SLAMP:

Luca Mazza
Slamp Genaral Director

Light cannot be seen; it manifests, and when abandoned, permeates.

What we perceive is an expression of “The Language of Light”.

In this exact moment your eyes are transmitting frequencies and vibrations directly to your nervous system, transforming them into its own reality.

Whether expanding or contracting, the space and matter surrounding us are lighting frequencies; what we perceive as reality, including these words, is nothing more than a multidimensional transmutation of our nervous system.

Within our own internal universe, certain vibrations are transformed into shapes and colors, others in sound, and then there are those that we are not even used to recognize, but that does not mean they do not exist or change us. Knowing or recognizing the language of light involves co-creation through our thoughts, ideas, and emotions; our actions and words lie on the same material level in the world we live in.

Slamp does not simply create illumination to resolve the issue of visualizing a space or an object, instead focusing on igniting the “Internal Light” within us all. And it is exactly that: an internal light that some manifest brightly, others a little less.

We could also call it internal energy, and there are ways to nurture and multiply this energy. A smile, the sensation of joy, or love, or personal harmony, all contribute to positive energy, increasing “Internal Light”. This is not something that happens on its own; we need a mirror, a person, an object, or a place that allows us to identify and absorb this light.

Slamp’s creations are “torchbearers” for this kind of energy, bestowing unique and positive colors and shapes with devotion, elegance, and love that touches each creation.

Head and heart join with exceptional positive flow (+), harmoniously balancing the negative (-) that we encounter in our everyday world, where immutable rules reign.

Your home, wherever it may be, should cultivate and proliferate this “Internal Light”, an almost external tangible force that pushes immense events forward. Just as with happy memories, we collect objects that express and evoke the best things residing in our hearts. We cannot ever be indifferent to the vibrations that beauty, art, design, and harmony transmit. Slamp does exactly this, transmitting this powerful force in every project, visually interpreting the essence of the Language of Light.

La Luce non può essere vista, solo le sue manifestazioni possono essere accolte e, in abbandono, esserne pervasi.

Quello che noi percepiamo è il “Linguaggio della Luce” ovvero la sua espressione.

In questo preciso istante il tuo sistema nervoso, attraverso i tuoi occhi, sta elaborando soggettivamente vibrazioni e frequenze che riconosce, trasformandole nella propria realtà. Che sia in espansione o contrazione, lo spazio e la materia che ci circondano sono frequenze di luce: tutto quello che per noi è realtà, compreso questo testo, non è altro che una trasmutazione multidimensionale del nostro sistema nervoso.

Nel proprio “universo” interiore, alcune vibrazioni vengono trasformate in forme e colori, altre in suono, altre semplicemente non abbiamo l’abitudine di riconoscerle, ma questo non vuol dire che esse non esistano o non ci influenzino. Conoscere o riconoscere il linguaggio della luce vuol dire essere co-creatori attraverso i nostri pensieri, idee ed emozioni - così come lo siamo sul piano materico con azioni e parole - del mondo in cui ci troviamo.

Fare Luce per Slamp non vuole dire solo risolvere il bisogno del vedere un oggetto o uno spazio, bensì riuscire ad accendere la “Luce Interiore” di ognuno. Esattamente, “Luce Interiore”. Tutti la possediamo, qualcuno la manifesta con più forza, qualcuno con meno. Se volete, possiamo chiamarla semplicemente energia interiore. Sapete come potete alimentare e moltiplicare questo tipo di energia? Quando sorridete, quando provate gioia, quando amate, quando vi sentite in armonia con l’esterno.

Questo tipo di energia, positiva, accresce il vostro livello di “Luce Interiore”. Non pensate di poterla alimentare da soli...serve uno specchio: una persona, magari un oggetto o un luogo, attraverso il quale riconoscerla e assorbirla. Slamp attraverso sue creazioni vuole farsi “tedofora” di questa energia, condividendo le forme, i colori, l’unicità, la positività, la dedizione, l’eleganza, l’amore di cui i nostri prodotti sono fatti.

Tra la mente e il cuore si innesca questo meraviglioso flusso positivo (+) per bilanciare e armonizzare quello negativo (-) che ci arriva dal mondo materico in cui viviamo, le cui regole sono naturalmente impenscindibili. Il luogo in cui vivete, a prescindere da dove si trovi, dovrebbe propagare e nutrire questa “Luce Interiore” che rende capaci di grandi imprese e diventa quasi tangibile anche all’esterno.

Ognuno di noi, proprio come fa con i ricordi felici, colleziona intorno a sé oggetti che esprimono, ri-evocano quanto è più caro al nostro cuore. Essere indifferenti di fronte alle vibrazioni diffuse dalla bellezza, dall’arte, dal design, dalle armonie, è impossibile. Slamp in ogni progetto si fa essenza co-creatrice di questa forza che attraverso i nostri occhi ci insegna, ogni giorno meglio, il linguaggio della Luce.

