando digitale consente di miscelare i colori con ritmi dinamici

▶ Commutabile e regolabile tramite telecomando.

▶ Dalle estremità delle strisce è possibile disinserire 3 LED per segmento. In questo modo la striscia può essere utilizzata in diversi punti con una lunghezza differente.

- Fully jacketed LED strips for decorative outdoor lighting in the garden, at the property entrance, below lintels, in damp rooms or for many other uses (IP67 - able to withstand immersion in water).

► Plug-and-play: Complete set with plug for easy installation

► Incl. transformer (IP 64: dust-proof and splash-protected).

► Incl. 1 m power cable - 5 m extension cable available as accessory (IP 65: waterjet-protected)

► LED strips can be shortened every 10 cm - end cap and silicone sealing agent incl.

► For loose placement or fixed installation using plastic brackets (incl.)

► Not suitable for use in the vicinity of aggressive chemicals (chlorine water and similar)
- Regletas de red completamente revestidas para iluminación exterior decorativa en el jardín, en la entrada a la casa, bajo el alero, en espacios húmedos y en muchos otros lugares (IP67 - protección contra inmersión en agua).

► Plug'n'play: juego completo listo para enchufar, simplificándose el tendido

► Transformador incl. (IP64 - hermético al polvo y a salpicaduras de agua).

► Cable de alim. de 1 m incl. (prolongador de 5 m disponible como accesorio; IP65 - resistente a chorro de agua proyectada)

► Las regletas de LEDs se pueden recortar cada 10 cm (moldura de cierre y sellado de silicona incluidos)

► Para tendido libre o para fijar con presillas de plástico (incluidas)

► No apto para ambientes con sustancias químicas agresivas (p.ej. agua clorada)
- Strisce di LED rivestite su tutti i lati per illuminazione decorativa di esterni: in giardino, sopra l'ingresso, sotto la traversa del tetto, in ambienti umidi e in molti altri punti (protezione contro l'immersione in acqua - IP67).

► Plug ,n' play: set completo pronto al collegamento per la massima facilità di posa

► Trasformatore incluso (con protezione contro penetrazione di polvere e spruzzi d'acqua - IP64).

► Cavo di alimentazione da 1 m incluso - Prolunga da 5 m disponibile come accessorio (con protezione dai getti diretti d'acqua - IP65)

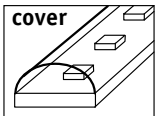

► Le strisce di LED sono accorciabili ogni 10 cm - Calotta terminale e sigillante al silicone inclusi

► Per la posa mobile o il fissaggio con staffe in plastica (incluse)

► Non adatte all'impiego in presenza di sostanze chimiche aggressive (acqua clorurata o simili)

- ▶ Recessed profile for illumination with LED strips creates attractive lighting effects. Can also be used as orientation and guide lights at shadow and danger zones.
- ▶ High-quality aluminium profile with satin cover on which it is safe to walk (can withstand up to 130 kg)
- ▶ Uniform light distribution
- ▶ Can be installed in milled grooves on materials with a thickness of 12 mm or more or can be permanently glued to laminate flooring, tiles and carpets.
- ▶ Incl. end caps
- ▶ Not suitable for installation on floating laminate
- ▶ Perfil empotrable para iluminación con regletas de LEDs que crea atractivos efectos de luz. Apto también para usar como luz guía o de orientación.
- ▶ Perfil de aluminio de excelente calidad con cubierta resistente a la pisada (hasta 130 kg)
- ▶ Distribución lumínica uniforme
- ▶ Para integrar en materiales a partir de 12 mm de grosor o para pegar de forma fija en baldosas, moquetas o suelos laminados.
- ▶ Incluye molduras de cierre
- ▶ No apto para suelos laminados flotantes
- ▶ Profilo da incasso per illuminazione con strisce di LED, per creare affascinanti effetti luminosi. Utilizzabile anche come luce direzionale o di orientamento.
- ▶ Profilato in alluminio di alta qualità con copertura calpestabile (130 kg max.)
- ▶ Distribuzione omogenea della luce
- ▶ Per montaggio a incasso in materiali a partire da 12 mm di spessore o per incollaggio permanente su laminato, piastrelle e moquette.
- ▶ Calotte terminali incluse
- ▶ Non adatto per il montaggio su laminato galleggiante

🔧 Alluminio anodizzato/Satinato 🏠 Alluminio/Plastica

- ▶ Illuminated profile under the skirting board
 - ▶ Perfectly adapted to standard skirting boards made of wood and plastic (all standard thicknesses from 15-22mm are supported)
 - ▶ Socle profile can also be used on floating laminate
- ▶ Perfil iluminado debajo del rodapié
 - ▶ Adaptado de forma óptima a los rodapiés de madera y material sintético habituales del mercado (compatible con todos los grosores de listón habituales de 15-22 mm)
 - ▶ Socle Profil también es apto para el uso en suelos laminados flotantes
- ▶ Profilo illuminato sotto la barra di base
 - ▶ Perfetto su barre di base in legno e plastica reperibili in commercio (sono supportati tutti gli spessori comuni delle barre nell'ordine dei 15-22mm)
 - ▶ Il profilo Socle è utilizzabile anche su laminato galleggiante

- ▶ Illuminated transition profile
 - ▶ Illuminated room divider and differentiation of areas with different floor coverings
 - ▶ Can also be used on floating laminate
 - ▶ Secure screw mounting
 - ▶ Can be walked on and is non-slip
- ▶ Perfil de transición iluminado
 - ▶ Separador de estancias iluminado y delimitación de áreas con revestimientos de suelo diferentes
 - ▶ Apto para el uso en suelos laminados flotantes
 - ▶ Fijación segura con tornillos
 - ▶ Resistente a pisadas y antideslizante
- ▶ Profilo di passaggio illuminato
 - ▶ Separatore di ambienti e delimitatore di zone illuminato per diversi rivestimenti per pavimenti
 - ▶ Utilizzabile anche su laminato galleggiante
 - ▶ Fissaggio sicuro delle viti
 - ▶ Calpestabile e antiscivolo

- ▶ Recessed profile in the thickness of plasterboard for lighting with LED strips
- ▶ Deep positioning of light point for uniform profile lighting also possible with low-loaded strips
- ▶ Designed for dry walls with standard plasterboard panels (12.5mm) and stud frames
- ▶ Serviceable: the profile can later be removed from the holders as required
- ▶ The cable guides are supported
- ▶ Perfil empotrado en cartón yeso grosor para la iluminación con LED Strips
- ▶ Punto de luz profundo para una iluminación uniforme del perfil incluso con strips poco equipadas
- ▶ Concebido para sistemas de construcción en seco con paneles de cartón yeso estándar (12,5 mm) y estructuras de celosía
- ▶ Permite el mantenimiento: si es necesario, el perfil se puede separar posteriormente de los soportes
- ▶ Permite guías de cables
- ▶ Profilo da incasso in cartongesso spessore per illuminazione di Strips LED
- ▶ Punto luce profondo per un'illuminazione uniforme dei profili, anche con Strips allestite in modo ridotto
- ▶ Concepiti per elementi architettonici non portanti con cartongesso standard (12,5 mm) e orditura
- ▶ Possibilità di manutenzione: all'occorrenza il profilo può essere staccato a posteriori dai supporti
- ▶ Canalina per cavi supportata

Clever Connect

Furniture illumination can be combined individually and expanded at any time with the Clever Connect system. The components are easily combined via plug connectors. Easy to attach – stick or screw on. The luminaires can be connected from one to the next or with the connector box on the transformer. All luminaires are dimmable and have tunable white capability – via the unique remote control. The magnetic holder transforms it into a wall switch.

El sistema Clever Connect permite combinar individualmente la iluminación de muebles y ampliarla en todo momento. Mediante los conectores resulta extremadamente fácil combinar los componentes. La fijación es sencilla: pegar o atornillar. La conexión se puede establecer de luminaria a luminaria o con la caja de conexión en el transformador. Todas las luminarias son regulables y aptas para la función de blanco ajustable con el exclusivo mando a distancia. Este también se puede utilizar como interruptor de pared gracias a su soporte magnético.

Con il sistema Clever Connect l'illuminazione di mobili può essere allestita in modo personalizzato e ampliata in qualsiasi momento. Attraverso connessioni a spina i componenti si possono abbinare fra loro in modo semplicissimo. Il fissaggio è semplice: basta incollare o avvitare. È possibile il collegamento da lampada a lampada o con l'apposita scatola sul trasformatore. Tutte le lampade sono dimmerabili e compatibili Tunable-White con il telecomando unico nel suo genere. Grazie al supporto magnetico il telecomando si può utilizzare come interruttore a parete.