SLAMP

THE LEADING LIGHT

unveil the unique

Every Slamp lamp is unique. Unique because it does not originate from a 3D file; the creative process requires a designer to get their hands dirty as they cut, "sew", and sculpt materials, applying years of concrete and studious research and development. Unique because the ladies who "tailor light" don their white gloves and proudly bring a poetically original piece to life. Unique because a lamp is the pure expression of the person who selected it, reflecting their aesthetic identity, those who leave light as the only vibration on a silent evening, unwittingly reigniting the energy of an artistic creation with a single click.

Ogni lampada Slamp è unica. Unica perché frutto di un processo creativo che non origina da un file 3d, ma che richiede al progettista la volontà di "sporcarsi le mani", tagliando, cucendo e trattando materiali e valori sedimentati in anni di studio, ricerca e innovazione. Unica perché allestita in un Atelier dove ogni giorno le Sarte della Luce, indossati i loro guanti bianchi, sono orgogliose di mettere al mondo un capo che si distingue per poetica e originalità. Unica perché espressione di chi ama raccontare la propria identità attraverso gli oggetti che lo circondano; di chi lascia che la silenziosa presenza della luce si trasformi nella migliore colonna sonora di una sera; di chi ogni giorno con un click sull'interruttore riaccende, inconsapevolmente, tutta l'energia della creazione.

SAR
TO
RIAL
HANDCRAFTING

handmade in Italy SINCE 1994

Slamp has been at the forefront of creating innovative, original, eclectic, and contemporary lamps since 1994, taking current inspiration from the natural world, architectural and sartorial genius, and artistic trends. Slamp creates suggestive, luminous, and versatile objects using the latest generation of materials, manually moulded into elements that combined together, make up a luxurious landscape. The use of exclusive, lightweight and resistant technopolymers gives a unique and recognizable touch to every lamp, allowing it to be sculpted into three dimensional shapes, decorations and effects that would be impossible using any other material. Much like any maison dedicated to haute couture, Slamp lamps undergo a precise ritual that transforms a sheet of technopolymer material into an exceptionally decorative, three dimensional shape through cold cutting and handcrafting.

Nel panorama dell'illuminazione decorativa di design, Slamp è punto di riferimento per chiunque desideri un oggetto ricercato, originale, esclusivo e innovativo. Catturando gli stimoli più attuali, attingendo al mondo naturale, ai virtuosismi architettonici e sartoriali, alle tendenze artistiche, dal 1994 Slamp crea oggetti luminosi, suggestivi e versatili grazie all'impiego di materiali di nuova generazione e a una speciale abilità manuale nell'assemblare elementi che si compongono dando vita a un lussureggiante panorama figurativo. Unicità e riconoscibilità di ogni lampada passano attraverso l'uso di tecnopolimeri esclusivi, leggeri, nobili e infrangibili che permettono di realizzare forme, decori ed effetti altrimenti impossibili con altri materiali. Come in una maison di haute couture, la creazione di una lampada Slamp passa attraverso una precisa ritualità che trasforma, tramite un sistema di lavorazioni a freddo, incastri e piegature eseguite a mano, un foglio piano di tecnopolimero in un volume tridimensionale altamente decorativo.

from LAMPS TO beehives

SLAMP'S SUSTAINABLE PROJECT

The quality of Slamp's materials and their sustainable approach to working with them has set the company apart since 1994. Their resistant, long-lasting technopolymers not only exhibit optimal thermal, electrical, and chemical properties, but these unique materials are recyclable. The manufacturing processes have a low impact on the environment: the lamps' technopolymer sheets undergo cold cutting before being constructed by hand. The small amount of extra cuttings are recycled monthly, and since the beginning of 2020, a portion of those are being made into beehives for bumblebees by DS-Group. Bumblebees, part of the Apidae family, are widely used in pollinating fruit trees (replacing toxic chemicals). They are used for tomatoes as well, and ensure quality, juicy crops. Slamp applied the same approach to their headquarters, inaugurated September 8, 2019. High priority was placed on architectural decisions, including isolating thermal materials and large windows facing the production lines to reduce the use of artificial light. The hub's energy comes from predominantly renewable sources.

Per le qualità intrinseche dei materiali che impiega, e per le tecniche di lavorazione che utilizza, Slamp è un'azienda a basso impatto ambientale sin dal 1994. I tecnopolimeri, resistenti e durevoli, sono dotati di ottime proprietà termiche, elettriche e chimiche, e – soprattutto – sono riciclabili. I pochi sfridi di lavorazione generati durante la produzione vengono riciclati da sempre ma, dal 2020, parte di essi viene utilizzata anche per la produzione di componenti di arnie per i Bombi. Questa particolare tipologia di imenotteri è fondamentale per la tutela della biodiversità e permette l'impollinazione naturale di piante da frutto e ortaggi in alternativa a prodotti chimici altamente tossici. L'attenzione e la cura dell'ambiente hanno influito anche sull'architettura della sede di Slamp inaugurata nel 2019 alle porte di Roma: parte dell'energia assorbita dall'impianto produttivo arriva da fonti rinnovabili, l'hub produttivo è stato realizzato utilizzando materiali altamente isolanti e gli ampi lucernari sulle linee di allestimento riducono il consumo di luce artificiale.

The Aria Gold has Cristalflex® arms that have been metallised through vapourisation in a hyperbaric chamber, examined for uniformity, then cut using a numerical system before being wrapped in protective film and placed within the box, making customer assembly rapid, intuitive, and enjoyable.

Nella Aria Gold le lance radiali in Cristalflex® vengono prima metallizzate tramite evaporizzazione in camera iperbarica, esaminate per eliminare eventuali scarti, poi tagliate tramite un sistema a controllo numerico e infine inserite nel box, intervallate da uno strato protettivo, al fine di rendere l'installazione da parte del cliente intuitiva, veloce e piacevole.

la traviata

BY ROBERT WILSON

"WITHOUT LIGHT
+ THERE IS
NO SPACE"
robert wilson

Acropolis Museum, - Athens, Parthenon allery

La Traviata is a complete work of art, blending architecture, light, poetry, dance, and movement. Producer Robert Wilson transferred his own dialogue between theatre and design to a luminous sculpture; the colours and intensity can be changed with a control system.

La Traviata è un'opera d'arte totale: è architettura, è luce, è poesia, è danza, è movimento. Con un dialogo tra design e teatro, il drammaturgo Robert Wilson ha trasferito il suo linguaggio in una scultura luminosa con un sistema di comando a distanza per gestire colori e intensità luminosa.

technical details p. 544

Pictured: a free-standing composition of 21 blooms.
Nella foto una composizione free-standing con 21 boccioli.

Lighting / Illuminazione:
Tulip 7: 7 x 5W G4 LED Dimmable Bulbs- 3500 Lumen - 2900 Kelvin
Tulip 14 + Tulip Free-standing: 14 x 5W G4 LED Dimmable Bulbs
7000 Lumen - 2900 Kelvin

TULIP ROUND CANOPY

The 50cm/ 19-1/2" brushed brass canopy holds from 7 to 14 handcrafted blooms. Just like the Linear Canopy, the cascade is in a predetermined composition by the Designer in a Plug & Play solution. The blooms hang from the ceiling rose on thin steel cables, and their height can be adjusted during installation to fit the space.

Il rosone in ottone spazzolato di 50 cm di diametro ospita 7 o 14 fiori realizzati a mano. Come nella versione Linear Canopy, anche in questa la disposizione dei Tulipani nella cascata di luce è predeterminata dal Designer per una soluzione allestiva Plug & Play. L'altezza dei fiori, fissati al rosone con sottili cavi d'acciaio, è gestibile in fase di installazione per assecondare lo stile e la necessità dell'ambiente in cui è inserito.

TULIP LINEAR CANOPY

The Tulip modular system has rectangular blooms and a Plug & Play system. Seven to fourteen Tulips hang from the brushed brass canopy (from 70 cm / 27-1/4" to 110 cm / 43"). depending on the number of blooms) on thin steel cables positioned in an almost weightless, harmonious predetermined composition by the Designer. Just need to anchor the bracket to the ceiling and then install the Tulip cluster so to create a sinusoid of flowers that can be adjusted in height at will.

Nella versione con rosone rettangolare, il sistema modulare Tulip è proposto in una composizione Plug & Play. 7 o 14 Tulipani discendono dalla coppetta in ottone spazzolato (di 70 o 110 cm in base al numero di fiori) tramite dei sottili cavi di acciaio posizionati dal Designer in una composizione predeterminata, armonica e leggera. Sarà sufficiente ancorare la staffetta al soffitto e poi sollevare il cluster di Tulip creando una sinusoide di fiori ad altezze variabili secondo il proprio gusto.

TULIP FREE-STANDING

Multiples of 14 are available to create dramatic installations anchored to the ceiling with small brushed brass fixtures that can be placed where desired. To help with installation, Slamp includes two illustrations of how the 14 blooms can be placed. This system allows for more aesthetic and technical control than the ceiling rose solutions, including connection to a single electrical source and the creation of a multi-point lighting chain using thinly braided copper wires.