SnapLED Plastic Plástico Plastica

- ▶ Optimal for sliding doors: Miniature LED light with roller for battery operation. When a cabinet door is opened, the roller automatically switches the light on and off again. Light that is simply there when you need it.
 - ▶ Easy installation; simply fasten removable mounting base with adhesive pads or screws
 - ▶ Easily accessible battery compartment
 - ▶ Operated with 4x1.5V AAA (excl.)
 - ▶ Clear cover and reflector for optimised light yield
- ▶ Ideal para puertas corredizas: miniluminarias de LEDs con rueda corredera para usar a pilas. La rueda enciende y apaga automáticamente la luz al abrirse o cerrarse una puerta del ropero. Sencillamente: luz cuando y donde se necesita.
 - ▶ Fácil de fijar: base separable que puede fijarse con tornillos o almohadillas adhesivas
 - ▶ Compartimento de pilas fácilmente accesible
 - ▶ Funciona con 4 pilas AAA de 1,5V (no incl.)
 - ▶ Cubierta transparente y reflector para un óptimo rendimiento lumínico
- ▶ Ottima per le porte scorrevoli: miniluce a LED con rullino di scorrimento funzionante a batteria. Il rullino di scorrimento accende automaticamente la luce quando una porta dell'armadio viene aperta, e successivamente torna a spegnerla. Per avere la luce giusta al momento giusto - né più, né meno.
 - ▶ Montaggio semplice con base separabile per fissaggio con cuscinetti adesivi o viti
 - ▶ Vano batterie facilmente accessibile
 - ▶ Funzionamento con 4 batterie AAA da 1,5 V (non incluse)
 - ▶ Copertura trasparente e riflettore per una propagazione ottimale della luce

- ▶ Multifunctional battery lights with a range of uses in furniture or beneath hanging cupboards for even working light, directional spot lighting or as a helpful orientation light. Some models can be dimmed, fitted with swivelling spot heads or motion detectors.
- ▶ Incl. assembly plate for easy battery replacement
- ▶ Easy to attach using adhesive or velcro pads
- ▶ Lámparas multifuncionales de pilas con multitud de posibilidades de aplicación en muebles o armarios instalados en pared, para una luz de trabajo uniforme, una iluminación directa con focos o como una práctica luz de orientación. Dependiendo del modelo: regulables, con cabezales de foco orientables o con sensores de movimiento.
- ▶ Incl. placa de montaje para un sencillo cambio de las pilas
- ▶ Fácil fijación con tiras adhesivas o velcro
- ▶ Luci multifunzione a batteria con diverse possibilità di impiego in mobili o sotto ai pensili per una luce di lavoro omogenea, per un'illuminazione mirata con spot o per l'utile luce di orientamento. A seconda del modello: dimmerabili, equipaggiabili con spot orientabili o sensori di movimento.
- ▶ Con piastra di montaggio compresa per una semplice sostituzione della batteria
- ▶ Semplice fissaggio con adesivi o velcro

Plug & Shine: the plug system for fascinating garden and patio lighting

Plug & Shine is the perfect solution for unique lighting scenarios for your favourite corners or plants in or around the house and patio. The 24V DC LED cable system is very easy to install and completely safe. In contrast to 230V installations, garden enthusiasts won't have to dig deep trenches with multiple safeties – Plug & Shine cables can be placed above ground and are completely protected against water ingress (IP 68). The clever cable system can be extended to max. 50 metres. That gives garden enthusiasts the necessary flexibility when positioning and expanding their illumination system – simply plug in and enjoy the lighting effects. All luminaires are dimmable, corrosion-protected and water-protected (IP 65/67). You can switch and dim your luminaires by remote control or with a ZigBee 3.0 controller.

- ▶ Bright, high-quality exterior luminaires
- ▶ Lighting solutions for the garden and terrace, perfectly adapted to your particular application
- ▶ Easy connection using the protected Paulmann 24 V plug system

Plug & Shine: el sistema de conexión para una fascinante iluminación del jardín y la terraza

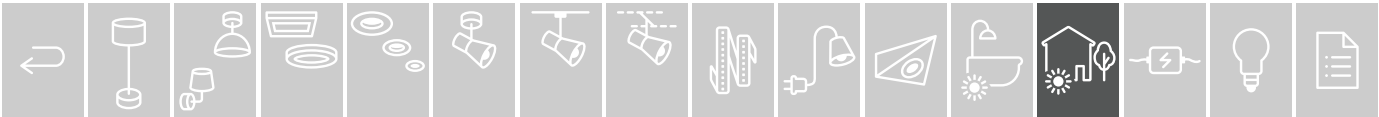

Plug & Shine es la solución perfecta para la iluminación individual de los rincones y las plantas favoritas de la casa, el jardín y la terraza. El sistema de cables de tensión continua de 24 V LED es seguro y muy fácil de instalar. A diferencia de las instalaciones de 230 V, los amantes de los jardines no tienen que excavar zanjas profundas con protecciones múltiples: los cables Plug & Shine también pueden estar tendidos sobre la superficie y, con IP 68, cuentan con la máxima protección contra la penetración de agua. El ingenioso sistema de cables se puede ampliar hasta una longitud de 50 m. De esta manera, los amantes del jardín pueden posicionar y ampliar su iluminación con total flexibilidad: basta con conectar y dejar que la luz haga su efecto. Todas las luminarias son regulables, están protegidas contra la corrosión y son resistentes al agua (IP 65/67). Puede conmutar y regular sus luminarias con mando a distancia o control ZigBee 3.0.

- ▶ Luminarias exteriores potentes y de alta calidad
- ▶ Soluciones de luz apropiadas para la aplicación correspondiente en el jardín y la terraza
- ▶ Conexión sencilla gracias al sistema de conexión de 24 V con protección de Paulmann

Plug & Shine: sistema a innesto per una luce accattivante in giardino e in terrazza

Plug & Shine è la soluzione perfetta per personalizzare l'illuminazione di angoli e piante preferiti in casa, giardino e sul terrazzo. Il sistema di cavi a tensione continua LED da 24V è semplicissimo da installare e sicuro. Diversamente da quanto avviene per installazioni a 230V, gli amanti dei giardini non devono creare buche profonde e dotate di numerose sicurezze: i cavi Plug & Shine possono essere posati anche sul terreno e grazie alla classe IP 68 sono protetti al massimo contro la penetrazione di acqua. L'intelligente sistema di cavi è ampliabile fino a una lunghezza di 50m. Gli amanti dei giardini potranno così posizionare e ampliare la loro illuminazione nel modo più flessibile: basta collegare e lasciar agire la luce! Tutti gli apparecchi sono dimmerabili, protetti dalla corrosione e impermeabili (IP 65/67). Tramite telecomando o comando ZigBee 3.0, è possibile commutare o dimmerare i propri apparecchi.

- ▶ Lampade per esterni potenti e pregiate
- ▶ Soluzioni luce adatte allo scopo di utilizzo, per giardini e terrazzi
- ▶ Semplice collegamento grazie al sistema di connettori a 24 V Paulmann protetto

- ▶ Starter sets for the system include three luminaires, five metres of cable with four outputs and one transformer
- ▶ Extendable
- ▶ Stepless light colour control via ZigBee remote control, app or voice control
- ▶ Perfect for atmospheric spotlighting of plants or objects
- ▶ Juegos de iniciación para iniciarse en el sistema, con 3 luminarias, 5 metros de cable con 4 salidas y un transformador
- ▶ Ampliable
- ▶ Control continuo de la tonalidad de la luz con mando a distancia ZigBee, aplicación o voz
- ▶ Ideal para la iluminación sugerente de plantas u objetos
- ▶ Starter set per familiarizzare con il sistema, comprendente 3 apparecchi di illuminazione, cavo da 5 m con 4 uscite e un trasformatore
- ▶ Ampliabili
- ▶ Comando dei colori a regolazione illimitata tramite telecomando Zigbee, app o sistema vocale
- ▶ Ideale per illuminare piante o oggetti

Park + Light

Park + Light:

The innovative 12V lighting system for carports

The Park + Light lighting system allows for individually configurable lighting solutions for the roofs and walls of carports, garages, garden sheds and patio canopies from a single power source.

The bright wall and ceiling luminaires provide safety and orientation while loading or maintaining a vehicle, while performing repairs or tidying, or on the way to the house. The compact 12V lighting system is safe and easy to install. The IP67 rating provides maximum protection against the ingress of water. It is flexible in terms of how it can be arranged and can be added to or changed at any time.

The Park + Light luminaires can be plugged together directly or via the T-connector. Subsequent system expansions or reductions are possible at any time.

Power is supplied via a plug-in transformer (945.79, 945.80), an adapter from the Plug & Shine system (945.50), or via solar panel (945.51, 945.52).

Adding a suitable Zigbee adapter (945.55) allows the light to be controlled smartly by remote control, voice or app.

Park + Light:

El innovador sistema de iluminación de 12 V para carports

El sistema de iluminación Park + Light permite realizar soluciones de iluminación configurables individualmente para los techos y las paredes de carports, garajes o glorietas y techos de terrazas con una única fuente de alimentación.

Los potentes apliques y plafones proporcionan seguridad y orientación al cargar o efectuar el mantenimiento del vehículo, al realizar tareas de reparación o limpieza o en el camino hacia la casa.

El sistema de iluminación compacto de 12 V es seguro y muy fácil de instalar. IP67 asegura la protección óptima contra la penetración de agua. Se puede componer y ampliar de manera flexible y modificar en cualquier momento. Las luminarias Park + Light se pueden interconectar directamente o bien ampliar con una unión en T, modificar y desmontar.

La alimentación eléctrica tiene lugar mediante un transformador de enchufe (945.79, 945.80), un adaptador del sistema Plug & Shine (945.50) o un panel solar (945.51, 945.52).

Con un correspondiente adaptador Zigbee (945.55), la luz se puede controlar de forma inteligente mediante mando a distancia, voz o aplicación.

Park + Light:

L'innovativo sistema di illuminazione da 12V per carport

Il sistema di illuminazione Park + Light consente di realizzare soluzioni di illuminazione personalizzate per tetti e pareti di carport, garage o casette in giardino e soffitti di terrazze, il tutto con una sola fonte di corrente.

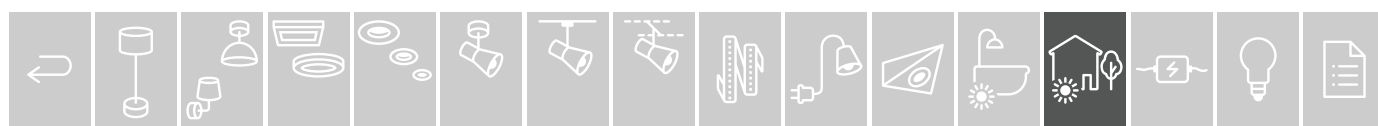

Le applique e le plafoniere garantiscono un'illuminazione intensa e, di conseguenza, sicurezza e orientamento durante le operazioni di carico o cura del veicolo, durante i lavori di riparazione o sgombero del locale, o lungo il percorso verso casa.

Il sistema di illuminazione compatto da 12V è semplicissimo da installare e sicuro. La protezione IP67 agisce con la massima efficacia contro la penetrazione di acqua. Può essere assemblato, ampliato o modificato in qualunque momento, con la massima flessibilità.

Le lampade Park + Light possono essere collegate direttamente l'una all'altra o mediante un connettore a T, ampliate o ancora riconfigurate o smontate.

L'alimentazione elettrica viene assicurata mediante un trasformatore a spina (945.79, 945.80), tramite adattatore dal sistema Plug & Shine (945.50) o anche per mezzo di un pannello solare (945.51, 945.52).

L'adattatore Zigbee corretto (945.55) permette di comandare la luce in modo smart mediante telecomando, comando vocale o app.

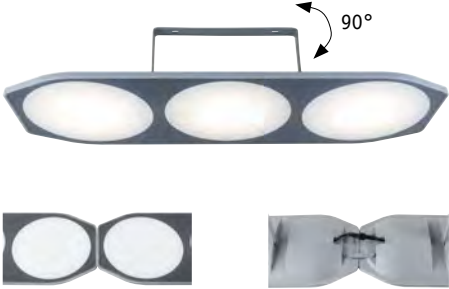

- Lighting for installation on the wall or ceiling

► 90° swivelling, adjustable light direction
- Iluminación con posibilidad de montaje en techo y paredes

► Orientables en 90° para ajustar la orientación de la luz
- Illuminazione con possibilità di montaggio a parete e su soffitto

► Orientamento della luce regolabile grazie all'angolo di rotazione di 90°

Solar – Solar-powered luminaires for outdoor use; no power connection required

The clever Solar range includes functional lighting around the house and on the driveway.

The intelligent combination of the size of the Solar module and purpose-specific lumen output ensures sufficient sufficient luminosity all year round.

The Solar luminaires offer functional lighting with a unique design and practical additional functions like night light, house number luminaire and motion sensor light. The luminaires emit a pleasant, warm white light of 3000 K. A large part of the range comes with replaceable lithium-ion batteries. These luminaires have a 5-year warranty.

Solar – Luminarias solares para el exterior, independientes de las tomas de corriente

El surtido inteligente Solar abarca la iluminación funcional alrededor de la casa y los accesos.

La combinación inteligente del tamaño del módulo solar y del flujo luminoso permite conseguir una intensidad y duración de la iluminación suficiente en todas las estaciones del año.

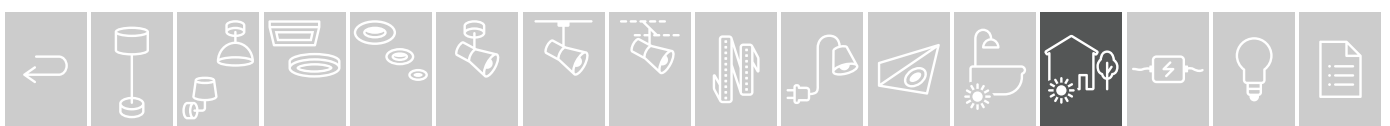

Las luminarias solares proporcionan una iluminación funcional con un diseño exclusivo y, en parte, funciones adicionales interesantes, como luz de noche, iluminación del número de casa y sensores de movimiento. Las luminarias irradian una agradable luz blanca cálida de 3000 K. Una gran parte del surtido está equipada con baterías de iones de litio reemplazables. Estas luminarias tienen 5 años de garantía.

Solar - Apparecchi a energia solare per esterno, indipendenti dall'allacciamento alla corrente

L'intelligente gamma Solar include apparecchi funzionali per fare luce attorno alla casa e nel viale d'accesso.

La combinazione smart di dimensioni del modulo solare e del flusso luminoso in base alle esigenze garantisce un'adeguata luminosità e durata in ogni stagione dell'anno.

Le lampade solari assicurano un'illuminazione funzionale con un design unico nel suo genere e funzioni supplementari suggestive come luce notturna, illuminazione del numero civico e sensori di movimento. Le lampade emettono una luce bianca e calda con 3000K. Una grande parte della gamma di prodotti è dotata di batterie sostituibili agli ioni di litio. Per queste lampade la garanzia è di 5 anni."

Transformers

IT Trasformatori per ogni progetto

ES Nuestros transformadores de alta calidad ofrecen soluciones para todas las aplicaciones: desde el modelo empotrable para luminarias incorporadas y fuentes de alimentación para strips LED hasta transformadores toroidales para sistemas de cables. Las funciones de protección, tales como la protección contra sobrecargas, el sensor de temperatura o la protección contra cortocircuito, garantizan una larga vida útil del producto y el funcionamiento seguro del mismo.

A close-up photograph of a wooden beam joint. A light-colored wooden beam is shown in cross-section, with a metal bracket or fastener visible on the left side. The wood grain is clearly visible.

IT Soluzioni smart per spazi ridotti

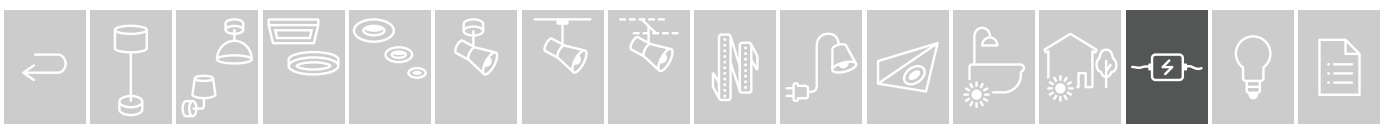

IT Semplice conversione da lampade alogene a LED

📖 = 390

A white power adapter with a coiled cable and a USB-C connector. The adapter is rectangular with a standard two-prong power plug on one side and a USB-C port on the other. The cable is white and coiled neatly.

IT Modelli adatti per Strips LED

VDE Disc Transformer 230/12V

- Disc transformers fit through round boreholes

► Can be dimmed with all dimmers (phases cut on/off)
- Los disc-trafos se encajan a través de agujeros circulares

► Regulable con todos los reguladores (de corte o inversión de fases)
- I trasformatori Disc si inseriscono in fori circolari

► Intensità regolabile con tutti i dimmer (a ritardo di fase e ad anticipo di fase)

230/12 V, 70 VA

max. 20-70 W
⌀23 ø55 mm
EAN 4000870 977286

VDE Mipro Transformer 230/12V

- Mipro transformers are designed for compact dimensions; they fit in the smallest installation spaces

► Ideal for recessed luminaires

► Can be used at an ambient temperature of up to 50°

► Can be dimmed with all dimmers (phases cut on/off)
- Los mipro-trafos han sido diseñados para las menores dimensiones y caben en los espacios de montaje más reducidos

► Ideal para luces empotradas

► Utilizable hasta 50° de temperatura ambiente

► Regulable con todos los reguladores (de corte o inversión de fases)
- I trasformatori Mipro sono concepiti con dimensioni minime e possono essere montati in spazi ridottissimi

► Ideale per luci da incasso

► Per temperature ambiente fino a 50°

► Intensità regolabile con tutti i dimmer (a ritardo di fase e ad anticipo di fase)

VDE Flat Transformer 230/12V

- Flat transformers have an installation height of only 24 mm
 - Problem solver for slightly suspended ceilings
 - Ideal for mirror and gallery lighting and in furniture
 - Can be dimmed with all dimmers (phases cut on/off)
 - Los flat-trafos sobresalen sólo 24 mm
 - Exentos de problemas incluso en techos de baja altura
 - Ideal para luces de espejos, galerías y muebles
 - Regulable con todos los reguladores (de corte o inversión de fases)
 - I trasformatori Flat hanno un'altezza di soli 24 mm
 - Soluzione ai problemi di spazi ridotti nei controsoffitti
 - Ideale per specchi, quadri e integrazione nei mobili
 - Intensità regolabile con tutti i dimmer (a ritardo di fase e ad anticipo di fase)