Disponibile in multipli di 14 per creare scenografiche installazioni, questa edizione può essere ancorata al soffitto tramite piccoli fissaggi in ottone spazzolato posizionabili alla distanza desiderata. Per facilitare l'installazione, Slamp fornisce due dime con il disegno dei 14 fori. Questa soluzione lascia libertà compositiva pur mantenendo le stesse caratteristiche estetiche e tecniche delle soluzioni con rosone, come la connessione a un unico attacco elettrico e il concatenamento dei vari punti luce tramite il sottile cavo di rame intrecciato.

REPLACEABLE G4 LIGHTBULBS

The LED G4 2900 Kelvin lightbulbs come with the product and can be replaced autonomously, a dual-function commodity that allows for more efficient and rapid maintenance, as well as the personal choice of warmer or cooler lighting.

Le lampadine a LED G4 2900 Kelvin sono fornite insieme al prodotto e possono essere sostituite autonomamente. Una piacevole comodità per assolvere due funzioni: rendere le operazioni di manutenzione più rapide ed efficienti, assecondare i gusti di chi preferisce una luce più calda o più fredda.

This page: a free-standing composition of 80 blooms.
Previous page: a view from below the composition.

Slamp's exclusive, unbreakable Lentiflex® technopolymer is manually sculpted at a controlled temperature to create an illuminated bloom.

La modellazione manuale a temperatura controllata del Lentiflex®, tecnopolimero infrangibile di Slamp, dà vita ai boccioli luminosi di Tulip.

HAND MOLDED TULIPS

miguel arruda

“NUVEM IS NOT A LAMP,
BUT A GLOWING CEILING”

SLAMP:

nuvem

BY MIGUEL ARRUDA

technical details p. 542

Single module size /Dimensioni modulo singolo:
102 x 94 x h. 6 cm - 39-3/4 x 36-1/2 x h 2-1/4".

Modules of 1 sq. meter can be joined in infinite combinations; bidirectional illumination.
Moduli da 1 mq con luce bidirezionale componibili all'infinito.

"We didn't create a lamp, we created a ceiling." Architect Miguel Arruda created a system of 1 m hexagonal components that can be combined infinitely in diverse luminous installations.

"Non abbiamo fatto una lampada, abbiamo fatto un soffitto". Con queste parole l'Arch. Miguel Arruda introduce Nuvem: un sistema componibile di moduli da 1 mq ciascuno (di sezione esagonale) che si può comporre all'infinito creando differenti scenari luminosi.

technical details p. 542

Nuvem Velvet is made of silky, iridescent and printed Lentiflex®, joined by a bi-directional spotlight.
Nella versione Velvet la Nuvem è realizzata in Lentiflex® stampato che rende il modulo iridescente e setoso, coordinato anche il faretto spot bidirezionale.

PLAY VIDEO

Composition with 14 White modules and 7 bidirectional spotlights in a private house, Apulia, Italy.
Composizione con 14 moduli White e 7 spotlight bidirezionali, Villa privata in Puglia.

INFINITE EXTENSIONS IN EVERY DIRECTION

The meter-long hexagonal elements are easily connected by hand using a series of interlocking tabs that allow for limitless omnidirectional installation. The modules facilitate the adaptable and mutable personalization of private and contract spaces, adding a strong artistic note to each..

Gli elementi esagonali di un metro quadro, tramite un semplicissimo sistema di connessioni eseguibili a mano, si uniscono gli uni agli altri espandendosi in ogni direzione, per personalizzare gli ambienti con design sempre diversi e aggiungere una forte connotazione artistica ad abitazioni private e strutture ricettive.

PERSONALIZED SPOTLIGHTS

Nuvm's lighting system is a series of bidirectional spotlights (one per square meter) that can be positioned above or below (threaded through the modules' openings). Additional spotlights can be purchased separately for compositions that require amplified illumination.

Il sistema luminoso di Nuvm è composto da una serie di faretti con emissione bidirezionale (uno per ogni mq) che possono essere calati al di sotto del modulo decorativo, passando tramite i fori della composizione, o sollevato al di sopra della struttura. In presenza di particolari necessità compositive, eventuali faretti aggiuntivi possono essere acquistati separatamente.

ADJUSTABLE HEIGHT

Nuvm's height can be adjusted using the 6 meter cable, and once suspended, the design can be "moulded" using the push and pull system located directly beneath each module. The lamp collapses or tenses when the wires are pushed (released) or pulled, giving the ceiling a fluctuating feeling.