Light colours as mood enhancers

Tonalidades de la luz para crear ambientes que creano l'atmosfera

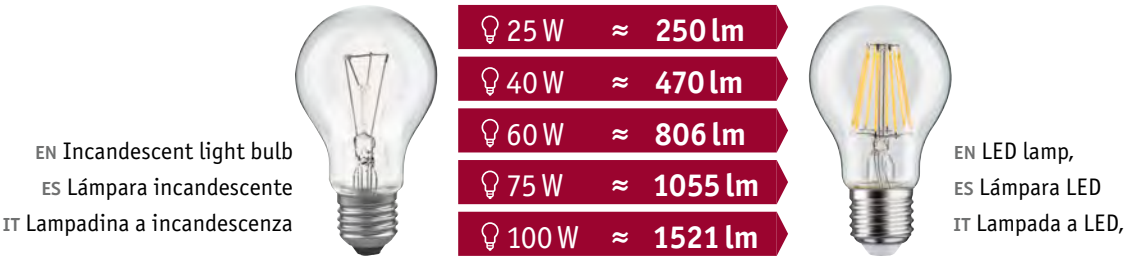

Colori della luce che creano l'atmosfera

Easy brightness comparison

Así puedes comparar la luminosidad fácilmente

In questo modo potrete comparare la luminosità in modo semplice

Did you know that LED lamps ...

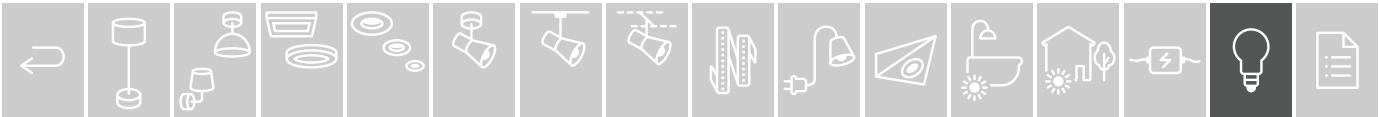

Use at least 80% less energy than commercial incandescent light bulbs, last at least ten times as long, are fully bright immediately and can produce virtually any desired light colour from warm to cool whites and RGB?

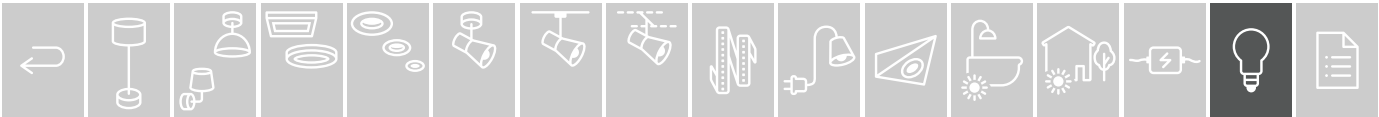

¿Sabías que las lámparas LED ...

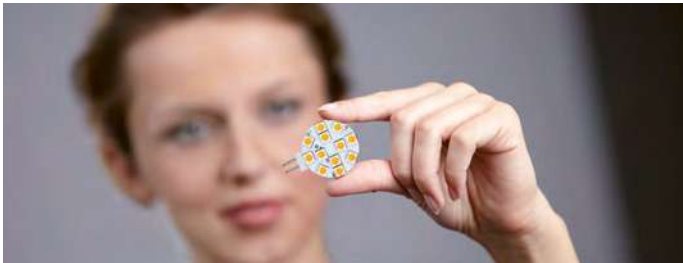

Consumen al menos un 80 % menos de energía que las bombillas convencionales, duran al menos 10 veces más, se encienden enseguida y pueden crear prácticamente todas las tonalidad de la luz deseadas, desde blancos cálidos hasta fríos, además de la selección del color RGB?

Sapevate che le lampade a LED ...

Consumano almeno l'80% di energia in meno rispetto alle normali lampadine a incandescenza, hanno una durata 10 volte maggiore, si illuminano immediatamente e sono in grado di generare quasi tutti i colori desiderati dalle tonalità di bianco da caldo a freddo alla gamma di colori RGB?

How bright is the lamp?

Brightness with omnidirectional spotlights

The unit of measurement lumen (lm) is specifies with luminous flux the total amount of light that an omnidirectional lamp emits.

¿Cómo de luminosa es la lámpara?

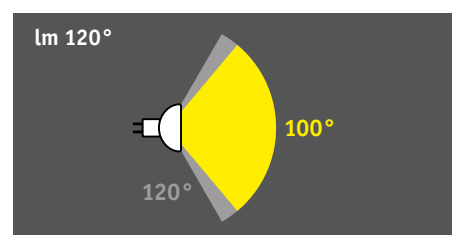

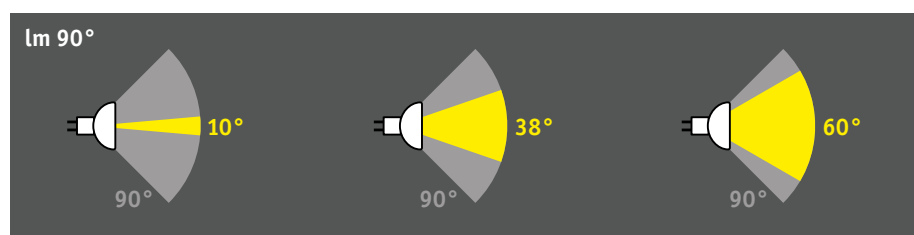

Luminosidad de proyectores omnidireccionales

La unidad lumen (lm) de flujo luminoso indica la cantidad total de luz que emite una lámpara que irradie en todas direcciones.

Quanto è luminosa la lampadina?

Luminosità con luci
omnidirezionali

L'unità di misura lumen (lm) e il flusso luminoso indicano la quantità complessiva di luce emanata da una lampadina.

Brightness with reflector lamps

All reflector lamps with a beam angle of up to 90° are prescribed with luminous flux in a 90° angle and can therefore be compared. The brightness is measured outside of the 90° angle even though the actual beam angle is lesser.

All reflector lamps with a beam angle of 91° to up to 120° are prescribed with luminous flux in a 120° angle. These bulbs are not suitable for accent lighting.

All bulbs with at beam angle greater than 120° are considered „non-directional light“ are prescribed with the luminous flux value (lumen, lm) that is determined in the complete 360° around the bulb.

The various units of measurement lumen (lm), lumen in the 90° angle (lm90°) and lumen in the 120° angle (lm120°) cannot be compared with each other.

Luminosidad de lámparas reflectoras

Para posibilitar su comparación, en todas las lámparas reflectoras con un ángulo de irradiación de hasta 90° se indica el flujo luminoso en un ángulo de 90°. Se mide la luminosidad dentro del ángulo de 90°, aunque el ángulo de irradiación real sea menor.

En todas las lámparas reflectoras con un ángulo de irradiación de 91° hasta 120° se indica el flujo luminoso en un ángulo de 120°. Este tipo de luminaria no es adecuado para una iluminación de acentuación.

Todas las luminarias con un ángulo de irradiación mayor de 120° se consideran como „luz no dirigida” y en ellas se indica el valor del flujo luminoso (lumen, lm) irradiado en todas direcciones (360°) alrededor de la luminaria.

Las diversas unidades de medida, lumen (lm), lumen en un ángulo de 90° (lm $_{90^\circ}$) y lumen en un ángulo de 120° (lm $_{120^\circ}$), no son comparables entre sí.

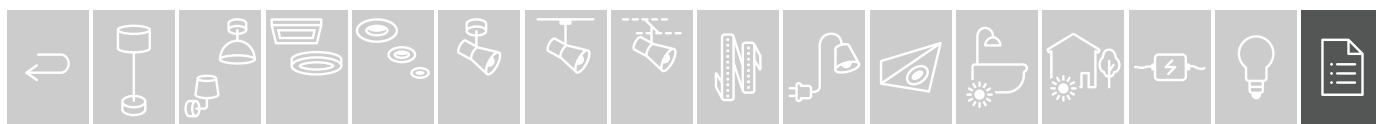

Luminosità con riflettori

Tutti i riflettori con un angolo di irradiazione fino a max. 90° vengono contrassegnati con flusso luminoso a 90° e sono quindi comparabili tra loro. La luminosità viene misurata all'interno dell'angolo di 90°, anche se l'angolo di irradiazione effettivo è minore.

Tutti i riflettori con un angolo di irradiazione compreso tra 91° e max. 120° vengono contrassegnati con il valore di flusso luminoso a 120°. I corpi luminosi di questo tipo non sono adatti per l'illuminazione di accento.

Tutti i corpi luminosi con un angolo di irradiazione superiore a 120° sono considerati „luci non mirate“ e vengono contrassegnati con il valore di flusso luminoso (lumen, lm) calcolato su tutti i 360° intorno al corpo luminoso.

Le diverse unità di misura lumen (lm), lumen a 90° (lm90°) e lumen a 120° (lm120°) non sono comparabili tra loro.

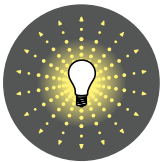

Lumen comparison

Comparativa de lúmenes

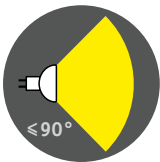

Comparazione luminosità

LED instead of halogen –
replacing high-voltage
lamps (230 V):

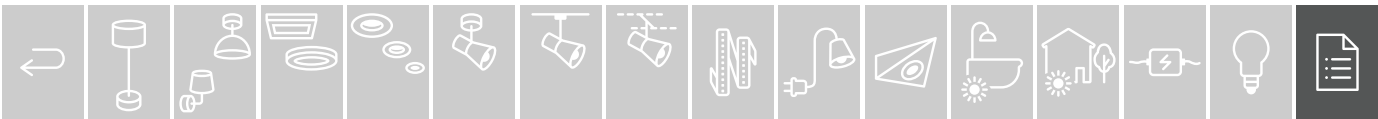

1. Select the desired design.
2. Find your socket type.
3. Should the lamp be dimmable?
4. Select the desired brightness (watts/lumen). Please pay attention to the minimum transformer load.
5. Which luminous colour should the lamp have?

LED en lugar de halógeno –
sustitución en lámparas de alto
voltaje (230 V):

1. ¡Selecione el diseño que desee!
2. ¡Busque su casquillo!
3. ¿La lámpara debe ser regulable?
4. Seleccione la claridad deseada (vatios/lumen). Tenga en cuenta la carga mínima en transformadores.
5. ¿Qué color de luz debe tener su lámpara?

LED al posto delle alogene -
sostituzione della lampadine ad alto
voltaggio (230 V):

1. Selezionate la forma desiderata!
2. Individuate l’attacco giusto!
3. La luce deve essere regolabile?
4. Selezionate la luminosità desiderata (watt/lumen). Considerate il carico minimo dei trasformatori.
5. Quale deve essere il colore della luce della lampadina?

Dimmable
Continuously variable
dimming without changing
the light colour.*

Dimmable
Regulación continua sin
cambiar la tonalidad de la
luz.*

Dimmable
Dimming in continuo senza
modificare il colore della
luce.*

Dim to warm
From bright warm white to dimmed gold light: Continuously variable dimming with simultaneous change of the colour temperature.*

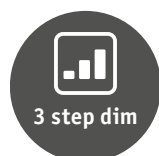

Dim to warm
Del luminoso blanco cálido
al tenue dorado: regulación
continua con cambio
simultáneo de la temperatura
de color.*

Dim to warm
Dal colore bianco caldo luminoso alla luce oro in modalità di regolazione: Dimming in continuo con modifica contemporanea della temperatura di colore.*

*Please read our article descriptions on www.paulmann.com to help choose the right dimmer for your purposes

* A la hora de elegir el regulador, observe nuestras notas sobre los artículos en nuestra página web www.paulmann.com

*Per la selezione del dimmer tenere conto delle nostre avvertenze relative agli articoli sul nostro sito web www.paulmann.com

3 Step dim

Dimming in three steps via repeated actuation of the existing commercial light switch.

3 Step dim

Regulación en 3 niveles con un accionamiento repetido del interruptor de luz corriente existente.

3 Step dim
Intensità regolabile in 3
livelli mediante azionamenti
multipli dal normale
interruttore presente.

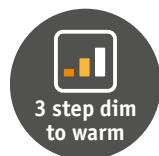

Easydim

A quick On/Off of the existing commercial light switch indicates the start and stop of the infinite dimming process.

Easydim
Una breve operación de apagado y encendido con el interruptor de luz corriente existente inicia y detiene la regulación continua.

Easydim
L'accensione e lo spegnimento breve con il normale interruttore presente avvia e arresta il processo continuo di dimming.

3 Step dim to warm

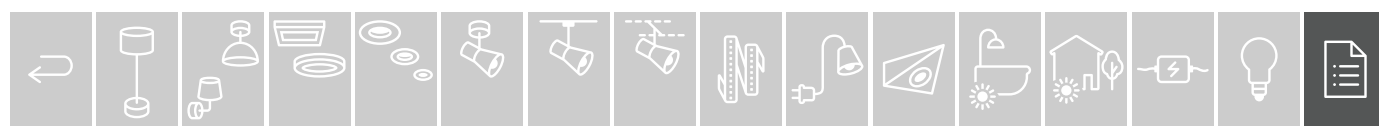

From bright warm white to dimmed gold light: Dimming and simultaneous colour temperature change in three steps via repeated actuation of the existing commercial light switch.

3 Step dim to warm

Del luminoso blanco cálido al tenue dorado: regulación en tres niveles y cambio simultáneo de la temperatura de color con un accionamiento repetido del interruptor de luz corriente existente.

3 Step dim to warm

Dal colore bianco caldo luminoso alla luce oro in modalità di regolazione: intensità regolabile in tre livelli e modifica contemporanea della temperatura di colore mediante azionamenti multipli del normale interruttore presente.

What light colour?

¿Qué tonalidad de la luz desea?

Che colore vorreste per la vostra luce?

extra warm white
1500–2700 K

warm white
2700–3300 K

neutral white
3300–5300 K

daylight
≥ 5300 K

Extra warm white light
or gold light has a reddish hue and appears like candle light. Super cosy!

Luz de color blanco extracálido
o luz dorada es rojiza, similar a la luz de las velas, y crea un ambiente extremadamente acogedor.

Luce extra bianca calda
o luce oro rossastra, ha lo stesso effetto della luce di una candela ed è molto confortevole!

Warm white light
closely resembles natural light at sunset and has a relaxing effect on the psyche.

Luz de color blanco cálido
es similar a la luz natural durante la puesta del sol y tiene un efecto relajante.

Luce bianca calda
è simile alla luce naturale al tramonto e ha un effetto rilassante su di noi.

Neutral white light
"matter of fact" lighting – perfect for the kitchen or bathroom.

Luz de color blanco neutro
crea una iluminación «sobria»; muy apropiada para la cocina y el cuarto de baño.

Luce bianco neutrale
produce un'illuminazione piuttosto "funzionale", adatta alla cucina o al bagno.

Daylight white light
closely resembles natural light at midday. Light with a high blue ratio is stimulating and promotes concentration. Perfect for the illumination of work areas

Luz de color blanco diurno
equivale a la luz diurna al mediodía. Esta luz, con un mayor componente de azul, tiene un efecto estimulante y favorece la concentración. Ideal para la iluminación de áreas de trabajo.

Luce bianca diurna
corrisponde alla luce di mezzogiorno. La luce con una percentuale più elevata di blu ha un effetto energizzante e stimola la concentrazione. Ideale per l'illuminazione delle aree di lavoro

Tunable white: Infinite adjustment of the white light colour and brightness in the range between warm white and daylight white.

Blanco ajustable: Selección sin escalonados de la tonalidad de la luz blanca en un rango entre blanco cálido y blanco diurno.

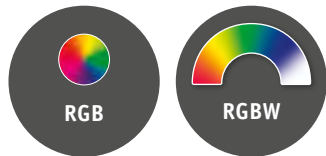

Tunable White: Selezione in continuo del colore della luce bianco e della luminosità nell'area da bianco caldo a bianco naturale.

White switch: Selection of three white tones (warm white, neutral white or daylight white) with repeated pushes of the existing commercial light switch.

White switch: Elección entre tres tonos de blanco (blanco cálido, neutro o diurno) con un accionamiento repetido del interruptor de luz corriente existente.

White switch: Selezione fra tre tonalità di bianco (bianco caldo, bianco neutrale o bianco naturale) mediante azionamenti multipli dell'interruttore presente.

RGB: Infinitely variable selection of 16 million colours

RGB: Selección continua entre 16 millones de tonos de luz.

RGB: Selezione continua fra 16 milioni di tonalità di colore,

RGBW: Stepless dimming with the addition of true warm white.

RGBW: Adicionalmente con blanco cálido auténtico, regulable sin escalonados.

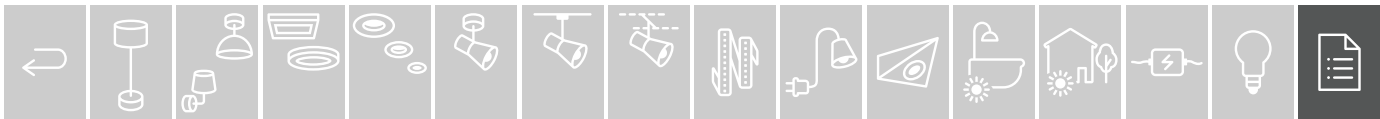

RGBW: anche con bianco caldo reale, dimmerabile in continuo.

RGB Rainbow: Dynamic lighting effects in rainbow colours

RGB Rainbow: Efectos lumínicos dinámicos con los colores del arco iris

RGB Rainbow: Effetti luminosi dinamici nei colori dell'arcobaleno

LED instead of halogen – replacing low-voltage lamps (12V):
LED en lugar de halógeno – sustitución en lámparas de bajo voltaje (12 V):
LED al posto delle alogene - sostituzione della lampadine a basso voltaggio (12V):

1

Which transformer does my system have?