Oltre alla regolazione dei cavi fino a 6 metri, Nuvm dà la possibilità di modulare il design dell'oggetto, una volta sospeso, tramite il sistema "push and pull" posto direttamente al di sotto del modulo decorativo. Tirando o rilasciando i singoli cavi, la lampada si anima – collassando o stirandosi – per dare forma a un "soffitto" fluttuante.

FROM A LAMP TO A VERTICAL DECORATION

Weightless and free...just like a cloud. Nuvm goes beyond traditional illumination, with agile anatomy that allows it to transform the architectural elements of a space, running across the ceiling and moving down the walls, creating an infinite sky.

Leggera e libera come una nuvola, Nuvm va oltre la semplice illuminazione tradizionale: l'agilità della sua anatomia le permette di enfatizzare gli elementi architettonici trasformandosi da "soffitto" a decoro, calando sulle pareti per eliminare ogni confine tra cielo e terra della stanza

The 1 sqm modules have been handcrafted, really tailored, by Slamp's artisans; each can be connected thanks to a quick, intuitive, easy to install system that uses simple tabs.

I moduli da 1 mq sono pre-allestiti a mano dalle Sarte della Luce di Slamp e si possono collegare l'uno all'altro tramite dei semplici bottoni, rendendo l'installazione rapida e intuitiva.

ARCHITECTURAL SYSTEM

BY SLAMP CREATIVE DEPARTMENT

technical details p. 534

The Hugo Architectural System supports up to 7, one meter modules on a single electric input.
Il sistema Hugo Architectural permette di connettere fino a 7 lampade da 1 metro con un solo attacco elettrico.

PHOTOMETRIC DIAGRAM, HUGO.
DIAGRAMMA FOTOMETRICO DELLA HUGO.

COMPLIANT WITH THE UNI EN 12464-1:2011 STANDARD

Hugo offers the same qualities of traditional technical lighting without losing Slamp's iconic aesthetic value. The main office requirements established in the UNI EN 12464-1:2011 require an average illumination of 500 lx on work surfaces, a uniformity coefficient U_0 greater than 0.6, and a glare value (UGR) of less than 19. Both the Prisma and White versions conform to these requirements, including a CRI (colour rendering index) greater than 90.

Hugo offre una qualità di luce paritetica a quella degli apparecchi per illuminazione tecnica, in aggiunta al valore estetico tipico dei prodotti Slamp. I principali requisiti illuminotecnici per gli uffici, così come stabiliti all'interno della norma UNI EN 12464-1:2011 prevedono un livello di illuminamento medio sul piano di lavoro pari a 500 lx, un coefficiente di uniformità U_0 maggiore di 0,6 e un valore di abbagliamento (UGR) minore di 19. I calcoli illuminotecnici eseguiti sia con la fotometria della versione Prisma che della White dimostrano la completa rispondenza dei progetti ai parametri richiesti, incluso l'indice di Resa Cromatica (CRI) > 90.

Hugo Architectural System 2

Installation of 50 modules.
Installazione di 50 moduli.

MAXIMUM FLEXIBILITY

CONNECTION CABLE
30 cm (11-3/4")

One to seven one-meter luminous modules can be connected through a single electrical output using cables, allowing the flexibility to position modules 30 cm (11-3/4") from one another at varying angles.

Da 1 a 7 moduli luminosi da un metro di lunghezza possono essere connessi tra loro tramite un unico attacco elettrico e dei cavi di collegamento. La flessibilità di quest'ultimi permette di posizionare i moduli fino a 30 cm di distanza tra loro e in diverse angolazioni.

COMPLIANT WITH THE UNI EN 12464-1:2011 STANDARD

HOW TO MODULATE THE INSTALLATION

VERTICAL AND ORIZZONTAL MODULES,
WHITE AND PRISMA FINISHING

The Hugo collection includes both vertical and horizontal single modules, and the Architectural allows for up to 7 interconnected elements. The wide range of offer allows for creating unique, original, and easily installed solutions that can go beyond any limit.

La collezione Hugo include sia moduli orizzontali e verticali singoli, che il sistema Architectural fino a 7 elementi interconnessi. L'ampiezza della proposta permette di valicare i limiti del "finito" modulando facilmente installazioni originali e uniche.

ALIGNMENT ROD

If the composition requires further stability when the modules are positioned horizontally, 14,5 cm / 5-3/4" magnetic, transparent alignment rod are available.

Se la composizione ideata prevede un maggior rigore e si desidera allineare tra loro i moduli disposti in orizzontale, può essere fornita una barra di allineamento con attacco magnetico trasparente di 14,5 cm di lunghezza.

Multiple Hugo make a particularly dramatic statement within large spaces like hotels, conference halls, and shopping centers. In this picture, a composition of 80 modules.

Hugo è ideale in composizioni multiple particolarmente scenografiche per ambienti di grandi dimensioni come hall di alberghi, sale riunioni e centri commerciali. In questa composizione 80 moduli Hugo.

Kalatos Prisma e un dettaglio del
Lentiflex® nella versione Prisma.

Kalatos Prisma bottom view/ vista dal basso.

Kalatos is clearly inspired by the art of weaving baskets and cane sacks, a traditional domestic art that has been a part of humankind since prehistoric times. The collection is a high-tech take on this artisan craft, using Slamp's unique technopolymers; suspension and ceiling versions are available.

Il design di Kalatos è di chiara ispirazione all'arte dell'intreccio, espressione dell'artigianato artistico tradizionale che l'uomo porta con sé da quando, nella preistoria, intrecciava fibre vegetali per dar vita a cesti e canestri. Rivisitata in chiave high-tech, dato l'utilizzo dei tecnopolimeri di Slamp, la collezione si compone di una versione a sospensione e una plafoniera.

WHERE EVERYTHING EXISTS, AND EVERYTHING BEGINS

La Vie was inspired by the Flower of Life, equal to harmonious energy, a symbol of birth and beginnings, that vibrates life's frequencies. It is a three dimensional representation of all the materials in the universe, contained in a single object, the essence of everything.

Ispirata alla celebre simbologia del Fiore della Vita, La Vie è sinonimo di energia e armonia, è simbolo di inizio e di nascita, racchiude le frequenze della vita. È la raffigurazione tridimensionale di tutte le configurazioni che la materia che compone l'universo può avere. In un solo oggetto, l'essenza del tutto.

TABLE LAMP

A baroque-inspired masterpiece that unites tradition with haute design, using Stamp's technopolymers; the dual illumination includes a E27/E26 LED bulb in the main diffusor and a courtesy G9 LED bulb in the base, and each can be used independently.

Masterpiece d'ispirazione barocca che unisce un design dal sapore tradizionale all'uso dei tecnopolimeri di Stamp. Dotata di un sistema di doppia illuminazione: lampadina G9 LED di cortesia nella base e lampadina E27/E26 nel cappello, con accensione indipendente.

THE PER FECT WRITING LAMP

OVERLAY AND MONTBLANC
MEISTERSTÜCK SET

Sold together in an elegant, personalized case.
Choose between *fountain* or *ballpoint* writing instruments.
Vendute in combinata in un cofanetto personalizzato
Due versioni: *stilografica* e *penna a sfera*

The sensitive touch system turns on the LED
courtesy light in the brass base.
Il pulsante a sfioramento accende la luce LED
di cortesia nella base in ottone.

Lifting the writing instrument from the leather rest
turns on the main LED light in the Copperflex® shade..
Sollevando lo strumento da scrittura dall'alloggio in pelle,
si accende la luce LED nel diffusore in Copperflex®

The best gift to give passionate writers is the freedom to create without having to do anything else, without interrupting their inspirational flow: lift the pen and begin. Overlay was born of this concept. The perfect writing lamp's shade is illuminated the moment one lifts the Montblanc Meisterstück Le Grand, included with the lamp. The only thing left to do is choose is the type of pen stroke.

Il più grande regalo che si può fare agli appassionati di scrittura è lasciare che, colti dall'ispirazione, non debbano pensare ad altro che a sollevare la penna e incidere per sempre sulla carta i loro pensieri. E così nasce Overlay, la perfetta lampada da scrittura, il cui diffusore si accende semplicemente sollevando la Montblanc Meisterstück Le Grand fornita in combinata con la lampada. Basta solo scegliere quale tratto di scrittura si preferisce.

The name conjures up the image of a mythical nymph turned tree, and the illumination is balanced and peaceful. The charming tone on tone decoration has been inspired by laurel leaves.

Il nome della lampada porta con sé l'immaginario mitico della trasformazione della Ninfa da donna in arbusto. Con la sua luce, genera una sensazione di pace ed equilibrio: il segreto del suo fascino sta nel delicato decoro tono su tono, ispirato alla pianta di alloro.

Soft touch dimming system (0-100) with ergonomically placed button.
Sistema di dimmerazione 0-100 con pulsante soft touch in posizione ergonomica

The design and bend of the floor lamp were inspired by the outreached hands of Michelangelo's "Last Judgement" in the Sistine Chapel. The light touch dimming system is ergonomically placed, and blinks when the lamp is at minimum and maximum brightness.

L'inclinazione e il design della lampada da terra sono ispirati al tocco delle mani dei protagonisti del Giudizio Universale, il dipinto di Michelangelo nella Cappella Sistina. Il sistema di dimmerazione a sfioramento, collocato in posizione ergonomica, lampeggia quando raggiunge il punto massimo e minimo d'intensità luminosa.

heritage

COLLECTIONS

TIMELESS ICONIC OBJECTS

GEO

**1997
SILVIO VILLA**

Two-dimensional like a map, and three-dimensional like a globe, united for the first time in a single design object.