¿Qué transformador tiene mi sistema?

Qual è il trasformatore del mio sistema?

2

Will LED and halogen lights be used mixed together?

¿Pueden emplearse lámparas LED y halógenas mezcladas?

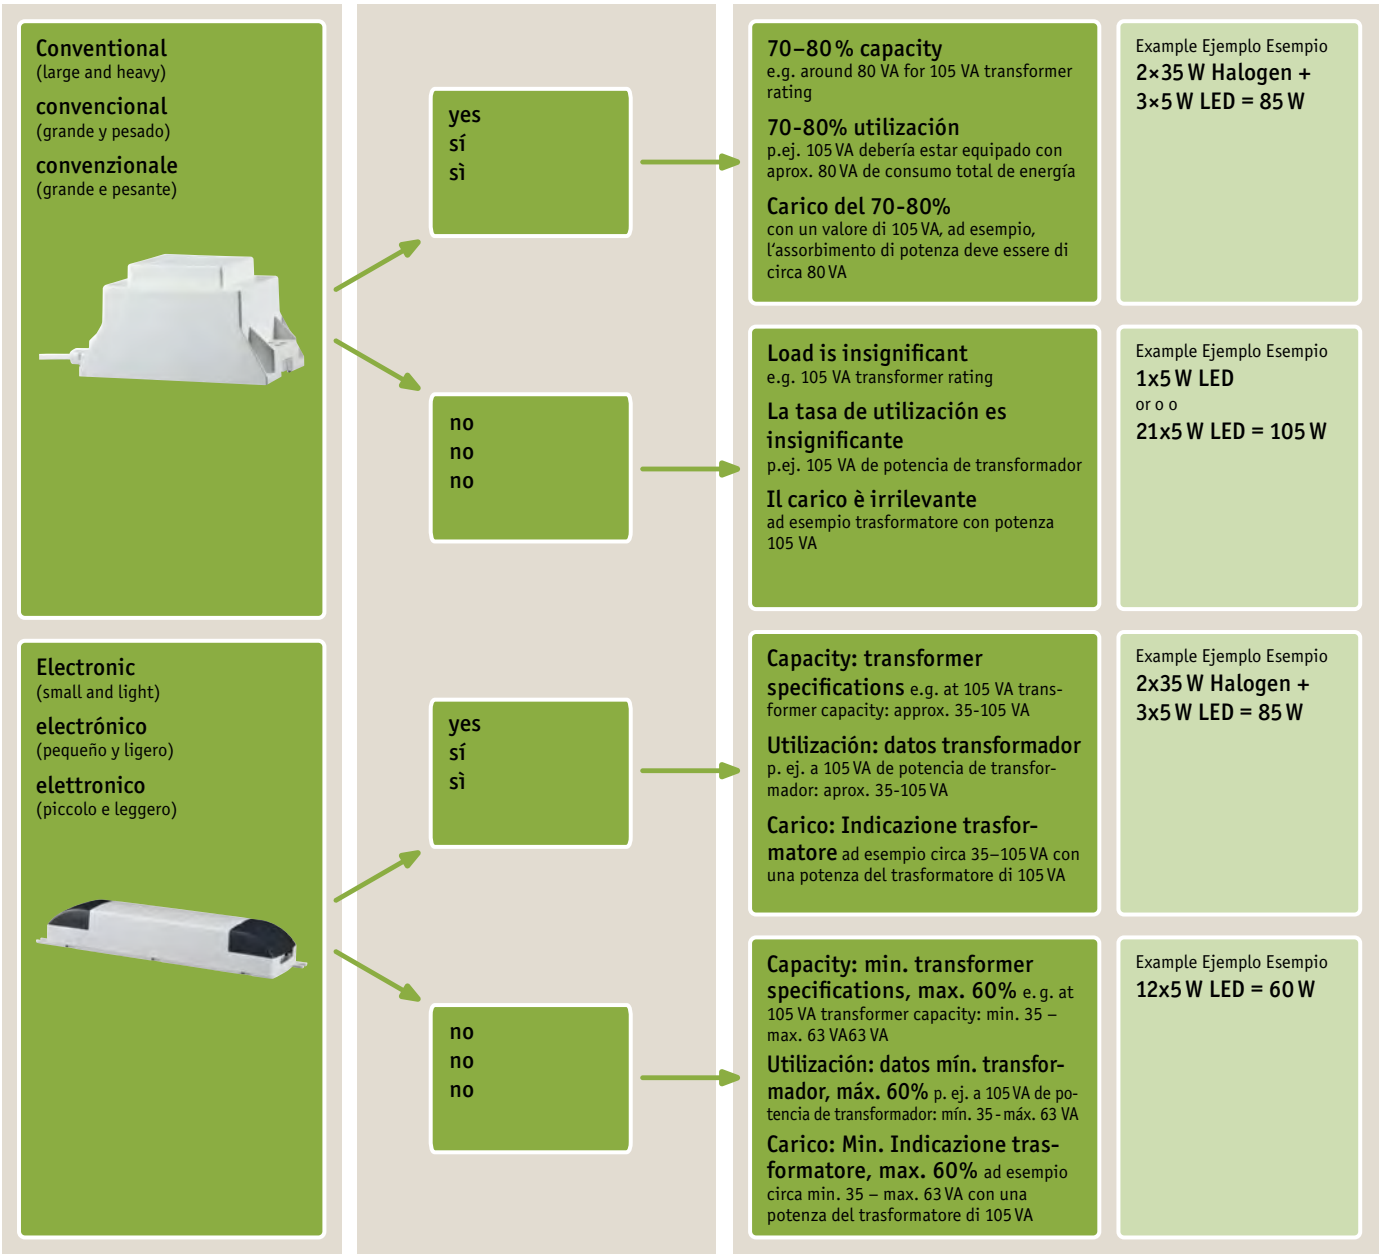

Devono essere utilizzate lampadine LED e alogene combinate?

3

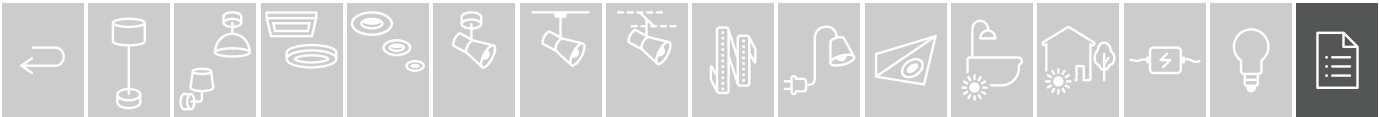

Determine the capacity range (VA) of the transformer and exchange the lamps.

Averigüe el rango de utilización (VA) del transformador y cambie las lámparas.

Definire il range di carico (VA) del trasformatore e sostituire le lampadine.

The value of 1 VA (Volt-ampere) in the transformer rating corresponds to the value of 1 W (watt) in the rated power consumption of the lamps.
El valor de 1 VA (voltamperios) en la norma de potencia de transformadores corresponde a 1W (vatio) de consumo de energía de las lámparas.
Il valore di 1 VA (voltampere) nell'indicazione della potenza del trasformatore corrisponde a 1 W (watt) di potenza assorbita delle lampadine.

Transformer for LED: the universal solution

If the new LED lamps do not meet the minimum transformer load, we recommend a new electronic transformer which consumes power of 0-40 watts (with LED). Item no. 977.67

Transformador para LED: la solución universal

Si los nuevos LED no alcanzan la carga mínima del transformador, le recomendamos un nuevo transformador eléctrico, que acepte potencia de 0-40 vatios (con LED) Art. n° 977.67

Trasformatore per LED: la soluzione universale

Se le nuove lampadine LED non raggiungono il carico minimo del trasformatore, si consiglia l'utilizzo di un nuovo trasformatore elettronico che assorbe la potenza di 0-40 watt (con i LED). Codice: 977.67

Dimmer identification

Luminaires that are supplied without lamps and, where applicable, without ballast are marked "max. 40W", for example. If these luminaires are dimmable, they are marked with

However, dimmability depends on the type of lamp used and, where applicable, the ballast. More detailed information can be found here: www.paulmann.com/productdata

When installing a luminaire you have to find the right dimmer for the right lamp.

The letters (**R**, **L**, **C**, **LED**...) or combinations of those letters indicate the types of dimmers, transformers and lamps.

When choosing a dimmer, the letters on the dimmer must correspond to those on the transformer or the lamp.

LED products require an LED dimmer which can be either a LEADING-edge

or a TRAILING-edge

dimmer.
(Letters **LED**, HV-**LED**, **LEDi**)

Identificación del regulador

Las luminarias que se suministran sin lámpara y, en su caso, sin balasto, están identificadas p. ej. con «máx. 40 W». En caso de que estas luminarias sean regulables, están identificadas con

Sin embargo, la regulación depende del tipo de lámpara empleada y, en su caso, del balasto. Puede encontrar más información aquí: www.paulmann.com/productdata

En la instalación se debe combinar el regulador correcto con la lámpara/luminaria correcta.

Los distintivos (**R**, **L**, **C**, **LED**...) o sus combinaciones definen los reguladores, los transformadores y las lámparas.

Para elegir el regulador correcto, los respectivos distintivos del regulador, el transformador o la lámpara deberán coincidir.

Para los productos LED, necesita un regulador LED de corte de inicio de fase

o bien de corte de final de fase

(distintivos **LED**, HV-**LED**, **LEDi**)

Marcatura dimmer

Gli apparecchi forniti senza lampadina ed eventualmente senza alimentatore sono dichiarati con ad es. "max. 40W". Se sono dimmerabili, sono dichiarati con

La regolazione dell'intensità dipende tuttavia dal tipo di lampadina utilizzata ed eventualmente dall'alimentatore. Qui trovate ulteriori informazioni:
www.paulmann.com/productdata

In un'installazione, il dimmer deve essere adatto alla lampadina / luce.

I codici (**R**, **L**, **C**, **LED**...) o le relative combinazioni definiscono dimmer, trasformatori e lampade.

Per la scelta del dimmer più adatto, i codici presenti sul dimmer, sul trasformatore o sulla lampada devono coincidere.

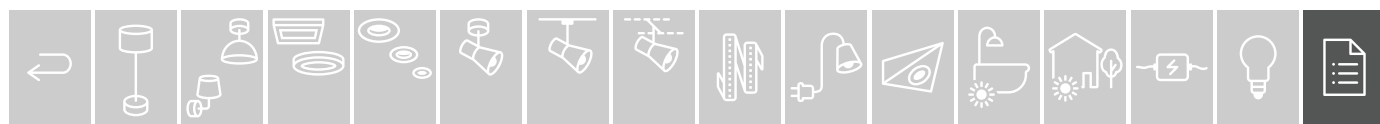

Per le lampade a LED è necessario un dimmer LED ad anticipo di fase

o a ritardo di fase

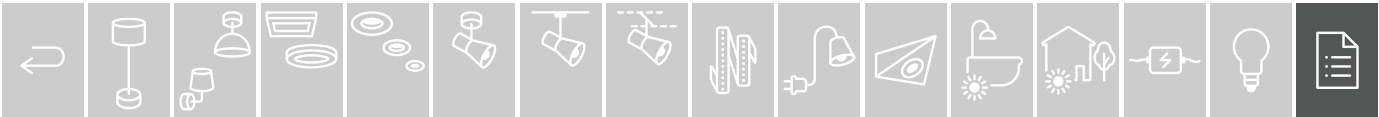

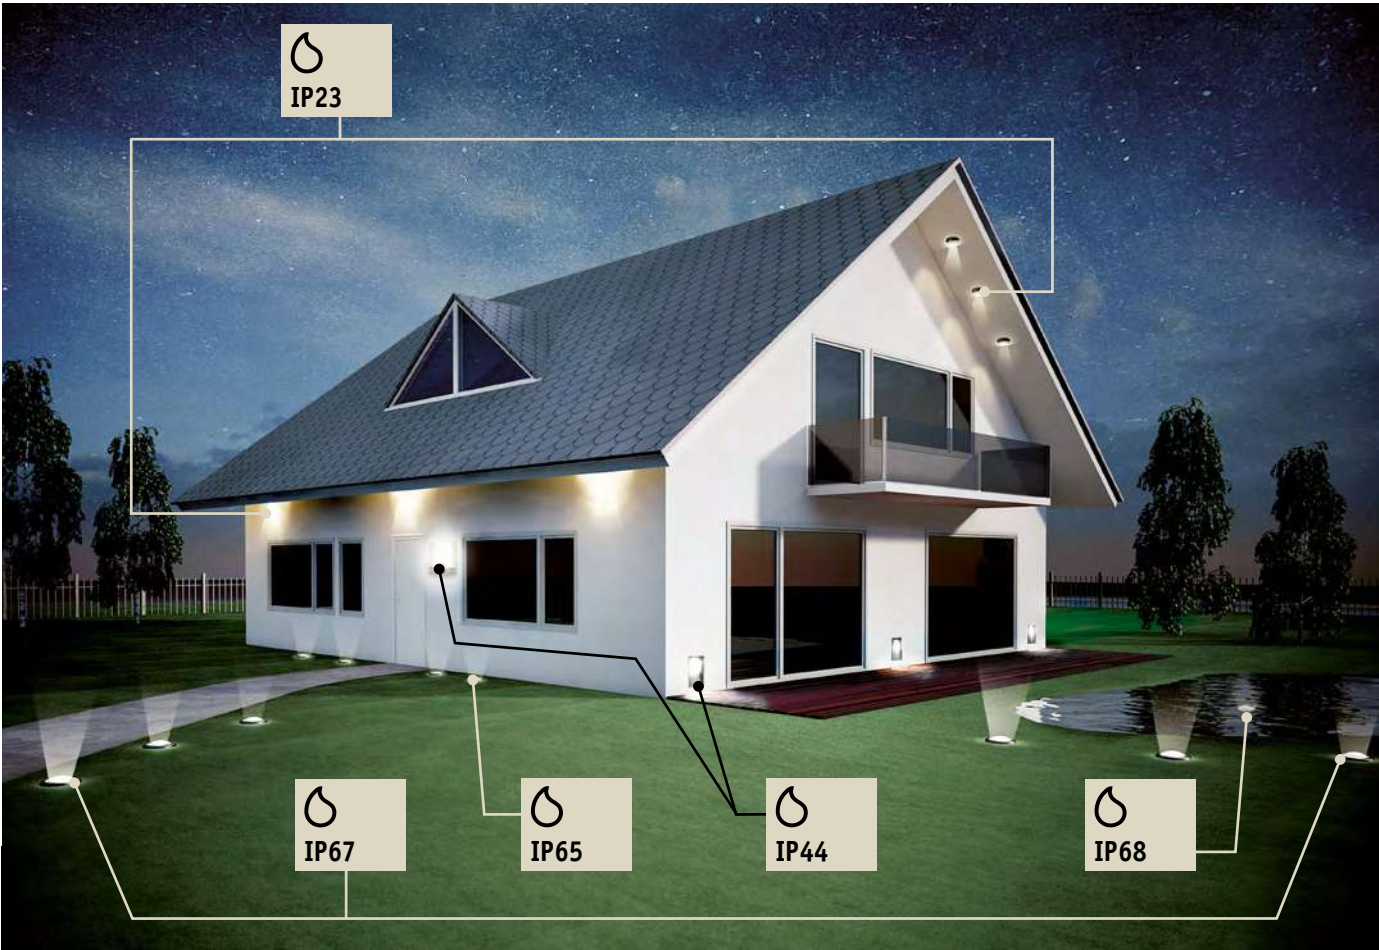

(Codice **LED**, HV-**LED**, **LEDi**)

Safe areas

Áreas de protección

Zone di protezione

 IP68	Waterproof during permanent immersion (* and 12 V/24 V low voltage protector)	Protección contra inmersión permanente (* y 12 V/24 V tensión baja de protección máx.)	Protezione dall'immersione di lunga durata (* e 12 V/24 V bassissima tensione di protezione)
 IP67	Water proof during temporary immersion (* and 12 V/24 V low voltage protector)	Resistente al agua en caso de inmersión temporánea (* y 12 V/24 V tensión baja de protección máx.)	Impermeabile all'immersione temporanea (* e 12 V/24 V bassissima tensione di protezione)
 IP65	Water jet protected against direct water jets (* and 12 V/24 V low voltage protector)	Resistente al agua proyectada en caso de chorro directo (* y 12 V/24 V tensión baja de protección máx.)	Protezione dai getti diretti d'acqua (* e 12 V/24 V bassissima tensione di protezione)
 IP44	Splash protected	Resistente a salpicaduras de agua	Protezione dagli spruzzi d'acqua
 IP23	Spray protected	Resistente al agua atomizada	Protezione da acqua nebulizzata
 IP...	Safety classification IP only applies to ceiling fittings.	La clase de protección IP sólo es válida en las instalaciones en el techo.	Il grado di protezione IP è valido solo per il montaggio a soffitto.

Rooms with electrical systems acc. to DIN
VDE 0100 T.701 (areas valid for ceilings up
to 2.25 m)

Only luminaires that are covered by a permanently attached glass plate may be installed in the ceiling or where the operation is low voltage protector.

The safety power source has to be outside the marked areas and there needs to be protection against direct contact of live parts. Cable and lines up to 5 cm deep in wall: only vertical layout and cable inlet in the back side of the luminaire.

Countries outside Germany: The dimensions, which must be adhered to exactly, as well as the evaluation of the areas must be conducted by a local electrician in accordance with national installation regulations.

Interiores con equipos eléctricos según DIN
VDE 0100 T.701 (margen válido de hasta
2,25 m de altura)

En el techo podrán empotrarse únicamente lámparas que estén cubiertas por una luna fija o que funcionen con baja tensión de protección.

La fuente de corriente de seguridad deberá hallarse fuera de la zona marcada y estar protegida contra el contacto directo de componentes conductores de tensión. Cables y conducciones hasta 5 cm bajo el encendido: solamente tendido en vertical e introducción de cable en la cara trasera de la lámpara.