Le 2 dimensioni di una cartina geografica e la tridimensionalità del mappamondo per la prima volta unite in un unico oggetto d'arredo.

RAVENNA

**1997
SILVIO VILLA**

The first experimentation with the textural graphics of the world's most beautiful Byzantine mosaics.

La prima sperimentazione di grafica a rilievo, permette di riprodurre su un tecnopolimero i mosaici bizantini più belli del mondo.

TOP KAPI

**1997
A. BARATTONI**

A daring gesture with irreverent traits see Swarovski crystals and technopolymers united for the first time.

Un gesto audace, a tratti irriverente: unire per la prima volta il cristallo di Swarovski a un tecnopolimero.

ETNO

**1997
SILVIO VILLA**

Tribal rhythms resound in this collection that accompanied entire generations of admirers.

Ritmi tribali sembrano risuonare in questa collezione che ha accompagnato intere generazioni di amatori.

FAHNE

**1997
A. MENDINI**

Alessandro Mendini's unmistakable fingerprint, translated into a colorful play that opens new horizons.

Il segno inconfondibile di Alessandro Mendini, traslato in un gioco di policromie, fa spazio ad un nuovo orizzonte di visione

OMBRE NAPOLETANE

**1998
R. DALISI**

A Renaissance genius under the shadow of Mt. Vesuvius in a collage of his coveted symbols, Dalisi pays homage to his city.

Maestro rinascimentale all'ombra del Vesuvio, con un collage di simboli a lui cari, Dalisi rende onore alla sua città.

KI WOK

**1998
A. BARATTONI**

Was covering a lamp in fur in Roma during the '90s folly or pure genius?

Che sia follia o puro genio quello di rivestire in pelliccia una lampada a Roma negli anni '90?

DEVIL

**2007
NIGEL COATES**

The layering of multiple, red metallized Steelflex® arrows make Devil graphic and seductive.

La sovrapposizione di frecce realizzate in Steelflex® metallizzato rosso rendono Devil grafica e seducente.

PACIS

**2009
NIGEL COATES**

Symbolising peace, a cascade of crystal runs through a crown of laurel leaves.

Da un'avveniristica corona d'alloro concentrica, che simboleggia la pace, scende una cascata di cristalli.

CREATURES

**2009
NIGEL COATES**

Inspired by a marine animal that almost comes alive with light. Created from resistant, bright white Opalflex® with many smaller inserts in Fumé Cristalflex®.

Nel design richiama una creatura marina, realizzata in resistente Opalflex® white con piccoli inserti di Cristalflex® Fumé.

GIRA FIORE

**2010
ELODIE LONGO**

The splendid layered crown made of Opalflex® petals is the perfect recreation of the endless game of tag between the Sun and sunflowers.

La splendida corolla piegata realizzata da petali in Opalflex® ricrea perfettamente l'eterno gioco dei girasoli nel rincorrere il sole.

CHA PEAU

**2011
NIGEL COATES**

The mirrored inside is enveloped by a black layer, creating particularly elegant refractions.

L'interno è specchiato, avvolto in uno strato nero, per creare una elegante rifrazione della luce

BAT TISTA

**2011
NIGEL COATES**

This artistic lamp has a base carved from antique poplar beams, supporting a Cristalflex® column.

In questa artistica scultura luminosa la colonna di Cristalflex® è supportata da una base in pioppo ricavata da antiche travi riciclate.

FAR ETTO

**2011
NIGEL COATES**

A central cone surrounded by layered rings that play with the light without losing form.

Un cono centrale dove cerchi sovrapposti giocano con la luce senza perdere la direzione.

MILLE BOLLE

**2011
A. RACHELE**

Tiny sheets of iridescent polycarbonate that casts a kaleidoscope of luminous soap bubbles.

Piccoli fogli di policarbonato iridescente che ricreano i riflessi delle fugaci bolle di sapone.

HEL IOS

**2012
SLAMP TEAM**

The fluidity of a waterfall combined with the power of a LED source on a Carrara marble base.

La suggestione dell'acqua e la potenza del LED vengono sostenute dalla base in marmo di Carrara.

PUN CTUM

**2013
NIGEL COATES**

A LED lamp specifically design for corners, interrupting linearity with its mirrored surface.

Lampada a LED specchiata progettata per esaltare gli angoli rompendone la linearità.

CRO CCO

**2013
NIGEL COATES**

The fauna-inspired shape is realized with digital printing on Lentiflex®, creating a silky morphing effect.

La sua forma zoomorfa è realizzata in Lentiflex® stampato digitalmente che crea un effetto morphing setoso.

CUO RE

**2013
NIGEL COATES**

Ancestral symbol with a modern twist, Cuore representing loyalty and passion.

Cuore è un simbolo ancestrale in chiave contemporanea che rappresenta lealtà e devozione.

DESERT ROSE

**2017
DORIANA AND
MASSIMILIANO FUKSAS**

The light only enhances the rhythm of the lamp's geometries, begun with a two-dimensional sheet transformed into ethereal shapes.

La luce rivela il ritmo delle geometrie, che partendo da un materiale bidimensionale si trasformano in un volume complesso.

technical details

SLAMP:

ACCORDÉON SUSPENSION

LED: 52W 100 ~ 240V - 5.900 Lumen
 2700 Kelvin or 3000 Kelvin
 220V version dimmable with PWM / 0-10
 110V version Dimmable with: Triac
 Additional dimming system Dali, Bluetooth, Casambi, Triac upon request
 MADE OF: Lentiflex® / Goldflex® / Steelflex®

ACCORDÉON VERTICAL SUSPENSION

1 X 10W LED Filament Bulb E14/E12
 Dimmable with dimmable bulbs (max dim.Ø5 cm - 2")
 MADE OF: Lentiflex® / Brushed Goldflex®
 WITH: Hand molded diffusor, black wrapped electric wire

ARIA APPLIQUE

2 X 6W LED Filament Bulbs E14/E12
 + 1 X 6W Spot LED Bulb E14/E12
 Dimmable with dimmable bulbs

HUGO ARCHITECTURAL SYSTEM

COMPONENTS:

ARCHITECTURAL SYSTEM 2

40W-100~240V/24Vdc - 7000 Lumen
3000 Kelvin (4000 upon request)
Dimmable with: PWM, 0-10
(110V-220V)
Additional dimming system Dali,
Bluethooth, Casambi, Triac upon
request

ARCHITECTURAL SYSTEM 5

100W-100~240V/24Vdc-17.500 Lumen
3000 Kelvin (4000 upon request)
Dimmable with: PWM, 0-10
or Potentiometer (110V-220V)
Additional dimming system Dali,
Bluethooth, Casambi, Triac upon
request

ARCHITECTURAL SYSTEM 3

60W-100~240V / 24Vdc - 10.500 Lumen
3000 Kelvin (4000 upon request)
Dimmable with: PWM, 0-10
or Potentiometer (110V-220V)
Additional dimming system Dali,
Bluethooth, Casambi, Triac upon
request

ARCHITECTURAL SYSTEM 6

120W-100~240V/24Vdc - 21.000 Lumen
3000 Kelvin (4000 upon request)
Dimmable with: PWM, 1-10
or Potentiometer (110V-220V)
Additional dimming system Dali,
Bluethooth, Casambi, Triac upon
request

ARCHITECTURAL SYSTEM 4

80W-100~240V/24Vdc-14.000 Lumen
3000 Kelvin (4000 upon request)
Dimmable with: PWM, 0-10
or Potentiometer (110V-220V)
Additional dimming system Dali,
Bluethooth, Casambi, Triac
upon request

ARCHITECTURAL SYSTEM 7

140W-100~240V/24Vdc-24.500 Lumen
3000 Kelvin (4000 upon request)
Dimmable with: PWM, 1-10
or Potentiometer (110V-220V)
Additional dimming system Dali,
Bluethooth, Casambi, Triac upon
request

Transparent magnetic alignment rod to perfectly align
modules are available upon request
Disponibile su richiesta una barretta trasparente con
estremità magnetiche per tenere i moduli perfettamente
allineati.

ALL SLAMP PRODUCTS ARE PRODUCED AND ASSEMBLED IN ITALY

W W W . S L A M P . I T

The company in this catalogue suggests the lightbulb wattage for an optimal balance of illumination and aesthetic output per product, as well as bulb size: E27/E26: Ø6 cm (2-1/4") E14/E12 Ø4,5cm (1-1/2"). Higher wattage can be used as long as the bulb is exclusively LED and matches the required size.

Il wattaggio delle lampadine sul seguente catalogo è suggerito dall'azienda per un ottimale balance fra resa luminosa ed estetica del prodotto oltre che alla dimensione del bulbo E27: Ø6 cm - E14: Ø4,5cm. Possono essere utilizzati wattaggi superiori purchè si utilizzino esclusivamente lampadine LED con una dimensione del bulbo adeguata.

Products are patented throughout the world and conform to the leading electrical safety standards. For any further info please ask your Slamp representative.

CE IP 20         CB REPORT AVAILABLE ON REQUEST

 All Slamp lamps are RAEE Standards compliant