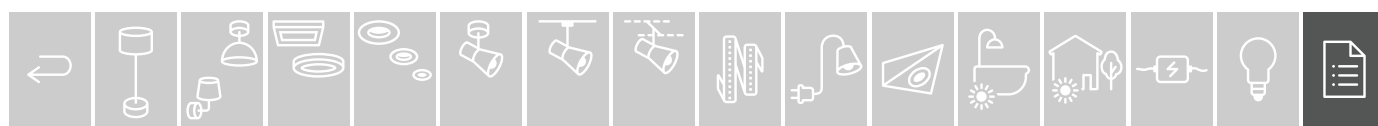

Países fuera de Alemania: Las medidas exactas que hay que observar, así como la evaluación de las zonas deberá efectuarse en conformidad con las normativas de instalación nacionales y por un electricista local.

Locali con impianti elettrici a norma DIN VDE 0100 T.701 (zone con un'altezza massima di 2,25 m)

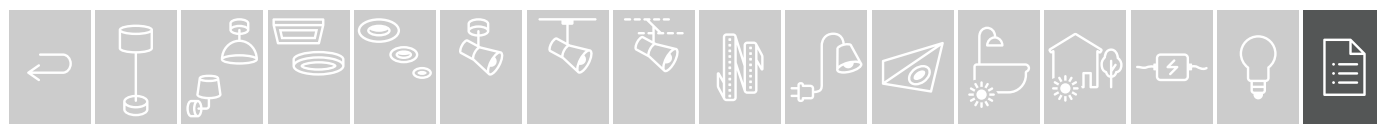

Gli apparecchi d'illuminazione possono essere incassati nel soffitto solo se sono coperti da una lastra di vetro fissa, oppure se sono alimentati con bassissima tensione.

La fonte della corrente di sicurezza deve essere disposta al di fuori delle zone contrassegnate e deve essere presente una protezione che impedisca il contatto diretto con i componenti attraversati dalla corrente. Cavi e conduttori fino a 5 cm sotto l'intonaco: solo posa verticale e inserimento del cavo nel lato posteriore dell'apparecchio d'illuminazione.

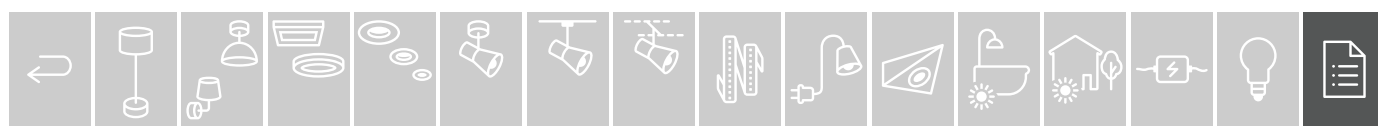

Paesi diversi dalla Germania: Le misure esatte da rispettare come anche la valutazione degli ambienti devono essere eseguite da un elettricista del luogo in conformità alle norme nazionali di installazione.

Product dimensions
Dimensionado de artículos
Dimensionamento degli articoli

	With cable switch incl. plug	Con interruptor de cable, enchufe incl.	Completo di interruttore a cavo incl. connettore
	With touch dimmer	Con reguladores de luz táctiles	Con dimmer a sfioramento
	With dimmer	Con reguladores de luz	Con dimmer
	Stepped dimmer	gradualmente más tenue	Dimmer regolabile
	Bayonet coupling	cierre bayoneta	Attacco a baionetta
	With plug-in transformer	Con transformador de enchufe	Con trasformatore a spina
	Plug including earthing contact (Germany)	Enchufe con contacto de puesta a tierra (Alemania)	Connettore Schuko (Germania)
	With plug connector	Con conector	Con connettore a spina
	With remote control	Con mando a distancia	Con telecomando
	Motion detector with high frequency sensor	sensor de movimiento con sensor de alta frecuencia	Sensore di movimento ad alta frequenza
	Motion detector	sensor de movimiento	Sensore di movimento
	Motion detector with proximity sensor	sensor de movimiento con sensor de proximidad	Sensore di movimento con sensore di prossimità
	Battery, rechargeable battery, battery and rechargeable battery operation possible	Es posible su uso con pilas, con batería o con pila y batería	Sono possibili i funzionamenti a batteria, accumulatore e batteria + accumulatore
	Battery/rechargeable battery included	Pila / batería incluida	Batteria/accumulatore in dotazione
	Battery/rechargeable battery replaceable	Batería/acumulador intercambiable	Batteria/pila sostituibile
	Wall, floor and/or ceiling fitting	Montaje a pared, suelo y/o techo	Montaggio a parete, pavimento e/o soffitto
	Maximum load	Carga máx.	Carico max.
	Wire/rod distance	Distancia de cable/barra	Distanza fune/asta
	Base	Casquill	Zoccolo
K	Kelvin, colour temperature See page 441 for further details	kelvin, temperatura de color Para más información, véase pág. 441	Kelvin, temperatura di colore Per le spiegazioni vedi pagina 441
S	Dummy output	Potencia aparente	Potenza apparente
	Easily fitted	Montaje simple	Facile montaggio
	Only for indoor use	uso sólo en interiores	Solo per interni
	Toroid transformer	Transformador toroidal	Trasformatore a nucleo toroidale
	Integrated spark protection	Protección contra interferencias integrada	Protezione radio integrata
	Integrated soft start	Softstart integrado	Avvio “soft” integrado
	Integrated short circuit protection	Protección contra cortocircuitos integrada	Protezione da corto circuito integrata
	Increased spike protection	Mayor protección contra perturbaciones	Maggiore protezione “anti-spike”
	Integrated fire protection	Protección contra incendios integrada	Protezione antincendio integrada
	Integrated overload protection	Protección contra sobrecarga integrada	Protezione da sovraccarico integrata
	Integrated re-startable temperature monitor	Sensor de temperatura reconectable integrado	riattivabile integrato
	Integrated temperature monitor and electronic fuse	Sensor de temperatura integrado y fusible electrónico	Termostato integrado e fusibile elettronico
	Integrated electronic fuse	Fusible electrónico integrado	Fusibile elettronico integrato

	Integrated fine-wire fuse	Fusible para baja intensidad integrado	Fusibile per correnti deboli integrato
	Self-service pack	Embalaje SB	Imballaggio “SB”
	Packaging unit	Unidad de embalaje	Unità d’imballaggio
	Energy-efficiency class	clase de ahorro energético	Classe di efficienza energetica
	Flicker-free quick start	encendido inmediato sin centelleo	Accensione immediata senza luce pulsante
	Service life	vida útil	Durata utile
	Service life, electronic ballast	vida útil reactancia electrónica	Durata utile alimentatore elettronico
	Not for general lighting, only for decorative purposes or special applications	No apto para iluminación general, solo para fines decorativos o aplicaciones especiales	Non per l’illuminazione generale, solo a fini decorativi o per applicazioni speciali
	Fabric cable	Cable textil	Cavo tessile
	Dimmable with Smart Home app	Regulable con la aplicación Smart Home	Dimmerabile con l’App Smart Home
	Bluetooth	Bluetooth	Bluetooth
	Zigbee	Zigbee	Zigbee
	With USB plug	Con conector USB	Con connettore USB
	With USB connection	Con conexión USB	Con collegamento USB
	Safety plug	Toma de tierra	Presa di terra
	variably adjustable	regulable	regolazione variabile
	can be shortened once	acortable una única vez	accorciabile una volta
	Can be dimmed using leading edge dimmer. See page 443 for further details	Regulable con un reductor de corte de inicio de fase. Para más explicación véase la página 443	Variazione dell’intensità luminosa con dimmer di fase nella sezione di accensione. Per le spiegazioni vedi pagina 443
	Can be dimmed using trailing edge dimmer. See page 443 for further details	Regulable con un reductor de corte de fin de fase. Para más explicación véase la página 443	Variazione dell’intensità luminosa con dimmer di fase nella sezione di spegnimento. Per le spiegazioni vedi pagina 443
	dimming See page 440 for further details	regulable Para más explicación véase la página 440	regolabile Per le spiegazioni vedi pagina 440
	3 step dim See page 440 for further details	3 step dim Para más explicación véase la página 440	3 step dim Per le spiegazioni vedi pagina 440
	Easy dim See page 440 for further details	Easy dim Para más explicación véase la página 440	Easy dim Per le spiegazioni vedi pagina 440
	3 Step dim to warm See page 440 for further details	3 Step dim to warm Para más explicación véase la página 440	3 Step dim to warm Per le spiegazioni vedi pagina 440
	Dim to warm See page 440 for further details	Dim to warm Para más explicación véase la página 440	Dim to warm Per le spiegazioni vedi pagina 440
	White Switch See page 441 for further details	White Switch Para más explicación véase la página 441	White Switch Per le spiegazioni vedi pagina 441
	Tunable white See page 441 for further details	Blanco ajustable Para más explicación véase la página 441	Bianco regolabile Per le spiegazioni vedi pagina 441
	RGBW See page 441 for further details	RGBW Para más explicación véase la página 441	RGBW Per le spiegazioni vedi pagina 441
	RGB Rainbow See page 441 for further details	RGB Rainbow Para más explicación véase la página 441	RGB Rainbow Per le spiegazioni vedi pagina 441
